* For electric street railways by cities, see Table I (d). ** Differentials on certain lines or divisions above these rates. Nearly all classes are on the basic 8-hour day with time and one-half for overtime, but in some cases other consideration has been arranged.

[Mechanists; boilermakers; blacksmiths; plumbers, etc.; sheet metal workers; cabinet makers; carpenters, coach, locomotive and bench welders, etc.] † Freight car carpenters; freight car painters; car inspectors, car repairers, etc. ‡ Since 1918 employees are allowed one minute extra, for checking in and out, for each hour actually worked, thereby increasing earnings approximately one cent per hour.

(a) On Western lines Port Arthur and west, until 1929 in addition to these rates boilermakers' helpers received 5½ cents; blacksmiths' helpers, 4 cents, and other helpers 3 cents; since May 1, 1929, the differentials on western lines were boilermakers' helpers 4 cents, other helpers 2 cents.

(b) Deductions from each employee's earnings on basic rates effective as follows. Train, engine and telegraph service, 10 per cent Dec. 1, 1931; 20 per cent May 1, 1933; 15 per cent Nov. 1, 1933; Maintenance of way and bridge and building, 10 per cent May 1, 1932; 15 per cent Dec. 1, 1933; Locomotive and car shops, 10 per cent April 1, 1932; 15 per cent Dec. 16, 1933, with certain exceptions. Deduction amended for all classes effective as follows: Jan. 1, 1935, 12 per cent; May 1, 1935, 10 per cent. † Rates include board and lodging and vary to a great extent according to size or type of vessel. Hours on duty for officers, seamen, deckhands, etc., generally average twelve per day seven days per week except when in port; for engineers, firemen, oilers, etc., hours generally average eight per day, but twelve in some cases; for stewards, cooks, etc., hours vary according to requirements. All classes may be required for extra duty at any time, especially in the Great Lakes and Upper St. Lawrence service when passing through canals. On most of the British Columbia coastal passenger vessels hours for all classes average eight per day, 6 days per week, with extra pay for overtime. Some of the tug-boat employees in all areas are on the eight hour day.

* The figures given for contract miners are the average earnings at piece rates and for some mines the figures include helpers and loaders on piece work; the figures given for machine and hand miners are rates per day.

† Higher rates are paid in two or three mines for some of these classes; also in the large mines for certain positions.

‡ Electric hoist.

* In Yukon Territory a few hundred tons of coal have been mined each year employing two to four miners, usually from 50 to 100 days; in 1935 wages averaged \$12.38 per day for 51 days, four miners; in 1934 wages averaged \$7.94 per day for 71 days, three miners; in 1935 wages averaged \$7.90 per day for 50 days, three miners; in 1934 wages averaged \$10.90 per day for 44 days, three miners; in 1937 wages \$10.00 per day for 10 days, two miners. For 1921 the figures were included with British Columbia. In Manitoba, coal mining operations were commenced in 1931 employing 38 men for an average of 23 days, wages averaging \$3.46 per day; in 1932 the average number of miners was 6, averaging \$2.84 per day, 1,128 man working days; in 1933 the average number of miners was 10, average wage \$2.10 per day, 2,955 man working days; in 1934 the average number of miners was 12, average wage \$2.03 per day, 3,132 man working days; in 1935 the average number of miners was 12, average wage \$1.15 per day, 2,571 man working days; in 1936 the average number of miners was 15, average wage \$1.22 per day, 3,212 man working days; in 1937 the average number of miners was 10, average wage \$1.71 per day, 2,193 man working days.

† Prolonged dispute during year.

‡ Figures calculated by dividing number of man days worked into total wages paid.

§ Prior to 1933 the figures for Nova Scotia included certain employees handling coal at a distance from the mine.

APPENDIX D

Weekly Earnings of Employees in Merchandising and Service Establishments in Canada, 1937

A report issued by the Dominion Bureau of Statistics entitled "Weekly Earnings of Employees in Merchandising and Service Establishments in Canada, 1937," affords data as to the average weekly earnings of employees with numbers employed for three classes of establishments: independent retail stores, chain stores, and wholesale trade. The first two reports of this nature covered the years 1935 and 1936, and a summary table of the figures was given in Appendix D in Reports No. 20 and No. 21. Figures for motion picture theatres were given in the report for 1935 but not in those for 1936 and 1937. The figures as to independent retail stores are chiefly from those which had an annual business of \$20,000 or more in 1930 as shown in the census of 1931. This section includes department stores, restaurants, gasoline stations, garages, as well as retail businesses of various kinds. The information on chain stores was secured from all companies operating four or more units in the same or similar

lines of trade and included earnings of store managers, clerks, cashiers, delivery and any other store employees but not for head office staff, warehouse and transportation employees. For the section on wholesale trade, information was secured from all the larger wholesale dealers and from a number of sales offices and distribution branches maintained by manufacturers.

In addition to the data as to the numbers of employees and average weekly earnings the report contains tables showing the percentages of employees in each kind of business by provinces whose weekly earnings fell within specified ranges: under \$6, \$6 to \$6.99, etc., up to \$100 and over. Figures as to earnings are tabulated in various other categories.

The accompanying table shows the average weekly earnings and numbers of employees, male and female by kinds of business and by provinces. The figures as to each kind of business by provinces are not included.

APPENDIX E

WAGES AND HOURS OF LABOUR IN FEDERAL GOVERNMENT CONTRACTS AND UNDER PROVINCIAL LEGISLATION

Legislation providing for the regulation of wages or hours of labour or both has been enacted in all provinces but the scope and application of the statutes and the method of regulation vary. The Dominion Government regulates wages and hours of persons employed on public works and imposes condi-

tions as to wages and hours in the manufacture of government supplies.

A special publication on Legislation concerning Hours of Labour in Canada is expected to be published shortly. Where information as to hours is necessary for an understanding of wage regulation, it is given briefly in this section.

Federal Government Contracts

In accordance with a Resolution of the House of Commons in 1900, the Fair Wages Policy of the Federal Government has provided for the observance of rates of wages generally accepted as current for competent workmen in the district where the work was performed or, in the absence of current rates, for fair and reasonable rates. This policy applied to building and construction work and to the manufacture of government supplies.

In 1922 the application of this policy by the various departments of the government was standardized under an Order in Council, setting forth the labour conditions to be inserted in contracts for building and construction and for the manufacture and supply of mail bags, letter boxes, and other postal stores, fittings for public buildings, harness, saddlery, clothing and other equipment for the military and naval forces, Royal Canadian Mounted Police, letter carriers, and other Government officers and employees.

On December 31, 1934, the labour conditions previously applicable to contracts for the manufacture of various classes of Government supplies as listed above, were rescinded and new conditions substituted (LABOUR GAZETTE, January, 1935, page 24).

The requirement for the payment of wages at not less than current rates, or fair and reasonable rates if there are no current rates, is retained, but it is also provided that males and females under 18 years of age will be entitled to rates of wages not less than those provided for women and girls in the minimum wage scales of the respective provinces. In certain of the Maritime Provinces where such minimum scales are not in effect, the contractors are required to pay the males and females under 18 years of age wages not less than those provided for women and girls under the Minimum Wage Act of the Province of Nova Scotia.

It is also provided that in no event shall the wage rate for male workers 18 years of age and over be less than 30 cents per hour, or for female workers 18 years of age and over, 20 cents per hour, but in any cases where the provincial minimum wage laws require the payment of higher wages than those set out above, such higher rates shall apply in the execution of Federal contract work. For instance, for a 50-hour week on a Federal Government contract a male 18 years of age and over, whether experienced or inexperienced, must be paid not less than \$15 and a female \$10 even if the provincial minimum scale may provide \$6, \$7, \$8, etc., but if the provincial minimum scale is in excess of \$15 in the case of a male and \$10 in the case of female workers then the provincial scale must prevail.

The Fair Wages and Hours of Labour Act, 1935, gives statutory effect to the Government's wage policy with respect to public works. This statute replaced the Fair Wage and Eight Hour Day Act, 1930. It provides for the observance of current rates of wages and stipulates also that wages shall in all cases be such as are fair and reasonable. It requires an eight-hour day and 44-hour week on building and construction under federal government contracts and on works towards which federal aid is granted by way of subsidy, loan, etc., as before, but extends the list of such works to include those carried out by any provincial and municipal authority if financial aid is given by the federal government, "unless the grant or payment is by statutory authority or by agreement with the Government of Canada excepted." It is also provided that regulations may be made to require the furnishing of any necessary information to ensure the enforcement of the statute. Any contract may be exempted from the Act by order in council before being entered into.

Minimum Wages for Female and Male Employees under Provincial Legislation

Minimum wage legislation providing for the establishment by a government board of minimum rates of wages is on the statute books of every province but Prince Edward Island. These Acts applied at first only to female workers but at the present time all but that of Nova Scotia apply or may be applied to males also. In Alberta and British Columbia there are separate statutes relating to each sex. In New Brunswick the Minimum Wage Act applying to women was never put into effect. The New Brunswick Fair Wage Act, 1936, now incorporated in the Labour and Industrial Relations Act, 1938, enables minimum rates of wages to be established for both male and female workers but the only orders made under the Act apply to particular establishments.

Boards administering minimum wage laws have power to fix special rates for handicapped workers and in some provinces such workers have to be licensed. Lower rates which are increased at specified intervals are established for learners or inexperienced workers by the orders applying to some occupations but abuse of this provision is usually guarded against by a restriction on the proportion of inexperienced workers that may be employed at such rates. In some cases, inexperienced workers are classified according to age and those over 18 years of age have higher minimum rates than those under 18.

Under the first Minimum Wage Acts in Alberta, British Columbia, Manitoba and Saskatchewan, the administrative board had power to limit hours of labour and the orders as to hours were to supersede the provisions of any existing statute. In other provinces the board could only specify the number of hours to which the minimum rates applied but in both cases overtime rates could be established. At the present time in Manitoba and Saskatchewan and in Quebec and New Brunswick, maximum hours of work may be fixed. In Ontario the statute specifies the hours to which the rates apply and in Nova Scotia, as before, the board may declare the minimum rates to apply to a certain work period. In Alberta, since the enactment of the Hours of Work Act, 1936, applying to all employment except farm work and domestic service, there has been no authority under the Minimum Wage Acts to limit hours. In British Columbia where the Hours of Work Act, 1934, applies only to industrial under-

takings, shops, hotels and restaurants and certain other specified occupations, the Female Minimum Wage Act gives power to the Board of Industrial Relations to limit hours but no similar authority is granted by the Male Minimum Wage Act. In Ontario and New Brunswick under the factory law, hours of women and young persons in factories are limited to 10 a day and 60 a week and in Quebec to 10 a day and 55 a week with provision in all cases for limited overtime on not more than 36 days in the year. In Ontario the same limitations apply in shops. In Quebec women and young persons may not be employed more than 60 hours a week in shops in cities of over 10,000 population. There is no restriction on hours in factories and shops in Nova Scotia. In Saskatchewan weekly hours of women and young persons in factories are restricted to 48 a week and in Manitoba to a 9-hour day and 54-hour week. In Manitoba Minimum Wage orders put a further limitation on hours in factories.

The provisions in Minimum Wage orders concerning hours and the rates for overtime and part-time work are set out below under each province. In all provinces, workers required to wait on the premises must be paid for the time so spent and if the employer requires uniforms to be worn, as in hotels and restaurants, he must furnish them and pay for laundry. Special provision is made in Quebec for uniforms made to measure.

Apart from the special statutes providing minimum wage-fixing machinery, minimum rates of wages may be fixed for certain classes of workers under other legislation in several provinces, such as lumber workers and truck or bus drivers. Minimum wages and maximum hours are established also under the Manitoba Fair Wage Act, the Collective Labour Agreements Act of Quebec and the Industrial Standards Acts of Alberta, Nova Scotia, Ontario and Saskatchewan. The last five named statutes are dealt with in a separate section later in this Appendix.

The minimum rates established are set out in the following tables and a brief summary of the provisions in so far as they affect wages is given for each province. For full information it is necessary to refer to the orders as issued by the provincial authorities. Fairly complete summaries have been published in THE LABOUR GAZETTE when the orders were gazetted.

PRINCE EDWARD ISLAND

The Charlottetown Incorporation Act as amended in 1936 empowered the city council to make a by-law prohibiting any labourer or workman being hired at less than 35 cents an hour for any work done in the city by or

under a contractor or of the kind usually done by contractors if directed by any person other than the owner of the property on which the work is done. Such a by-law was passed on May 14, 1936.

NOVA SCOTIA

The Nova Scotia Minimum Wage for Women Act enables the Minimum Wage Board to fix minimum rates of wages, except in agriculture or domestic service, for female workers in any trade or occupation in cities and towns.

Minimum rates have been established for experienced and inexperienced female workers under 18 and over 18 in laundries and dry-cleaning establishments; bakeries and places making food products; hotels and restaurants; textile and needle trades, including boots and shoes; telephone operators; factories not covered by another order, bookbinding, paper-box making and other paper trades; shops; beauty parlours; and offices. Except in offices, the number of inexperienced adults or young girls or of both is limited to 25 per cent of the total number of females in the establishment.

The length of the learning period varies with the occupation but under all orders, except those applying to shops, beauty parlours and hotels and restaurants, it is limited to one year for persons over 18 years of age and to 18 months for those under 18. For office work, only a three months' learning period is required if the employee holds a satisfactory diploma from a business school. For beauty parlours and hotels and restaurants, no distinction is made by reason of age. For beauty parlours there is a "beginner's rate" applying to the first six months, then rates for "inexperienced" employees for 12 months. Employees who have paid for at least three months' training in a school or beauty parlour may not be required to start at the beginner's rate. In hotels and restaurants there is a learning period of three months. In shops, including millinery, dressmaking or fur-sewing connected with a shop, there is a probationary period of three months for which no wages need be paid and a subsequent learning period of 18 months for all workers, the rates varying according as the worker is over or under 18 years of age.

Piece-workers under the miscellaneous factory and paper trades order must be paid the specified weekly minimum for the first six months, after which it is sufficient if only 80 per cent receive the prescribed minimum.

As regards hours of labour, the minimum rates apply to a week of from 44 to 50 hours except in beauty shops and offices where they relate to a 48-hour week or the normal work-week if less than 48. Overtime after the specified hours and short time for less than 44 or 48 hours, as the case may be, must be paid *pro rata*. Special provisions for shops permit a 60-hour week from December 15 to 31, require time and one-half to be paid for work in excess of 50 hours, prohibit any reduction from the minimum wage for a statutory holiday and require the rates for experienced workers to be paid to all part-time and casual employees in shops.

Wages must be paid in cash in shops and beauty parlours and no deductions may be made. The order governing shops requires wages to be paid at regular intervals not exceeding one month, while that relating to beauty parlours stipulates that the cash must be given in a sealed envelope bearing the employee's name, the amount enclosed, the date of the week or fortnight she worked, the number of hours worked and the hourly rate. As required for factories and laundries by the Factories Act, the order for offices stipulates that one hour daily must be allowed for lunch.

Where board or lodging or both are provided by the employer, the amounts that may be taken from wages in payment thereof are limited to \$2 a week for lodging and \$4 for board except for workers in laundries. The latter may be charged not more than \$4.50 for board and lodging in Halifax and other towns except Sydney and Glace Bay where a maximum of \$4.50 for board and \$1.50 for lodging may be deducted. In no case may more than 25 cents be deducted for a single meal.

NEW BRUNSWICK

The Minimum Wage Act, 1930, applying to female workers, has not been put in effect. The Labour and Industrial Relations Act, 1938, which reproduces the provisions of the Fair Wage Act, 1936, provides for a Fair Wage Board with powers to establish minimum wages, maximum hours and overtime rates. No orders of general application have been issued.

Forest Operations

Under the Forest Operations Act, 1934, a Forest Operations Commission was constituted with powers to make final decisions in labour disputes, subject to the approval of the Minister of Lands and Mines, and to fix minimum wage scales for the industry. The Act does not apply to work on Christmas trees or firewood operations. It permits the employment of men inexperienced or physically unfit for a full day's work at wages below the minimum rates established, if agreements approved by the Commission are signed by the employers and the men concerned.

From March 20, 1937, the Commission established, for stream driving, an average

rate of wages of \$3 per day and board or its equivalent in the case of piece work, but the wages paid to cooks were not to be included in determining the average rate. Foremen, book-keepers and clerks are not within the scope of the Act and their wages are not considered in determining the average. For booming and sorting, the minimum rate is 28 cents per hour without board, provided, however, that where board is furnished by the employer, not more than 50 cents per day may be charged the employee.

From October 1, 1938, for cutting, yarding and hauling, the average wage rate paid by any employer must be at least \$34 per month and board and the minimum rate for each employee \$30 per month and board. Piece-workers must not be paid less than an average of \$34 with board. If board is not furnished by the employer, wages must be increased by 50 cents a day. Wages paid to cooks and truck drivers and the amounts paid to employees for piece-work are not to be included in determining the average wage.

QUEBEC

The Fair Wage Act, 1937, replacing the Women's Minimum Wage Act, empowers the Fair Wage Board to fix minimum rates and maximum hours for any employees except farm labourers and domestic servants and workers covered by a collective agreement under the Collective Labour Agreements Act.

Two basic orders fix minimum wages in commercial and industrial establishments. Order 1-2-3 applies, outside cities and towns, to female employees and to males in the same occupations in retail and wholesale stores and in factories. Order 4 applies to employees of both sexes in commercial and industrial establishments of any kind, to road transport, hotels, teachers and other classes in cities and towns. The Order regulates overtime, part-time, piece-work, home-work, payment in cash and other matters. For a full summary of this Order, see *THE LABOUR GAZETTE*, May, 1938, p. 512.

Subsequent orders deal with special industries or occupations which would otherwise be covered by one or both of the basic orders. In some cases, they relate only to a limited area. Those in effect on December 31, 1938, apply to: silk textiles; stationary engineers and firemen employed on the Island of Montreal and within a five-mile radius; manufacture of shoe counters; cotton textile industry excluding persons paid by the month; office workers; those engaged exclusively in rayon operations; teachers in Verdun; milk

industry on the Island of Montreal and within five miles; hospital employees except in the Cities of Quebec and Levis and neighbouring counties and excluding religious orders and maintenance men; building trades in the County of Arthabaska; match factories; maintenance men in buildings used for offices, warehouses, industrial and commercial establishments or apartment houses, but not hotels or restaurants, on the Island of Montreal and within a five-mile radius; packing and grading waste paper; wholesale and export trade in butter and cheese on the Island of Montreal; laundries, dry cleaning and dye-works employing more than five persons on the Island of Montreal and within a five-mile radius; funeral casket manufacture, etc.; full-fashioned hosiery; tanning and dressing of hides and leather; and brick and tile manufacture.

The accompanying tables show the minimum rates established for the principal classes of workers by these orders except in cotton textiles, teachers in Verdun, hospital employees, building trades in Arthabaska County and match factories. The cotton textile order which continued in effect the rates of wages fixed by an agreement between the Dominion Textile Company and the National Catholic Textile Unions is being revised. The rates fixed applied to a 54-hour week. Teachers in Verdun had the scale of salaries raised to that adopted by the Catholic School Board of Montreal. The hospitals order provided for

increases over the existing salary or wage rates. All match factories in the province are to be considered as falling within Zone 2 as defined in Order 4 for the purpose of determining the minimum rates.

Different rates are set for the zones into which the province is divided by most orders. Certain orders require not less than a fixed percentage of the employees to be paid one minimum rate and the rest at lower minimum rates. Apprentices in most of the classes under Order 4 may not exceed 10 per cent of the total number of employees in the establishment and they may be paid not more than 10 per cent less than the rate for the class. Under the special orders apprenticeship is usually limited and separate rates are fixed.

Hours of labour are not limited by the orders except that a maximum of 72 hours a week is established for male workers by Order 4. Hours of females and boys under 18 in industrial establishments and in shops are restricted by statute to 60 a week except with special permit. In almost all cases the minimum rates of wages apply to a specified number of hours. Overtime, which must be paid for at the rate of time and a half except when the Board permits otherwise and under certain other conditions, is defined for most classes of workers as work in excess of 12 hours a day, or in excess of 10 hours a day if the specified weekly hours are worked or in excess of the weekly hours named. In silk textiles, however, the overtime rate is 5 per cent above the minimum and some special workers in other industries are paid *pro rata* or at a fixed rate. Overtime is not payable to persons earning a minimum of \$30 a week in the Montreal district, \$25 or \$20 in the other zones, or, unless the hours are increased by more than 10 per cent, to those paid at a rate of 15 per cent above the minimum and given two weeks holidays in a year and two weeks sick leave withpay.

For less than 30 hours work in a week employees under Order 4 must be paid at least 15 per cent above the ordinary minimum for the class and they must be paid for at least three hours work in a day.

For board and lodging supplied by the employer, Order 4 limits the amount that may be deducted per week from wages to \$5 in the Montreal District, \$4 in Zones 2 and 3 and \$3.50 in Zone 4. For board only, the maximum deductions are \$4, \$3 and \$2.50 and for room only \$1.50, \$1.25 and \$1. Separate meals are 20 cents, 15 cents and 12 cents. In the milk industry and in mining and construction camps, the rates for board and lodging are higher.

Wages in Forest Operations

Under the Act to Assure Reasonable Wages for Workmen engaged in Forest Operations, 1937, an order in council, approved August 30, 1938, makes it obligatory on all employers engaged in forest operations except on private lands belonging to farmers or settlers to pay to all workers a minimum wage of \$45 per month of 26 days, with the exception of inexperienced youths from 18 to 20 years of age, incapacitated persons and men of 60 years or over for whom the minimum is \$30 per month of 26 days. It is, however, provided that in no case may the number of such men in a shanty paid less than \$45 per month exceed $12\frac{1}{2}$ per cent of the total number of workers. The employment of any person under 18 years is prohibited. In addition to the above wage rates, board and suitable lodging must be supplied free of charge to the worker. For those on piece work, minimum prices for such work are set and they may be charged 70 cents per day for board and lodging, but all piece workers must receive at least \$45 per month of 26 days in addition to board and lodging. No deduction may be made from wages for medical assistance, cots, blankets, etc., and prices for goods sold to workers are subject to regulation. Regular hours are limited to 60 per week, with time and one-quarter for overtime and time and one-half for indispensable work on Sundays except for necessary work by cooks, cookees, stablemen and carters.

(a) For 10-hour day and 50-hour week. Minimum and average rates per hour are fixed for several classes of employees in various departments. Only the lowest and highest rates are given. Average rates are required to be determined at least every 8 weeks.

(b) 55-hour week.

(c) 8-hour shift, 7-day week.

ONTARIO

The Minimum Wage Act of 1920 applied directly only to females but as amended in 1934 stipulated that males replacing female employees must be paid at least the minimum fixed for the latter. The Minimum Wage Act, 1937, repeals the 1920 Act. It applies to both sexes in any business, trade or occupation except agriculture and domestic service but the one order made under its authority is one relating to the textile industry.

Orders under the earlier statute remain in effect for the following trades and occupations: hairdressing; jewellery trades; laundries, telephone systems; dyeing and dry cleaning works; retail stores; custom millinery; hotels and restaurants; beauty shops; shoeshine parlours; offices; elevator employees; theatres and places of amusement. Custom tailoring in the five largest cities, Toronto, Hamilton, London, Ottawa and Windsor, falls within the factory order. The retail stores order does not apply to office and restaurant workers employed in connection with a shop.

The learning period varies with the industry and, in some cases, with age. There is no learning period for workers in theatres or places of amusement, hotels, restaurants or shoeshine parlours. In beauty shops and in custom tailoring in the five cities mentioned there is no prescribed minimum for the first three months nor in the case of elevator operators for the first two weeks. In factories and offices, except where the worker has a business college diploma, the learning period is one year for a girl over 18, and 18 months for one under 18. In offices in towns or villages of less than 4,000, there is no distinction on the ground of age and the learning period is 18 months in places of more than 1,000 population and 12 months in smaller places. In jewellery trades a worker is entitled to the full minimum after 18 months if she is over 18 years of age and after two years if under that age. In shops, except in small places, girls over 18 have a learning period of one year and if under 18, two years. Employees reaching 18 years of age without selling experience in the five cities named must be paid at least \$11 a week for the first six months, then the full minimum. In laundries, the learning period is nine months; in beauty shops, two years; in telephone offices, one year; and in custom millinery, three years.

The minimum rates are declared to apply to a specified number of hours per week, which varies according to the size of the municipality, or to the usual number of hours worked in the establishment if less than the specified number. The Industry and Labour Board, which administers the Act, has no power to fix maximum working hours but may fix special rates for work in excess of the stipulated hours. In municipalities of over 50,000 persons the specified number of hours is 48; in municipalities with 10,000 to 50,000 persons, 50 hours,

and in other municipalities or places without municipal organization, 54 hours.

All the orders in effect that were made under the earlier Act required overtime to be paid for at proportionate rates but minimum hourly rates, instead of weekly, were established for canning factories operating seasonally and hotels and restaurants. Special overtime rates have been fixed in the textile industry by the Industry and Labour Board. For the first two hours' work in excess of regular daily hours, 31½ cents an hour must be paid to girls and women over 18, 27½ cents an hour to girls of 17, and 22½ cents to girls under 17 years of age. For males the rates for the first two hours of overtime in any day range from 27½ cents an hour for those under 17 to 40 cents for those over 21, the lower rate increasing by 2½ cents with each year of age. All other overtime must be paid for at the rate of time and one-half. Employees who receive more than the weekly minimum for the regular work-week must be paid time and one-quarter for the first two hours overtime in any day and time and one-half for all other overtime.

The provisions as to payment for part-time and short-time vary. The textile order requires part-time workers employed for at least 40 hours a week to be paid the prescribed minimum wage for a week and those working for less than 40 hours to be paid an hourly rate equal to one-fortieth of the minimum. Workers temporarily on short time must be paid at least their regular hourly rate.

The proportions of inexperienced workers that may be employed is limited in shops and laundries to 40 per cent of the total number of female employees and in custom millinery, exclusive of temporary help, in the four largest cities to 33½ per cent.

All beginners, including piece-workers in factories, must be paid the weekly minimum for the first six months and in laundries for the first three months. Afterwards and at all times in the textile industry, it is sufficient if 80 per cent of the piece-workers receive the prescribed minimum. In the seasonal fruit and vegetable industry only 60 per cent of the piece-workers need be paid the minimum.

For board in hotels and restaurants in Toronto, not more than \$5 a week may be charged to employees nor more than \$2 for lodging. Elsewhere in the province and in seasonal canning factories the maximum deduction for lodging is \$1.50 a week and for board \$4.50. Not more than 25 cents may be charged for a single meal.

The Commercial Vehicle Act, 1936, gives the Lieutenant-Governor in Council power to fix minimum rates of pay for drivers of goods vehicles. This provision was made by the Public Commercial Vehicle Act, 1934, now repealed, but no minimum rates have been established.

MANITOBA

The Manitoba Minimum Wage Act applies to any person employed in a mail-order house, office, place of amusement, shop or factory in any city in the province and orders made or proposed to be made under it may be extended by Order in Council to persons employed in any trade, industry or calling in any part of the province.

Minimum Wage orders in effect relate throughout the province to both sexes in factories, retail and wholesale stores, hotels and restaurants, and employees 18 years of age or over not covered by another order; and in cities to males and females working in department stores and mail-order houses. Employees not otherwise covered do not include farm workers or domestic servants. Two orders applying to males only govern boys under 18 in certain manufacturing industries in Winnipeg and men performing work usually done by boys. Certain other orders apply to females and boys under 18 in cities only, except where otherwise specified.

The Act stipulates that in any industry where a minimum wage is established, no person 18 years of age or over may be employed at less than 25 cents per hour except where regulations provide for different rates. The Board may issue a permit granting modification of or exemption from any provisions of the orders in case of exceptional conditions.

The rates vary with experience and, in some cases, with age. Learners' rates apply for one year to employees over 18 years of age in factories, department stores and mail-order houses and in dressmaking, and for six months in fur sewing and offices. For office workers, a business college diploma entitles a girl over 18 to the minimum for experienced workers. For those under 18, minimum weekly rates of \$8, \$9 and \$10 are fixed for boys and girls 15, 16 and 17 years of age respectively and of \$10.50 for one who is 17 years and 6 months. An employee who has completed a business course is entitled to the minimum rate for a person one year older. The learning period for workers under 18 in dressmaking and fur-sewing is two years and 18 months respectively, but if a girl becomes 18 before completing the term in fur sewing she is required to serve only half the remainder before being entitled to the full minimum wage. In dressmaking after serving one year, she must be paid the rate for inexperienced adults when she reaches the age of 18. In factories, department stores and mail-order houses, employees under 18 who have put in one year or more are entitled to the full minimum rate when they reach the age of 18. Boys under 18 employed in hotels and restaurants, except bell boys, must be paid the full minimum rate after two years' experience.

The number of learners and employees under 18 years of age may not exceed 25 per cent of the total number of employees within the scope of an order. In offices, however, the number of female employees paid at the rates for inexperienced or minor employees and the number of boys under 18 together may not be more than 25 per cent of the total staff, male and female. The learning period is fixed, without regard to age, at two years in tailoring, 18 months in beauty parlours but with no prescribed minimum for three months prior to this period, 16 months in retail and wholesale stores, three months for females in hotels and restaurants, and four seasons of 10 weeks each in millinery. In the two orders applying to males only, the highest minimum fixed must be paid after one year.

As in the other western provinces, the Minimum Wage Board may limit working hours and this has been done in the case of female workers and boys under 18 and in certain work-places for males over 18. Maximum weekly hours for females and boys under 18 are 50 in dressmaking, tailoring and millinery, 48 in factories, department stores, mail-order houses, retail and wholesale stores, fur-sewing, places of amusement, beauty parlours and, except for female cooks, in hotels and restaurants, and 44 in offices. Daily hours may not exceed 10 in beauty parlours, barber shops and hotels and restaurants, nine in department stores and mail-order houses, retail and wholesale stores (except on Saturdays), fur-sewing and tailoring, places of amusement and for boys under 18 in factories in Winnipeg. In dressmaking and millinery, the maximum working day is eight and a half hours and for females employed in factories and offices, eight hours.

Overtime for a limited period may be worked in most cases under special permit but no overtime may be worked by persons under 16 in department stores or mail-order houses or under 17 in shops or by persons under 18 in factories.

In retail and wholesale stores, the minimum rates for male workers over 18 apply to a nine-hour day (10½ hours on Saturday) and a 48-hour week, and overtime for males and females must be paid for at five cents an hour more than the minimum rate except where the wage is above the minimum plus the amount for overtime. In hotels of 100 or more rooms male employees have a maximum 54-hour week but the minimum rates apply to a 48-hour week for all males over 18 and time in excess of 48 hours must be paid *pro rata*. In factories, the overtime rate is 30 cents an hour for females and boys

under 18 and for males over 18 in Greater Winnipeg, unless the wages paid are at the no other order applies and for men performing work usually done by boys, for whom no maximum work-week is established, apply to a 48-hour week.

Part-time work in stores for less than 16 hours a week must be paid for at the minimum hourly rate for experienced workers. In places of amusement, ticket sellers and ushers must be paid at least 30 cents an hour when working less than 40 hours a week. In department stores and mail-order houses experienced employees have a minimum of 25 cents an hour for part-time work and inexperienced workers must be paid the rate for inexperienced adults. Except in shops, factories and places of amusement, part-time workers must be paid for not less than four hours on any day they are required to report for duty. In factories only two hours need be paid for.

Maximum deductions permitted from wages for board and lodging are \$2 per week for lodging, \$4.50 for board or \$6 for both in the case of those employed in fur-sewing, dressmaking, tailoring, millinery and in beauty parlours; \$2.50 for lodging and \$4 for board in hotels and restaurants and for employees not covered by special orders and 25 cents for single meals in shops. No reduction may be made from the minimum wage for statutory holidays in beauty parlours, shops, department stores, mail-order houses or factories.

Under the Highway Traffic Act, the Municipal and Public Utility Board has established a minimum wage rate for drivers of public service vehicles certificated for passenger transportation of \$20 per week for a 6-day week for drivers employed by the week, or \$80 per month for drivers hired by the month; those employed otherwise than by the month or week to be paid at least at the same rate. If wages are proposed to be paid on any other basis than that provided for, the scale must be approved by the Board. Hours are limited to nine per day for driving, 12 per day in any capacity, with a six-day week.

The Taxicab Act applies only to taxicabs in Greater Winnipeg. It limits hours on duty to 12 a day on not more than 6 days a week. A minimum wage of \$17.50 per week was fixed for drivers employed by the week from February 15, 1937. For a driver employed otherwise than by the week, a minimum of \$1.60 per day must be paid for each day he is on duty. If he is on duty for more than four hours on any one day, he must be paid at least \$1.60 and, in addition, not less than 40 cents an hour for each hour in excess of

four. From May 1, 1937, it was stipulated that a driver employed by the year or month rate of 30 cents an hour for the hours actually worked. The rates for employees to whom must be paid a wage equal to what he would receive if paid by the week; that where he is hired by the week, he must be paid the prescribed minimum for the week whether he has four, five or six days of work, unless he is absent through illness or by arrangement.

Fair Wage Act

The Fair Wage Act, 1916, as amended, enables the Minister of Public Works, on the recommendation of the Fair Wage Board, to fix minimum wages and maximum hours each year for workmen employed in public construction and certain private construction, the rates and hours, unless otherwise declared by the Board, to be based on agreements between employers and employed or to be in accordance with prevailing conditions. The schedule effective June 15, 1938, applies to public and private works, and the rates, except for truck drivers on public and private works other than public roads and bridge work, are similar to those in force from June 1, 1937, to June 1, 1938. Rates for such truck drivers formerly varied with the capacity of the vehicle driven by the employee, but in the new order a flat rate is established. "Public work" includes work, authorized by the Minister of Public Works for which a contract or contracts have been made between the Minister and an employer, consisting of construction, including remodelling, demolition or repairing or painting of buildings in Manitoba and highway, road, bridge or drainage construction outside the Greater Winnipeg Water District. "Private work" means the building, construction, remodelling, demolition or repairing of a building or construction work for which a contract or contracts have been made exceeding \$100 within the Greater Winnipeg Water District or any city or town of a population over 2,000 or any other part of the Province to which the provisions of the Act are extended by the Lieutenant-Governor in Council. The term does not include work which is done on property by or under the immediate direction and control

of the owner, tenant or occupant, if no more than three men are employed in addition to the regular maintenance staff, and if such work is not undertaken with a view to the sale or rental of the property. Neither does it include work which is done by a maintenance man, or men, employed by the month. The accompanying tables show the minimum wage rates so established.

As amended in 1938 the Fair Wage Act also provides for fixing wages and hours in certain industries by a procedure similar to that laid down in the Industrial Standards Acts of other provinces. These industries, listed in Part II of the Act, are barbering, hairdressing, printing, engraving, dry cleaning, and any branch or combination of these. The Lieutenant-Governor in Council may declare, on the recommendation of the Minister, any industry not covered by Part I, that is private and public construction to be within Part II.

* All men hired in Winnipeg to go into the country to work on buildings must be paid the city schedule rate excepting where other definite agreements are made.

(a) It was agreed between the Winnipeg contractors and tradesmen that 40 hours per week only be worked during July and August, 1938.

(b) For wood lathers, work may be paid for on a square yard basis at not less than 6 cents per square yard.

(c) Engineers in charge of hoisting engines of three drums or more operating any type of machine; or operating trenching machines, clamshells or orange peels, regardless of capacity; or operating steam shovels or draglines of one yard capacity or over; or operating drop hammer pile drivers; in all cases irrespective of motive power.

(d) Engineers in charge of hoisting engines having only two drums or of single drum if used on a building of three stories and over, used in handling building material; or steam shovels and draglines not specified in Class "A" hereof; irrespective of motive power.

(e) Engineers in charge of any steam operated machine not specified in class "A" or "B" hereof; or in charge of a steam boiler if the operation of same necessitates a licensed engineer under the provisions of "The Steam Boiler Act"; or air compressor delivering air for the operation of riveting guns on steel erection work, or pumps in caissons, or concrete mixers of over 1/3 yard capacity; irrespective of motive power.

(f) Operators of gas or electric engines for machines not otherwise specified in class "A", "B" or "C" hereof, or men firing boilers of machines classified in class "A", "B" or "C" hereof or assisting engineers in charge of same.

(g) If employed on the construction or demolition of the building by owner, contractor or sub-contractor.

SASKATCHEWAN

The Minimum Wage Act, 1919, applying to females employed in shops and factories in cities was amended in 1936 to enable its extension to other parts of the province and to male employees. Existing orders apply to all workers in factories and shops in cities and towns and within a five-mile radius. A "shop" is defined to include a mail-order house, hotel, restaurant, barber shop, beauty parlour, tobacconist's and news agent's business and all parts of a building used in connection with the sale of goods by retail.

The Minimum Wage Board may limit hours of labour but since the Act was applied to male workers, the former restrictions on hours have been rescinded. Overtime, however, is defined as work in excess of 60 hours a week for bell boys, porters and elevator operators in hotels and restaurants and in excess of 48 hours a week for all other workers and is required to be paid for at a minimum hourly rate of 20 cents for delivery boys in stores, inexperienced minors in beauty parlours and barber shops, and dish washers, elevator operators, bell boys and porters in hotels and restaurants, 30 cents for other experienced workers and 25 cents for inexperienced workers. Employees working less than 43 hours a week are on part-time. Part-time employees must be paid for at least two hours and up to 43 hours a week must be paid the same hourly rates as for overtime.

The minimum rates for inexperienced workers apply for 18 months in most cases, increasing each half-year, but the learning period in hotels and restaurants except for bell boys, elevator operators and porters, is one year, in the transfer and storage business except for office help and messengers, six months, and for boys delivering parcels for shops, three months. In places of amusement and for messengers in the transfer and storage business, there is no learning period fixed. Only in beauty shops and barber shops is any distinction made between adult and minor employees in the matter of wages. Those under 21 in such workplaces may be paid a minimum of \$6 a week for the first six months after which they must be paid at the rate for inexperienced adult employees and, irrespective of length of experience, on reaching the age of 21 years, they are to be paid the rates for inexperienced workers. Apprenticeship contracts approved by the Board may fix minimum rates for apprentices.

The number of inexperienced workers is limited except in beauty parlours, barber shops, theatres and amusement places, to 25 per cent of the total number of workers. The number of part-time employees, excluding

casual workers, is limited also to 25 per cent in stores and to 33½ per cent in factories and in hotels and restaurants. In beauty parlours and barber shops, not more than one indentured apprentice or inexperienced worker may be employed for every experienced worker.

In hotels and restaurants where a special uniform other than white is required and not supplied by the employer, the rates are to be increased by 50 cents per week. If lodging and 21 meals in a week are furnished by the employer, the minimum weekly rates are \$5.50 for experienced workers, \$3.50 for those with from six to twelve months' experience and for dish washers, and \$1.50 for workers with less than six months' experience and for bell boys, porters and elevator operators. Where meals only are supplied, the corresponding minimum rates are \$7.50, \$5.50 and \$3.50 per week and where only lodging is given, \$10, \$8 and \$6 a week. If less than 21 meals or 7 days' lodging is furnished, the minimum rates must be increased by 20 cents for each meal and 30 cents for each day's lodging for which the employee is responsible.

The Coal Mining Industry Act, 1935, empowers the Lieutenant-Governor in Council to establish standards as to hours of labour and wages of persons employed in the industry, but no such regulations have been made. Hours are limited to eight in a day by the Coal Miners' Safety and Welfare Act as amended in

1932, except when otherwise agreed between employer and employee.

The Public Service Vehicles Act grants the Highway Traffic Board the power to regulate the wages and hours of drivers of public service and commercial vehicles. No regulations under this Act have been issued.

ALBERTA

The Minimum Wage Act, 1925, as amended, applies to women in any trade or occupation, except domestic service, in the province. Orders under this Act cover factories; telephone exchanges of more than 100 lines; shops; theatres and places of amusement; beauty shops; garages, service stations and elevator operators; restaurants; laundries and dry-cleaning establishments and offices.

The Male Minimum Wage Act, 1936, applies to all male workers except farm labourers and domestic servants. A general order fixes minimum hourly rates throughout the province for male employees and there are two special orders applying to certain classes: boys under 18 employed in delivering merchandise from shops and men employed in saw mills, box factories and other woodworking plants and in logging and the railway tie industry in rural districts. The general order does not apply to indentured apprentices, employees governed by schedules of wages and hours under the Industrial Standards Act or by codes drawn up under the Department of Trade and Industry Act, or to persons paid on a commission basis and hired by a contract approved by the Board of Industrial Relations, workers hired for temporary work not for the purpose of the employer's business, persons engaged in fighting prairie or forest fires or those exempted by the Board of Industrial Relations.

Lower rates are fixed for female learners. The learning period is 18 months in book-binding, embossing, engraving and printing, 12 months in wholesale and retail stores, mail order houses, laundries and dry-cleaning and dyeing establishments and six months in restaurants. It varies from 9 to 12 months in factories. In dressmaking, tailoring, fur-sewing, millinery, hairdressing establishments and for office workers and telephone operators the apprenticeship period is one year with no fixed rate for the first month of employment. Apprentices are limited to 25 per cent of the total female staff in all places but telephone exchanges where 33½ per cent may be student operators.

All employees covered by the orders are governed by the Hours of Work Act which limits

hours to eight a day and 48 a week for females and nine a day and 54 a week for males. Certain exceptions are permitted in the lumbering industry in rural districts and the Board of Industrial Relations may grant exemptions in other industries.

Except as indicated in the accompanying table, the rates for male workers are hourly rates and there is no special overtime rate. For female workers, one hour of overtime in a day must be paid for at not less than the regular rate if the weekly hours are 48 or less. Time in excess of nine hours a day or 48 hours a week must be paid for at the rate of time and a half.

All male employees covered by the general order if hired by the week or a longer period must be paid for at least 42 hours per week; and if employed for four hours or less not less than that period must be paid for at 40 cents an hour.

Special provision is also made for part-time female workers and for regular female employees on short time. The latter, except in theatres and telephone exchanges, if working less than 40 hours a week, must be paid for at least that number of hours; if working for less than 48 but more than 40 the prescribed minimum wage may be reduced *pro rata*. Part-time workers, hired by the hour or by the day or only for busy periods, who work for less than 40 hours a week, must be paid not less than 30 cents an hour for four hours. Girls and women in theatres who work less than six consecutive days a week must be paid not less than 50 cents an hour for at least two hours and in telephone offices not less than 30 cents an hour for four hours.

Women employed in restaurants may not be charged more than \$5 for a week's board or 75 cents per day where board for less than a week is furnished. For male employees the maximum charge for 21 meals per week is \$5, for single meals 25 cents, and for lodging \$2 for a full week or 25 cents per day for any period less than a week but in logging, lumbering, etc., employees must be furnished with board and lodging in addition to the minimum wage specified.

BRITISH COLUMBIA

The Female Minimum Wage Act, 1934, and the Male Minimum Wage Act, 1934, revise earlier statutes. They do not apply to farm labourers or domestic servants. The Female Minimum Wage Act provides that where a minimum has been fixed for employees in any industry or occupation, no male person over 18 years of age may be employed in work usually done by female employees at less than the minimum wage fixed for such female employees. Similarly where a rate has been fixed for female employees under 18 years of age no male employees under 18 years may be employed at a lower wage.

Orders made under the Female Minimum Wage Act cover the mercantile industry; manufacturing; personal service in beauty parlours; theatres and places of amusement; garages and service stations and the driving of motor vehicles; offices; janitor service; fruit and vegetable industry; hotels and catering in any establishment; elevator operators; laundries and dry-cleaning works; telephone and telegraph operation; fish drying, curing, etc.

The Male Minimum Wage Act orders apply to logging, sawmilling and woodworking; furniture manufacture; bakeries; fruit and vegetable industry; construction; carpenters in some localities; shipbuilding; goods transported by road; bus and taxi drivers; mercantile industry; stationary engineers; barbers; first-aid attendants; and janitors.

As in the other provinces, special rates lower than the minimum wage for experienced workers are set for female employees during a fixed learning period except in the fruit and vegetable industry and in the case of elevator operators. A further distinction is made between inexperienced females over 18 and girls under 18 years of age. The statute stipulates that the number of learners over 18 must not exceed one-seventh the total number of female employees in any establishment and the aggregate number of such workers and of girls under 18 may not exceed 35 per cent of the total female working force. In wholesale and retail stores, barber shops and beauty shops, offices and in the hotel and catering industry, the rates fixed in the orders for inexperienced females may only be paid with permission from the Board. In the fruit and vegetable industry the lower rates for inexperienced and handicapped female employees may be paid only to 10 per cent of the total number of females.

The learning period for female employees over 18 years of age in stores, barber shops and beauty parlours, offices, laundries and in the fish industry is one year; in factories it varies from six to 12 months and in book-binding, printing, clothing, millinery and fur

trades, leather goods, jewellery, and cigar manufacture it is 18 months. Six months' experience is required in the hotel and catering industry before the full minimum is payable, nine months for telephone and telegraph operation and two years in the personal service occupations. Girls under 18 must be paid the rate for experienced workers on reaching the age of 18 after 18 months' experience in offices, 21 months in the mercantile industry and two years in beauty shops and laundries. A laundry worker must be paid the rate for experienced workers after one year if she has reached the age of 18.

Under the Male Minimum Wage Act, lower rates are fixed for those under 21. Such employees are limited to 10 per cent of the total number in shipbuilding, 15 per cent in the fruit and vegetable industry, 33½ per cent in woodworking and 40 per cent in household furniture manufacture. In the mercantile industry the minimum rate for those under 21 varies with the age, the highest rate being payable after three years' experience if the employee is over 18 but under 21 years of age. Employees over 21, but under 24, are required to have 18 months' experience before they are entitled to the full minimum rate.

For all female employees but janitresses, the minimum weekly rate applies to a specified number of hours. In the mercantile industry, beauty shops, hotel and catering industry, elevator operation, laundries, etc., and in the fishing industry, the rates for female workers apply to a week of 40 hours or more. In factories and in dressmaking, fur-sewing, etc., the specified number of hours is 48, in offices 37½ and in theatres and places of amusement 36. Hourly rates are fixed for fruit and vegetable packing and canning.

Special hourly rates for part-time work for female workers are fixed at 35 cents for experienced workers in the mercantile industry, 25 to 35 cents for inexperienced and from 20 to 30 cents for girls under 18. In factories the part-time rate is 29½ cents; in beauty shops and in hotels and catering, 37½ cents and 27 to 35 cents for experienced and inexperienced respectively; 30 cents in theatres, etc., 40 cents and 30 to 37½ cents in offices and 28½ cents in laundries. In most cases the employee must be paid for at least four hours' work.

In road transport, shops and for elevator operators and barbers, where minimum weekly rates are set for male workers, the rates apply also to a specified number of hours and part-time work is required to be paid

at a higher rate. For goods transported by road, for bus drivers, barbers and elevator operators, the part-time rate applies to a week of less than 40 hours and in the mercantile industry to a week of less than 37½ hours. A minimum hourly rate of 45 cents is fixed for part-time workers in road transport and for barbers and 50 cents for bus drivers in Victoria, Esquimalt, Oak Bay and Saanich. In the mercantile industry part-time rates range from 15 to 40 cents an hour, according to age and experience.

The Hours of Work Act limits working hours for both male and female employees in practically all the establishments covered by the Minimum Wage Orders to eight a day and 48 a week except when the Board of Industrial Relations makes special regulations permitting longer hours for some classes or at certain seasons. No overtime rates have been established for female workers except in the fruit and vegetable industry and for telephone and telegraph operators who must be paid time and one-half after eight hours a day and 48 hours a week up to 56 hours which is the maximum for emergencies. This does not apply to operators customarily on duty from 10 p.m. to 8 a.m. who may work 10 hours a day instead of eight. In the canning and packing of fruits and vegetables, the regular minimum hourly rate applies to a 10-hour day. For the next two hours, 45 cents must be paid to at least 90 per cent of the female workers and 37½ cents to the others. After 12 hours' work these minimum rates are 60 and 50 cents an hour. In tomato canneries, the first two hours of overtime have a minimum rate of 40 cents for at least 90 per cent of those employed and 37½ cents for the others. For subsequent hours the rates are 54 cents and 50 cents for these two groups.

Overtime rates for males are fixed for first-aid attendants and in transport and the fruit and vegetable industry. In the last

mentioned, for the first two hours in excess of 10 hours a day, males over 21 and those under 21 years of age must be paid at least 57 cents and 42 cents an hour respectively. For longer hours, the minimum rates are 76 and 56 cents for these classes. The special rates for overtime in tomato canning for the same hours are 52 and 37½ cents with 70 cents and 50 cents the minimum hourly rates after the twelfth hour. First-aid attendants for time in excess of their regular hours and taxicab drivers working more than 10 hours a day must be paid for such time at the rate of 50 cents and 45 cents an hour respectively. Bus drivers in the towns named above have an overtime rate of 67½ cents an hour for all work after nine hours in a day or 50 in a week. In certain other branches of the road transport industry time in excess of 50 hours must be paid for at rates varying from 40 to 60 cents an hour but the hours that may be worked are limited to 54 a week.

Deductions for board and lodging for females in the hotel and catering industry and for male and female elevator operators may not exceed \$4 per week for 21 meals, \$2 per week for lodging or 25 cents per meal. During the off-season, females employed in the hotel and catering industry in summer resorts in unorganized territory may be paid a minimum of \$25 per month together with room and board instead of the weekly rate if such arrangement is approved by the Board of Industrial Relations. A maximum of \$1.25 per day for board and lodging is permitted to be deducted from the wages of men in the saw-mill and logging industry in some districts.

In the case of janitors, where free living quarters are not provided, the maximum rent that may be charged is \$20 or \$25 according to the size of the apartment and deductions for gas and electricity may not exceed \$4 per month.

Wages and Hours of Labour Under Collective Agreements and Schedules of Wages and Hours Made Obligatory by Orders in Council in Certain Provinces

In certain provinces, legislation provides that the wage rates and hours of labour agreed upon by representatives of employers and workers in a trade or industry for a locality, district or the whole province may be made obligatory on all employers and

employees concerned by Order in Council on the recommendation of the Minister in charge of the administration of labour legislation. Such rates of wages and hours of labour are noted below and are applicable to both male and female workers unless otherwise stated.

NOVA SCOTIA

Industrial Standards Act

This Act, which was summarized in the LABOUR GAZETTE, July, 1936, page 604 with amendments in LABOUR GAZETTE, August, 1937, page 861 is similar to the Industrial Standards Act of Ontario which is summarized below. It is, however, restricted to the building and construction industry in Halifax and Dartmouth, excluding government and municipal employees and any employee performing temporary work the total amount of which does not exceed \$25. Five schedules were in effect by Orders in Council under this Act at the end of the year 1938:

Construction

The wage rates and hours so in effect are shown below. Provision is made in all schedules for extra pay for overtime.

QUEBEC

Collective Labour Agreements Act

The text of this Act, which amends the Workmen's Wages Act, was summarized in the LABOUR GAZETTE, May 1938, page 503 and the Workmen's Wages Act in the issue of July, 1937, page 745. Under this Act any party to a collective agreement made between the representatives of an association of employees and the representatives of an association of employers or one or more employers may apply to the Lieutenant Governor in Council through the provincial Minister of Labour to have those terms of such agreement which govern wages, hours of labour, apprenticeship, classification of operations, determination of classes of employers and employees and all such provisions as the Lieutenant Governor in Council may deem in conformity with the spirit of the Act, made obligatory on all employers and employees in the trade, industry, commerce or occupation within the district determined in the agreement. Notice of such application is published and thirty days is then allowed for filing of objections and the Minister may hold an inquiry. After this period if the Minister considers that

the terms of the agreement "have acquired a preponderant significance and importance" and that it is advisable, with due regard to economic conditions, an Order in Council may be passed granting the application, and making the provisions of the agreement obligatory from the date of publication of the Order in Council in the *Quebec Official Gazette*. The agreement may be amended through the same procedure. Any Order in Council may be amended or revoked by the Lieutenant Governor in Council at any time. They do not apply to the Government of Quebec or its departments or services, nor to work done by a third party for the Government under a contract providing for a scale of minimum wages. The agreements under this Act are enforced within the industry itself by joint committees composed of representatives of both employers and employees. Proceedings under the Collective Labour Agreements Extension Act were summarized in the LABOUR GAZETTE from June, 1934, to July, 1937; proceedings under the Workmen's Wages Act in the issues from

July, 1937, to July, 1938; proceedings under the Collective Labour Agreements Act in the issues beginning July, 1938.

The wages and hours in effect at the end of 1938 under agreements so made obligatory in various industries in the whole or part of the Province are noted below.

Mining, Non-ferrous Smelting and Quarrying

IRON OXIDE MINING.—All mines producing iron oxide (ochres) in the province of Quebec are covered by an obligatory agreement. (LABOUR GAZETTE, December, 1937.) Minimum hourly wage rates are 32½ cents for workers working in the mines, 35 cents for those working in the establishments and 42½ cents for millers. Hours are limited to 48 per week.

Granite, Marble and Stone Quarrying

See below under "Manufacturing: Non-Metallic Minerals, etc."

Manufacturing: Vegetable Foods, etc.

BAKING INDUSTRY.—Agreements approved by Orders in Council as to wages and other working conditions in this industry provide for the following minimum weekly wage rates and maximum hours: Quebec City and Levis—bread bakers \$20, foremen bakers \$23, apprentices \$7, salesmen \$16. Hours for bakers and delivery workers 65 per week (LABOUR GAZETTE, December, 1937 and April, 1938). Three Rivers—bakers \$16 to \$23, apprentice bakers \$6 to \$12; delivery salesmen \$9 plus commission (LABOUR GAZETTE, March, 1938). Granby—bakers \$15 to \$22 (LABOUR GAZETTE, October, 1938). Montreal—bakers \$18 to \$22, helpers \$15, apprentices \$10 to \$12, with a 60 hour week; salesmen \$15 (LABOUR GAZETTE, February, 1937). Sorel*—bakers \$12 to \$18 with a 60 hour week; salesmen \$12 (LABOUR GAZETTE, September, 1937). Hull—bakers \$12 to \$28, pastry cooks \$20, apprentice bakers \$6 to \$12; apprentice pastry cooks \$6 to \$15; hours 60 per week; salesmen \$12 (LABOUR GAZETTE, June and October, 1935 and October, 1938).

Manufacturing: Boots and Shoes

SHOE MANUFACTURING.—The agreement covers both male and female employees in the boot and shoe manufacturing industry throughout the province (LABOUR GAZETTE, October, 1937, March, June and December, 1938). Employees are divided into six trade classes according to the skill required for

the operation. Minimum hourly wage rates for each class and for the apprentices to the first four classes are as follows:

| Class | Minimum Wage Rate Per Hour | | |
|---------------|----------------------------|---------|----------|
| | Zone I | Zone II | Zone III |
| I | ·55 | ·52½ | ·48 |

| 65% of female employees. | 11.00 | 10.00 | 9.50 | 9.00 |

Manufacturing: Fur and Leather Products, etc.

FUR MANUFACTURING INDUSTRY.—Orders in Council for this industry were summarized in the LABOUR GAZETTE, September and October, 1938. For the city of Quebec the following minimum wage rates are payable for a week of 48 hours: in the city of Quebec—first class cutters \$27, second class cutters \$24, third class cutters \$18, journeymen blockers \$20, female operators and finishers \$14 for first class, \$12 for second class. For the Island of Montreal and within 50 miles of it, minimum weekly wage rates in industrial and wholesale establishments (excluding the fur dressing and dyeing industry) are: first class cutters \$36.50, second class \$29.50; first class male operators \$29.50, second class \$21.50; first class female operators \$21.50, second class \$16.50; first class finishers \$19.50, second class (female) \$15.50; first class apprentice cutters, blockers and trimmers \$22, second class \$14; first class examiners \$25.50, second class \$14.00, second class employed by trimmers \$14. The hours are 40 per week in the Island of Montreal and within 10 miles of it and 48 in the rest of the Montreal district. For the Island of Montreal and within 50 miles of it, minimum hourly wage rates in retail establishments are: qualified cutters 95 cents for Class A, and 80 cents for class

*This agreement was repealed by Order in Council January 16, 1939.

B, operators 75 and 60 cents, finishers 70 and 55 cents, blockers 55 and 35 cents, female operators 55 and 40 cents, female finishers 50 and 40 cents respectively; in the retail establishments of the Montreal district which are outside the Island of Montreal and located in towns of less than 25,000 population, however, these minimum rates may be 25 per cent less.

GLOVE MANUFACTURING (FINE GLOVES) PROVINCE OF QUEBEC.—The agreement approved by Order in Council for cutters in this industry covers the entire province (LABOUR GAZETTE, June, 1937). Hours are limited to 49 per week. Minimum wages are fixed on a piece rate basis. In towns of population of less than 15,000 the minimum piece rates are 15 per cent lower than in the larger centres.

The agreement for operators and blockers of fine gloves was summarized in the LABOUR GAZETTE, March, 1938, and also covers the whole province. Hours are 49 per week and minimum wages are fixed on a piece work scale, except for apprentices who must be paid a minimum of \$7 per week during first six months and \$9 during second six months.

GLOVE CUTTERS (WORK GLOVES) PROVINCE OF QUEBEC.—This agreement was summarized in the LABOUR GAZETTE, August, 1937. Maximum hours are 44 per week and minimum wages are fixed on a piece work scale.

Manufacturing: Textiles, Clothing, etc.

MEN'S, BOYS', YOUTHS', CHILDREN'S AND JUVENILES' CLOTHING INDUSTRY, PROVINCE OF QUEBEC.—This industry throughout the Province is covered by an agreement made obligatory by Orders in Council, the last one coming into effect November 20, 1937 (LABOUR GAZETTE, December, 1937). (The manufacture of shirts, overalls, mackinaw coats, etc., is not included in the agreement.) The province is divided into three zones: Zone I is the Island of Montreal and the area within 10 miles of its limits, Zone II is the area within 75 miles of the boundaries of Zone I, Zone III in the rest of the province. The hours are 44 per week in Zone I and 48 hours in Zones II and III; overtime pay is time and one-half in Zone I and time and one-quarter in Zones II and III.

Piece work rates may be fixed instead of hourly rates, provided that such rates do not yield less than the hourly rates established in this agreement.

BUILDING TRADES.—The agreements in the building trades in various sections of the province, which have been made obligatory by Orders in Council, have been summarized in the LABOUR GAZETTE during 1934, 1935, 1936, 1937 and 1938. In some cases the agreements cover several counties as well as the principal cities and towns. The minimum wage rates for the principal trades, which were in effect at the end of the year 1938 under Orders in Council are shown in the accompanying table.

The agreements in many cases also specify minimum weekly rates, lower than the standard hourly rates, for workmen permanently employed on maintenance work for religious, charitable or educational institutions, hotels, office buildings and manufacturing or industrial establishments. These weekly rates are not shown in the table. Minimum wage rates for apprentices which are set in many of the agreements are also omitted from this table.

Industrial Standards Act

The Industrial Standards Act of Ontario, the text of which was printed in the *LABOUR GAZETTE*, June, 1935, page 534, with amendments in the issues of May, 1936, page 410, May, 1937, page 505, and May 1938, page 501, provides that the Minister of Labour for Ontario may, upon petition of representatives of employees or employers in any industry, convene or authorize an officer to convene a conference or series of conferences of employees and employers in the industry, in any zone or zones to investigate the conditions of labour and practices in such industry and to negotiate standard rates of wages and hours of labour. The employees and employers in attendance may formulate and agree upon a schedule of wages and hours of labour for all or any class of employees in such industry or district. If, in the opinion of the Minister, a schedule of wages and hours for any industry is agreed upon in writing by a proper and sufficient representation of employees and of employers, he may approve of it, and upon his recommendation, the Lieutenant-Governor in Council may declare such schedule to be in force "during pleasure" or for the period, not exceeding twelve months, stipulated in the schedule, and thereupon such schedule is binding upon every employee and employer in such industry in the whole or any part of the Province designated by the Minister and is published in *The Ontario Gazette*. The Industry and Labour Board has authority to enforce the provisions of the Act and of the regulations and schedules. The following is a summary of the wage rates and hours in effect under these Orders in Council at the end of the year 1938.

Logging

LOGGING INDUSTRY.—Schedules of wages for this industry were effective by Orders in Council in four districts at the end of 1938, namely the Massey Zone (vicinity of Sudbury), Timmins Zone, Port Arthur Zone and the Rainy River Zone (*LABOUR GAZETTE*, May, August and December, 1938). For those working on a time rate basis, the minimum monthly rate for cookees and kitchen staff is \$40 per month; for general bushmen the minimum is \$42.50 and for loaders \$45, in all four zones; the minimum rates for teamsters are \$50 to \$55 in all four zones; for river drivers, the rate is \$2.60 per day except in the Rainy River zone where it is \$3. Free board and lodging must be provided by employers to all workers employed on the time rate basis. For those employed on piece rates, the prices are set in all zones and

the maximum amount which the employers may charge each employee working on piece-work for his board is 85 cents per day in the Timmins, Port Arthur and Rainy River zones and 75 cents in the Massey zone.

SASKATCHEWAN

Industrial Standards Act

This Act is similar to the Industrial Standards Act of Ontario which is noted above. The Saskatchewan Act was summarized in the *LABOUR GAZETTE*, June, 1937, page 635 and May, 1938, page 507. The following schedules have been made binding under this Act:—

Manufacturing: Vegetable Foods

BAKERS, MOOSE JAW.—A schedule for the baking industry in the city of Moose Jaw (*LABOUR GAZETTE*, December, 1938) provides for a 54 hour week and the following minimum weekly wage rates: foreman \$30, doughman \$25, ovenman and bench hand \$23, shippers \$18, bakery salesmen \$18 or a specified commission on sales, whichever is greater.

Manufacturing: Miscellaneous Products

JEWELLERY WORKERS, SASKATOON.—These workers are covered by a schedule (*LABOUR GAZETTE*, November, 1938), which provides for a 47 hour week from April to August inclusive and 51 hours from September to March inclusive. Minimum weekly wage rates are \$18 for employees with at least five years bench experience and \$15 for those with less experience but who are not apprentices.

SIGN PAINTING, MOOSE JAW.—A schedule for sign painters at Moose Jaw (*LABOUR GAZETTE*, January, 1938), provides for a 44 hour week and minimum wage for experienced sign painters of 65 cents per hour or 42 per cent of the amount taken in at the job prices specified in the agreement, whichever is greater; sign shop helpers to be paid a minimum wage of 40 cents per hour.

Construction

The following hours and wage rates were in effect under schedules for the following trades at the end of the year 1938:

Transportation and Public Utilities: Local Transportation

TAXI DRIVERS, REGINA.—This schedule (*LABOUR GAZETTE*, March, 1938) provides for a maximum day of 12 hours including one hour's rest, and a 6 day week. Minimum wages are \$13 per week guaranteed, plus 30 per cent commission on all receipts over \$45 taken in by the driver in a week.

DRAYING, TRANSFERRING AND STORAGE INDUSTRY, REGINA.—This industry includes public warehousing and the hauling or transferring of merchandise or household goods except if done by the regular employees of a manufacturer or merchant. It is covered by a schedule which provides for a 48 hour week and a minimum wage rate of \$18 per week, or, for part time work, 35 cents per hour (*LABOUR GAZETTE*, May, 1938).

Service: Business and Personal

SHOEMAKING AND REPAIRING, REGINA.—For the city of Regina a schedule in effect (*LABOUR GAZETTE*, December, 1938), provides for a 52 hour week with a minimum wage of \$18 per week or payment according to a specified minimum scale of piece work, whichever is greater; inexperienced employees from \$7.50 during first six months to \$13.50 during second year.

BARBERS AND HAIRDRESSERS.—The minimum wage rates and hours shown in the accompanying table were binding by Orders in Council for these trades at the end of 1938. In all cases the minimum weekly wage is either the stated minimum rate or a percentage of the proceeds taken in by the barber or beauty parlour employee, whichever is greater. The hours are those for which the minimum wage rate is payable.

ALBERTA

Industrial Standards Act

This Act is similar to the Industrial Standards Act of Ontario which is noted above. The text of the Act was published in the *LABOUR GAZETTE*, June, 1935, page 534, with amendments noted in the issues of June, 1936, page 501, June, 1937, page 640 and June, 1938, page 663. The following notes give information as to schedules of wages and hours in effect at the end of 1938:—

Agriculture

HONEY PRODUCING INDUSTRY, COALDALE, TABER, VAUXHALL ZONE AND EASTERN IRRIGATION Zone.—In these zones, which are in the vicinity of Lethbridge, hours for the honey producing industry are limited to 9 per day for male employees and 48 per week for female employees (*LABOUR GAZETTE*, June and September, 1938). Minimum wages per day are: for field work—\$2.50 and \$2.70 for men; for extraction work including packing and shipping—\$2.25 and \$2.70 for men, \$2 and \$2.25 for women, and \$1.80 for boys and girls over 16 and under 21 years. For monthly employees, the minimum wage in addition to board and room is \$30 for men with less than one year's experience and \$50 for those with more experience. In addition, bonuses are provided for if the average production exceeds a certain amount and the price of honey is not less than a certain amount.

Logging

LUMBERING INDUSTRY, FLATBUSH, CHISHOLM, SPURFIELD AND FAUST ZONES.—A schedule (*LABOUR GAZETTE*, January, 1939) regulates wages and hours for logging, railway tie contractors, sawmills, planing mills and box factories. Hours are 60 per week for all workers except cooks, teamsters, millwrights, river drivers and certain other classes. Minimum monthly wages to be paid in addition to board and lodging include \$50 or \$75 for cooks, \$50 for blacksmiths and engineers, \$35 for tractor drivers, \$32.50 for scalers, \$26 to \$30 for certain other classes.

Manufacturing: Vegetable Products

BAKING INDUSTRY.—Schedules were in effect for bakers in the Edmonton and Calgary districts at the end of the year. For Edmonton (*LABOUR GAZETTE*, December, 1938), hours are 52 per week, and minimum wages \$25 per week for doughmen, ovenmen and bench hands, \$19 for helpers and truckers, \$20 for shippers, \$13.50 for cake wrappers and \$15 for bread wrappers. For Calgary (*LABOUR GAZETTE*, December, 1938), hours are 52 per

week and minimum wages \$26 per week for doughmen and ovenmen, \$24 for bench hands, \$18 for helpers.

Manufacturing: Miscellaneous Wood Products

SAWMILL, PLANING MILL AND BOX FACTORY EMPLOYEES.—These are included in the schedule noted above under "Logging".

Manufacturing: Metal Products

WELDING INDUSTRY.—For the city of Edmonton and within 10 miles of it, a schedule for the electric and oxy-acetylene gas welding industry (*LABOUR GAZETTE*, July, 1938) provides for a 49 hour week, with a minimum wage rate for electric and oxy-acetylene gas welders and cutters of 45, 60 and 70 cents per hour depending on class of certificate held. For Calgary (*LABOUR GAZETTE*, August, 1938), hours are 44 per week and minimum wage rates 50, 60 and 70 cents per hour depending on class of certificate held by the welder.

Construction

The following hours and wage rates were in effect under schedules for the following trades at the end of the year 1938:—

**Transportation and Public Utilities:
Local Transportation**

TAXI DRIVERS.—At Edmonton, a schedule (*LABOUR GAZETTE*, September, 1938) provides for an 11-hour day, a 6-day week and a 66-hour week. Minimum wage rates during winter months are \$15 per week plus 25 per

cent commission on all receipts in excess of \$60; for summer months, \$12.50 per week plus 25 per cent commission on all receipts in excess of \$50 per week. At Calgary (LABOUR GAZETTE, February, 1938), hours are also 66 per week. The minimum wages are \$12.50 per week of 66 hours plus 25 per cent commission on all receipts in excess of \$50 per week. At Banff National Park (LABOUR GAZETTE, August, 1938), hours for taxi and bus drivers are 11 per day, 7 days per week, for a period not exceeding three consecutive weeks. Days of rest to be provided on the basis of one day in seven. Minimum wages are \$14 per week

of 66 hours plus a bonus of 4 cents per mile to drivers of touring cars and of 5 cents per mile for bus drivers for all mileage in excess of 350 per week.

Service: Recreational

BOWLING ALLEY EMPLOYEES.—At both Edmonton (LABOUR GAZETTE, April and September 1938) and Calgary (LABOUR GAZETTE, February and September, 1938), hours for pinsetters are restricted to 54 per week with wages based on 2½ cents per line for five pins and 3½ cents per line for ten pins.

Department of Trade and Industry Act

Under this Act and its amendments (LABOUR GAZETTE, April, 1934, page 305, May, page 442 and November, page 986; June, 1936, page 502, November, page 997; June, 1938, page 634), this department may call a conference of any trade to draw up certain trade standards including minimum wages and hours. If such code is approved by a majority of persons in the trade or by persons owning over 50 per cent of the aggregate capital invested, they may be made binding by Order in Council on everyone carrying on the trade. Although a number of such codes were made binding only one includes provisions as to wages:

Service: Business and Personal

BARBERS, PROVINCE OF ALBERTA.—This code which came into effect February 15, 1937, and was amended from February 27, 1937 and August 15, 1938 (LABOUR GAZETTE, October, 1938, page 1093) applies to barbers throughout the province. It is provided that a journeyman barber employee receive "60 per cent of his gross weekly receipts for services rendered," but in no case less than \$15 per week or \$3.50 for Saturday or \$3 for any other week day; part time work must be paid at 40 cents per hour.

Introductory Note

The present is the twenty-third report in the series on wages and hours of labour in Canada. The first report in this series was issued as a supplement to the *LABOUR GAZETTE* for March, 1921, and contained figures as to wages and hours of labour for certain trades in various cities in Canada from 1901 to 1920, with index numbers by groups based on wages in 1913 as 100. It also contained samples of wage rates for common labour in factories, miscellaneous factory trades in a small number of industries, and wages in lumbering from 1911 to 1920, with index numbers. Subsequent reports, in most cases issued as supplements to the *LABOUR GAZETTE* for January each year, brought these figures down to date with extensions from time to time to include additional industries and classes of labour. In most cases these additions contained data back to 1920. Wages and hours on steamships on the Atlantic and Pacific coasts and on the Great Lakes and St. Lawrence river were first covered in Report No. 21, with data for 1929, 1936 and 1937.

Certain of these reports, however, contained special features. Report No. 5 (1923) dealt with Hours of Labour in Canada and Other Countries. Report No. 3 (January, 1922) included an appendix with statistics of wages and hours in coal mining in Canada from 1900 to 1921 with index numbers for the three principal districts. Report No. 7 (January, 1925) included an appendix with figures for agriculture from 1914 to 1923. Report No. 11 (January, 1928) contained an appendix on wages of employees of steam railways, considerably increasing the information for the years since 1917 with a more extensive record from 1901 to 1927 and also a new series of index numbers. Each report from No. 7 (January, 1925), to No. 14 (January, 1931), contained data not only for the previous year but back in 1920, except that figures for 1922, 1923 and 1924, the years of least change, were omitted from some of the tables owing to lack of space. Report No. 15, issued in January, 1932, contained data for the years 1926, 1930 and 1931, with figures for 1920 also in some cases. Report No. 16, issued in January, 1933, afforded figures for 1930, 1931 and 1932 with figures for 1920 and 1926 also in some tables. Subsequent reports in each

case have included figures for the calendar year just ended, for the preceding year and for 1929.

In Report No. 15 (January, 1932) the number of cities for which data were given in Table I as to building trades and electric railways was increased to approximately forty, and in the case of printing trades to fifteen, and these cities have since been covered in subsequent reports. Previously this table covered only thirteen cities, except that data for building trades in Windsor, Ont., were included, beginning with the report for 1928. Sheet metal workers employed in building and construction have been included with building trades since 1927, while sheet metal workers in factories have been included in the table on manufacturing industries. The section of the table on metal trades previously given was omitted from Reports Nos. 15 and 16 for 1931 and 1932 but figures for these trades appeared in the tables of sample rates of wages and hours in the sections of Table X on foundries and machine shops and other metal manufacturing industries. This section of Table No. 1 was, however, included in Report No. 17 with figures for 1920, 1926 and 1930 to 1933 and has been continued in subsequent reports. As in previous reports figures on wages for the metal trades in mines and on railways appear in the tables in those industries.

The appendix on wages and hours under provincial minimum wage legislation, included first in Report No. 12, issued in January, 1929, was enlarged in Report No. 18, January, 1936, and in subsequent reports, to include also data as to wage rates in certain collective labour agreements enforceable under legislation in several of the provinces. Report No. 20, January, 1937, contained a section on hours of labour under provincial legislation. The present report contains a similar appendix with the information revised to date. Report No. 20 also included an appendix on average weekly earnings in merchandising and service establishments, containing a summary table compiled from a report issued by the Dominion Bureau of Statistics for 1935. Reports Nos. 21 and 22 contained similar data for 1936 and 1937. For subsequent years no data has been collected.

1929, 1938 and 1939

GENERAL SUMMARY

THE present bulletin contains data for the years 1929, 1938 and 1939, but the tables on building, printing, metal trades and electric street railways give figures for 1920, 1926, and 1930 to 1939, while the table on steam railways is for the years 1920 to 1939, inclusive. In the appendices information is given as to minimum wage rates under provincial legislation, wages and hours of labour under collective agreements and schedules of wages and hours made obligatory by orders in council in certain provinces, also as to the federal government fair wage policy and hours of work under provincial legislation. There are also tables

giving wages in agriculture in 1938 and certain previous years, average earnings of steam railway employees in recent years with numbers employed in 1938, average earnings of coal miners with numbers employed and days worked from 1921 to 1938.

The table of index numbers of rates of wages contains figures showing changes in a number of occupational groups, from 1901 to 1939, and for certain other groups from 1911 to 1939, the base year being 1913. Index numbers for other groups have not been calculated as figures back to 1913 have not been compiled and published.

Changes in Wages

The recovery in wages, which first appeared in logging and sawmilling and in common factory labour in 1934 and extended to all groups in 1935, continued during 1936, 1937, 1938 and to a slight extent during 1939.

As the figures are obtained each year for the beginning of September or earlier the changes in wages after that month are not reflected in the report except in a few cases such as building trades and electric railways for which any later figures are usually available from new agreements. The index numbers showed average increases of somewhat less than one per cent in miscellaneous factory trades; building trades and for common labour in factories; half of one per cent or less for printing trades, electric railways, metal trades and coal mining. Decreases in logging and sawmilling averaged over one per cent (logging one and one half, sawmilling one per cent). The average increase for all groups (weighted according to the approximate number of employees) was one half of one per cent.

In manufacturing most of the industries had average increases of less than one per cent. Some, however, showed average increases of somewhat more than two per cent—leather tanning, production of electric batteries and shirt manufacturing. The increases averaged between one and two per cent in the bread and cake, biscuit, brewing, carriage and truck body, radio, sheet metal and rubber industries.

In the industries for which index numbers have not been calculated there were increases of ten per cent for longshoremen at Halifax and Saint John in the autumn. On the Great Lakes increases of one cent per hour were general but an increase of four cents had been made at Port McNicoll late in the 1938 season. In grain elevators the increases averaged over one per cent. In electric current production and transmission increases averaged almost one per cent, but were slightly more in the maritime and western provinces. For civic employees there were some increases by way of restoration of reductions made since 1931 gradually restored since 1934. For steamship and tug employees there were a few increases on the Great Lakes, these being usually in cases where increases were not made in 1937 or 1938, when increases of five to fifteen dollars per month were general. In metal mining there have been very few changes since 1937 when increases averaged five per cent. Many miners, however, receive bonuses based on the prices of metal as well as on production.

For previous years it will be seen from the table of index numbers that by 1920 wages had reached levels about 100 per cent higher than in 1913, in some groups the increase being over

one hundred per cent while for building and printing trades the increases were appreciably less, being only about 80 per cent. After 1920 all groups showed some decreases, although printing trades and coal mining reached the peak in 1921 instead of 1920, declining somewhat thereafter. The decreases in coal mining in 1925 were comparatively steep and tended to reduce the average for the six groups averaged for the period back in 1901. From 1925 to 1930 the movement was upward in each group. In 1930 the index numbers for most of the groups were slightly higher but that for lumbering declined slightly. In 1931 all groups were downward except printing trades and coal mining. In 1932 and 1933 all groups were down, the greatest decreases being in lumbering and building trades. In 1934 lumbering showed substantial increases, factory labour also advanced appreciably and coal mining slightly while the other groups were lower. In 1935 all groups were appreciably higher and the upward movement has continued since but in 1939 the increases were slight in all groups except logging and sawmilling where decreases occurred.

The weighted index number (with wage rates in 1913 as 100) for all groups in 1939 at 198.3 was higher than in 1929 and in 1930 at 196.0 and 197.1 respectively, but lower than in 1920 at 207.7.

Building Trades

In the building trades up to 1919 there were smaller increases than in any of the other groups, but in 1920 there were considerable increases. In 1921 decreases of 10 cents per hour were general and in 1922 decreases of 5 cents per hour were numerous. In 1923, 1924 and 1925, while there were upward movements in the average, it was due to increases in particular trades and in certain cities, and not to a general upward movement for most of the trades and localities. From 1926 to 1930, the upward movement was somewhat more general. During 1931 there were numerous decreases, in some localities the reduction being general while in others it was confined to certain trades. During 1932 and 1933 the decreases were general, averaging about 10 per cent, while in 1934 there were decreases in some trades in certain cities but no general downward tendency appeared. In some cases there were increases so that the average decrease was about 3 per cent. In 1935, increases occurred chiefly in Quebec and Ontario, some of them due to the agreements which established minimum wages under provincial legislation as outlined in Appendix D. In 1936 the upward movement continued with, however, decreases in certain trades in a few

localities. In 1937 there were increases in several of the localities and in 1938 increases became fairly general. In 1939 there were increases in only a few cases.

Metal Trades

In the metal trades the increase in wage rates from 1915 to 1918 was greater than in most of the other groups, there being a good demand for labour in the manufacture of munitions. During the industrial activity in 1919 and 1920 further increases were made, but in 1921 and 1922 considerable decreases occurred. In 1923 and 1924 some recovery was experienced, in 1925 there was practically no change, from 1926 to 1930 there were some slight changes upward, but during 1931 the changes were downward, while during 1932 and 1933 the decreases averaged 5 per cent and 3 per cent respectively. In 1934 there were comparatively few decreases, with some increases, so that the average was down less than one per cent. In 1935 wages recovered, being slightly higher than in 1934, and this slight recovery continued in 1936 and became substantial in 1937. In 1938 and 1939, however, the advances were slight.

Printing Trades

In the printing trades up to 1920 increases were somewhat less than in most of the other industries but in 1921 when many of the three or five-year agreements between employers and the unions expired, rates were advanced and hours were reduced in many cases. Increases appeared each year thereafter down to 1931. During 1932 decreases of 10 per cent were general in the western provinces and were made in some cities in the east. In 1933 the decreases were general, averaging 5 per cent. In 1934 while there were further decreases, there were some increases, the average being down less than one per cent. In each year from 1935 to 1939 there were a few increases.

Electric Street Railways

In electric railway service, rates had almost doubled by 1920, but declined slightly in 1921 and 1922, recovering somewhat in 1923 and very gradually each year thereafter until 1931 after which reductions occurred until 1934.

Since 1930, on many of these railways, with reduced traffic, operating costs were lowered to some extent by reducing hours per day, and therefore daily wages, instead of reducing hourly rates. In 1934 very few changes in wages were made so that the index number was practically unchanged. Some increases occurred in each year from 1935 to 1939.

Steam Railways

In steam railway employment, wage increases were considerable in 1918, 1919 and 1920, but in 1921, decreases averaging about 12 per cent for all classes were made and in 1922 decreases for shop crafts, maintenance of way employees and for freight handlers, clerks, etc., were made, averaging about 10 per cent. In 1926, at the end of the year, wages of conductors, trainmen, brakemen, baggagemen, and yardmen were advanced about 6 per cent, that is, by half the amount of the reduction in 1921, and during 1927 similar increases were made in rates for other classes. In 1929, increases were secured by shop and maintenance of way employees and by certain classes of train crews on some lines. In 1931, while practically all classes were to a great extent on short time, changes in rates were not made until the end of the year when a 10 per cent deduction from each employee's pay was made for train, engine and telegraph service employees from December first. In the early months of 1932 the same deduction was applied to other classes.

In 1933, earnings of employees in engine, train and telegraph services were subjected to a deduction of 20 per cent from May to October, inclusive, and 15 per cent thereafter. The deduction for most of the other classes was increased to 15 per cent in December.

Toward the end of 1934 amendments to the agreements between the railway companies and the employees provided that the general deduction of 15 per cent would be changed to one of 12 per cent on January 1, 1935, and to 10 per cent on May 1, 1935. Early in 1937 an amendment to each agreement provided that the deduction would be as follows: February 1, 9 per cent; April 1, 8 per cent; June 1, 7 per cent; August 1, 6 per cent; October 1, 5 per cent; December 1, 4 per cent; February 1, 1938, 2 per cent; April 1, 1938, none.

Coal Mining

In coal mining the index number reached its peak in 1921, increases having been made in the closing weeks of 1920. In 1922 decreases were made in Nova Scotia and Vancouver Island and in 1923 and 1924 slight decreases occurred in the latter. A substantial decrease occurred in Alberta and southeastern British Columbia in 1924. In 1925 decreases occurred in the three principal districts, being especially steep in Alberta and southeastern British Columbia. Slight increases, however, were provided for a number of classes in some of the mines in Alberta toward the end of the year. In 1926, reductions were effected in

Nova Scotia but wages in the other fields were practically unchanged. Slight increases were made in some mines in Alberta in 1928. In Nova Scotia in February, 1930, rates for labourers were changed by increases of 5 cents to 15 cents per day and certain other dotal classes were slightly increased. During 1931 rates of wages were steady but the industry suffered greatly from short time, that is, collieries were operated less than six days per week to a great extent. In 1932 in Nova Scotia rates were reduced 10 per cent in March, except that a minimum of \$3.25 per day was provided for in the principal mines. In the other districts rates were reduced only in a few of the smaller mines. In 1933, wages in the Drumheller district in Alberta were reduced more than 10 per cent. In Nova Scotia, rates were unchanged in the principal mines but there were reductions of about 15 per cent in certain mines of medium size. In 1934 partial restorations of these reductions were made in some Nova Scotia mines, while decreases occurred in New Brunswick. In 1935, increases of about 5 per cent were made in Nova Scotia and in Alberta in the Drumheller and Edmonton districts. In 1937 dotal rates in several of the principal mines in Nova Scotia were increased by nearly 10 per cent. In 1938 the rates were increased 5 to 10 per cent in the various districts in Alberta and in the Crow's Nest Pass district in British Columbia. In the principal mines in Vancouver Island in British Columbia average increases of 7 per cent were made. In 1939 there were practically no changes in rates except that in Saskatchewan the terms of settlement of a strike provided that the rates in a new agreement would be retroactive to December 11 with a minimum rate of 40 cents per hour for labourers. In Alberta in a small number of mines increases in wages were made similar to those in other mines in 1938.

The index number for 1901 to 1934 does not include New Brunswick, Saskatchewan and the Princeton district in British Columbia. The inclusion of these figures for 1934, when weighted according to numbers of miners employed, made no change in the result.

Factory Labour

Factory labour had shown almost the greatest percentage increases up to 1920, both for common labour and for the various trades, but steep decreases appeared from 1921 to 1923

after which the trend was upward until 1931 when a considerable number of decreases occurred. In 1932 decreases in rates were numerous and steep in some cases. There was, however, a pronounced tendency to reduce hours per week or per day or both, frequently on a short time basis, with relatively small reductions in hourly rates. In some cases, where hours per day were reduced more than daily wages, the hourly rate became higher. In 1933, rates were again generally downward but less steeply. In 1934 there were numerous increases in nearly all of the manufacturing industries but comparatively few decreases so that the index number rose by nearly 3 per cent. In 1935 the upward movement continued. In Ontario and Quebec this was due to some extent to agreements establishing minimum rates in various localities and industries under provincial legislation. In 1936 wages were increased in many establishments in all manufacturing industries and in 1937 and 1938 the upward movement continued. In 1939 there were comparatively slight increases in nearly all of the industries.

Logging and Sawmilling

In logging and sawmilling steep increases in wages appeared up to 1920, followed by particularly steep decreases in 1921, after which substantial increases occurred in 1923 and 1924, with a decrease in 1925 and slight increases each year thereafter until 1930 when more decreases than increases appeared. During 1931 decreases were general, and again in 1932, wage reductions of 20 per cent being quite common. In 1933, wages were still downward but there was a pronounced upward trend toward the end of the year for the ensuing season. In 1934, substantial increases in wages were general both in logging and in sawmills so that the index number rose by about 20 per cent. Provincial regulations as to wages in logging in New Brunswick and Quebec came into force that year. In 1935 the increases averaged 5 per cent. In 1936 wages were again upward, the increases averaging nearly 9 per cent. In 1937 the average increase was over 13 per cent and in 1938 was 5 per cent. In 1939 there was an average decrease of over one per cent as the number of decreases in wages reported exceeded the number of increases except in British Columbia where increases were more numerous.

Nature and Scope of Report

The main object of these reports is to show the changes in wage rates and in hours of labour during the periods covered. The figures given in each report afford a continuous record for the years included, the data being from the same sources as far as possible. Whenever a new source of information becomes available, the figures for previous years are secured, if possible, and the record is revised accordingly.

Information is compiled from reports secured annually from representative employers and trade unions, and also from union agreements. The information is obtained in June for building trades, civic employees, steamships, trucking and cartage, longshoremen, logging and sawmilling, pulp and paper mills, and for iron and steel products, including automobiles, parts and accessories. For other trades and industries the information is secured chiefly in September. For the classes covered in June, later information is frequently received and used.

Figures are secured from practically all the large establishments in the various industries and from a representative number of the smaller establishments. These reports are supplemented by figures obtained by officers of the Department and by resident correspondents of the *LABOUR GAZETTE* in the principal industrial centres.

Wages in manufacturing are shown by samples numbered one, two, etc., each sample showing the predominant rate in a certain establishment; in some cases, for large establishments two or three samples are given; in other cases where the same rate is paid by a number of firms a sample may represent several such firms in order to avoid repetition. Additional samples of rates above or below the predominant rates have been included where an appreciable number of workers were receiving such rates; where it appears to be preferable a range of predominant rates is used. The locality in each case is not given as it would in many instances make possible the identification of the particular establishment. For common labour in factories sample rates are given by localities for the principal manufacturing centres only.

For the following industries wages are given in the form of samples as in the case of factory labour; steamships, grain elevators, electric current production and transmission, telephones, laundries, logging and sawmilling, and metal mining.

Figures for particular localities are given for building, metal, and printing trades, electric railways and civic employees in Tables I

and II, and for trucking and cartage, and longshoremen in Table III, also for common labour in factories in Table IX.

The statistics as to building trades show the prevailing rates of wages and hours of labour for nine classes of labour for the years 1920, 1926, and for 1930 to 1939 inclusive, for the building season beginning in the spring of each year. During the year 1931, however, changes occurred later in the season more extensively than is usual, and the rates in effect at the end of the year were therefore obtained and included. For 1933 a similar survey was made again toward the end of the year in several cities. As in all previous years, changes in rates reported down to the end of the year, from the sources mentioned above, are included. In Nova Scotia, Quebec, Ontario, Saskatchewan and Alberta, the rates include agreement rates made obligatory on all employers affected under provincial legislation as to collective agreements and industrial standards; in British Columbia they include minimum rates for the construction industry under the Male Minimum Wage Act, and in Manitoba under the Fair Wages Act. Such rates of wages and hours of labour are given in Appendix D.

On steam railways, wages of employees on the regular staffs are fixed according to agreements between the several railways and the employees, members of the organizations of railway employees, the principal railways having the same rates for nearly all the principal classes. The figures published are taken from these agreements.

In water transportation the organization of various classes of employees negotiate scales of wages, hours and working conditions with many of the steamship companies although agreements are not always signed; other operators tend to pay about the same rates.

In coal mining, the wages in the principal districts are arranged by agreements between the coal mining operators and the employees, in most cases represented by unions and in others by committees of employees. The figures published from 1920 to 1933 were taken from such agreements. The figures for average earnings of contract miners, however, were received from representative employers in each district. In some of the mines in these districts the wages of unorganized employees are somewhat lower than the rates in the agreements. For Report No. 18, and subsequent reports, statements as to wage rates and hours of labour have been requested from the operators of all the larger mines throughout Canada and the figures so secured have been

compiled by provinces or districts. The resulting figures include those for many mines not operated under agreements as to wages and working conditions, and cover the mines in New Brunswick, Saskatchewan and the interior of British Columbia for which figures were not previously published.

In metal mining the rates of wages and hours of labour are shown as samples for mines in the various parts of Canada, secured from representative employers.

In logging, Table VII, the data each year is for the season beginning in the autumn and ending in the spring in Eastern Canada.

Data as to Hours

In earlier reports the hours of labour shown throughout were the standard or regular hours per week, per day, etc., and did not indicate the hours actually worked either over-time or on short time. During 1931 a number of establishments in many of the manufacturing industries reported operations on a short time

basis. In the report for that year, No. 15, covering the years 1926, 1930 and 1931, standard or full-time weekly hours were shown as before, with full-time weekly or daily earnings where hourly wages were not used.

In Report No. 16, with figures for 1930, 1931 and 1932, in the tables on manufacturing industries, the hours of labour for these years were those reported by employers, whether short time or regular hours, and the wage rates were brought to an hourly basis, except in certain industries, clothing, bread, cake, biscuit, candy, brewing and paper box making for which regular hours were reported chiefly, employees being usually paid by the week. The same procedure has been followed in subsequent reports except that wages for boot and shoe manufacturing are given on a weekly basis with the hours shown as reported. In this industry, as in some instances in clothing manufacturing, the hours actually worked by individual piece workers are not always reported and the hours shown are those on which the department or factory is operated.

Index Numbers of Wage Rates

In Report No. 1 tables of index numbers were given in order to show the general trend of the movement in rates of wages. The first set of index numbers was for the rates of wages from 1901 to 1920 in the thirteen selected cities. For each series of rates, that is, for each trade or occupation in each locality, index numbers were calculated both from the hourly rates and from the weekly rates, and these index numbers were averaged for all localities, by groups, thus indicating the relative changes in weekly rates and in hourly rates. The year 1913 was taken as the base period, that is the rate for 1913 in each case was taken as 100, so that the index numbers showed the percentage changes in rates from year to year prior to and since that date. An average was also made for all of the series in these tables, in order to indicate the general trend in wages in such trades as a whole. In making the average index numbers for the six groups the simple arithmetical averages were taken, no allowance being made for the importance of each trade or group by using a system of weighting. In Report No. 3 this table of index numbers for the thirteen cities was brought down to September, 1921.

In subsequent reports the index numbers of hourly rates from 1901 to 1921 have been reproduced, with figures since 1921 calculated by ascertaining the average increase or decrease per cent in the figures for each group each year from the figures for the preceding year and adjusting the group index number

accordingly. The index numbers therefore show approximately the movement of wage rates in each group for the past year as compared with the movement in previous years and show current levels as compared with levels in 1913. In Report No. 3 index numbers of daily wages in coal mining were given, calculated in the same manner as the index numbers in Report No. 1. The index number for the coal mining group since 1921 has been calculated in the same manner as those for the other groups. The index numbers for metal trades, previously calculated from Section b in Table I, omitted for 1931 and 1932, were calculated from the average percentage changes in the samples for such trades in Table X for those years.

A table of index numbers of wages for factory trades, for common labour in factories, and for lumbering (logging and sawmilling) calculated from the sample rates published was also given for the period 1911 to 1920 in Report No. 1. These figures have been brought down to 1939 in the same manner as the other index numbers since 1921 were calculated.

The classes of labour for which rates were used for the calculation of index numbers for the period 1901 to 1939 are, in the main, skilled trades; and practically all of these classes, including the unskilled, are organized to a great extent in trade and labour unions. The index numbers for these six groups therefore show the trend of wage rates in a number

of organized occupations whose members, except coal miners and steam railway employees, work chiefly in cities. They do not, however, indicate the changes in wages outside of industrial centres.

The index numbers calculated from sample rates of wages in factories show the trend of wages for labour in manufacturing industries in which there are many establishments in small centres as well as in cities. The figures for lumbering cover sawmilling in both large and small centres and logging in the principal districts.

Weighted Average Index Numbers

Beginning with Report No. 19, in addition to the simple average for the six groups with figures from 1901 to 1937, weighted averages have been calculated for these six groups and also for all nine groups in those years for which figures are available. The index number for each group is weighted by the average number of wage-earners in the industry represented, as shown by the decennial or the annual industrial census of 1921 and of 1931, the average of the figures for these two dates being taken in each case.

The weights were as follows (in thousands): building trades 143; metal trades 131; printing trades 25; electric railways 18; steam railways 161; coal mining 28; common factory labour 110; miscellaneous factory trades 363; logging and sawmilling 77.

It will be observed that this weighting has most effect in modifying the effect on the general averages of the figures for coal mining and lumbering in which from time to time since 1920 the changes have been quite different from those in the other groups.

Weighting, within groups, although desirable, has not been done. In such groups by occupations or industries weighting makes comparatively little difference as rates of wages for the various classes of labour tend to rise and fall to the same extent even in different localities. In the three groups, Common Factory Labour, Miscellaneous Factory Trades, and Logging and Sawmilling, the index numbers, being calculated from samples, the averages are automatically weighted by the number of samples which vary according to the number of workers in the various occupations and industries.

*Minimum rate and hours approved under the Industrial Standards Act, Ontario, 1935.

**Beginning in 1934 agreements approved by Order in Council under the Collective Labour Agreements Extension Act, Quebec, 1934, established minimum rates of wages for various trades in certain cities, towns and other defined jurisdictional territory throughout the province. On May 1, 1937, the Collective Labour Agreements Extension Act, Quebec, 1934, was replaced by the Act entitled an Act Respecting Workmen's Wages. On March 18, 1938, the Act respecting Workmen's Wages was replaced by an Act entitled The Collective Labour Agreements Act. The minimum rate in each range is that approved under these Acts.

*For electric street railways by cities, see Table I (d).

**Differentials on certain lines or divisions above these rates.

Nearly all classes are on the basic 8-hour day with time and one-half for overtime.

†Machinists; boilermakers; blacksmiths; plumbers, etc.; sheet metal workers; cabinet makers; carpenters, coach, locomotive and bench; welders, etc. ‡Freight car carpenters; freight car painters; car inspectors, car repairers, etc. §Since 1918, employees are allowed approximately one cent per hour extra for checking in and out.

(a) On Western lines Port Arthur and west, until 1929 in addition to these rates boilermakers' helpers received 5½ cents; blacksmiths' helpers, 4 cents, and other helpers 3 cents; since May 1, 1929, the differentials on western lines were boilermakers' helpers 4 cents, other helpers 2 cents.

(b) Deductions from each employee's earnings on basic rates effective as follows. Train, engine and telegraph service, 10 per cent Dec. 1, 1931; 20 per cent May 1, 1933; 15 per cent Nov. 1, 1933; Maintenance of way and bridge and building, 10 per cent May 1, 1932; 15 per cent Dec. 1, 1933; Locomotive and car shops, 10 per cent April 1, 1932; 15 per cent Dec. 16, 1933, with certain exceptions. Deductions amended for all classes effective as follows: Jan. 1, 1935, 12 per cent; May 1, 1935, 10 per cent; in 1937, between February and December reduced to 4 per cent; in 1938, eliminated by April 1.

(c) Effective July 16, 1922 until Nov. 1, 1922 when rates in 1923-26 column were made retroactive to July 16, 1922.

† Rates include board and lodging and vary to a great extent according to size or type of vessel. Hours on duty for officers, seamen, deckhands, etc., generally average twelve per day seven days per week except when in port; for engineers, firemen, oilers, etc., hours generally average eight per day, but twelve in some cases; for stewards, cooks, etc., hours vary according to requirements. All classes may be required for extra duty at any time, especially in the Great Lakes and Upper St. Lawrence service when passing through canals. On most of the British Columbia coastal passenger vessels hours for all classes average eight per day, 6 days per week, with extra pay for overtime. Some of the tug-boat employees in all areas are on the eight-hour day.

‡ Seasonal bonus in addition.

* The figures given for contract miners are the average earnings at piece rates and for some mines the figures include helpers and loaders on piece work; the figures given for machine and hand miners are rates per day.

† Higher rates are paid in two or three mines for some of these classes; also in the large mines for certain positions.

§ The wage scale in a new agreement is to be retroactive to December 11, 1939, with a minimum of 40 cents per hour for labourers.

* Figures for the Yukon Territory were included under British Columbia in 1921. Each year two to four miners have been employed from 50 to 100 days; wages averaged \$8.02 per day in 1938. In Manitoba mining operations began in 1931, from ten to twelve being employed until 1938, when five men were employed, averaging \$3.13 per day.

† Prolonged dispute during year.

‡ Figures calculated by dividing number of man days worked into total wages paid.

§ Prior to 1933 the figures for Nova Scotia included certain employees handling coal at a distance from the mine.

APPENDIX D

WAGES AND HOURS OF LABOUR IN FEDERAL GOVERNMENT CONTRACTS AND UNDER PROVINCIAL LEGISLATION

Legislation providing for the regulation of wages or hours of labour or both has been enacted in all provinces but the scope and application of the statutes and the method of regulation vary. A Dominion statute limits

hours of persons employed on public works and provides for the regulation of wages. Under the authority of an order in council the Government also imposes conditions as to wages and hours in the manufacture of government supplies.

Federal Government Contracts

In accordance with a Resolution of the House of Commons in 1900, the Federal Government adopted a Fair Wages Policy applying to building and construction work and to the manufacture of government supplies for the observance of the rates of wages generally accepted as current for competent workmen in the district where the work is performed.

In 1922 the application of this policy by the various departments of the Government was standardized under an order in council setting forth the labour conditions to be inserted in all contracts for construction and, as far as practicable, in all agreements involving the grant of public funds by way of loan or subsidy to aid any work of construction and in all contracts for the manufacture and supply of mail bags, letter boxes, and other postal stores, fittings for public buildings, harness, saddlery, clothing and other equipment for the military and naval forces, Royal Canadian Mounted Police, letter carriers, and other Government officers and employees and any other articles designated by the Governor in Council. Where there was no "current" rate of wages in a district, the rate was to be fair and reasonable and disputes as to wages and hours were to be determined by the Minister of Labour. "Current wages" and "hours of labour fixed by the custom of the trade" were defined as the standard rates either recognized by signed agreements between employers and workmen in the district or the rates actually prevailing.

On December 31, 1934, the labour conditions previously applicable to contracts for public works and the manufacture of various classes of Government supplies were rescinded and new conditions substituted (LABOUR GAZETTE, 1935, page 24).

The new order in council retains the requirement for the payment of wages at not less than current rates, or if there are no current rates, fair and reasonable rates, but it is also provided that persons under 18 years of age are entitled to rates of wages not less than those provided for females under the minimum wage laws of the province in which

the work is performed. In New Brunswick and Prince Edward Island, where such laws are not in effect, contractors are required to pay workers under 18 years of age wages not less than those provided for females under the Minimum Wage Act of Nova Scotia.

It is also stipulated that in no event shall the wage rate for male workers over 18 be less than 30 cents an hour, or for female workers over 18, 20 cents an hour but in any case where the provincial minimum wage law requires the payment of higher wages, the latter shall apply in the execution of a Federal contract. For example, for a 50-hour week on a Federal Government contract a male over 18, whether experienced or inexperienced, must be paid not less than \$15 and a female \$10 even if the provincial minimum scale may provide \$6, \$7, \$8, etc., but if the provincial minimum scale is in excess of \$15 in the case of male and \$10 in the case of female workers then the provincial scale must prevail.

The Fair Wages and Hours of Labour Act, 1935, replacing the Fair Wage and Eight-Hour Day Act, 1930, gave statutory effect to the Government's wage policy with respect to public works. It provides for the observance of current rates of wages and stipulates also that wages shall in all cases be such as are fair and reasonable. It requires an eight-hour day and 44-hour week on construction work under federal Government contracts and on works towards which federal aid is granted by way of subsidy, loan, etc., as before, but extends the list of such works to include those carried out by any provincial and municipal authority if financial aid is given by the federal Government, "unless the grant or payment is by statutory authority or by agreement with the Government of Canada excepted." It is also provided that regulations may be made to require the furnishing of any necessary information to ensure the enforcement of the statute. Any contract may be exempted from the Act by order in council before being entered into.

In accordance with the same policy, regulations under the Dominion Municipal Improvements Act, 1938, require all contracts for

projects to which federal assistance is given to municipalities to contain a fair wage clause similar to that inserted in contracts for Dominion public works.

Minimum Wages under Provincial Legislation

A law providing for the establishment by a government board of minimum rates of wages is on the statute books of every province but Prince Edward Island. This legislation applied at first only to female workers but all but that of Nova Scotia now applies or may be applied to males also. In Alberta and British Columbia there is a separate statute relating to each sex. The New Brunswick Minimum Wage Act of 1930 applying to women was never put into effect, but the Fair Wage Act, 1936, now incorporated in the Labour and Industrial Relations Act, 1938, enables minimum rates to be established for both sexes. The only orders so far made apply to particular establishments.

Boards administering minimum wage laws have power to fix special rates for handicapped workers and in some provinces such workers have to be licensed. Rates lower than the ordinary minimum which are increased at specified intervals are also established for learners or inexperienced workers in most occupations but the proportion of inexperienced workers that may be employed at such rates is usually restricted. In some cases, inexperienced workers are classified according to age and those over 18 years of age have higher minimum rates than those under 18.

Part-time and overtime rates may be set by all the boards. In Ontario the statute specifies the hours to which the ordinary minimum rate is to apply and in Nova Scotia the board may determine the work-period to which the rate applies. In the other provinces the Act gives the board power to limit

hours or, as in Alberta and British Columbia, there is an Hours of Work Act. Information as to the legal regulation of hours is given in a later section of this Appendix.

In all provinces, workers required to wait on the premises must be paid for the time so spent and if the employer requires uniforms to be worn, as in hotels and restaurants, he must furnish them and pay for laundry.

Apart from the special statutes providing minimum wage-fixing machinery, minimum rates of wages may be fixed under other legislation in several provinces for certain classes of workers such as lumber workers and truck or bus drivers. Under the Manitoba Fair Wage Act, the Collective Labour Agreements Act of Quebec and the Industrial Standards Acts of Alberta, New Brunswick, Nova Scotia, Ontario and Saskatchewan, minimum rates of wages may also be determined. The New Brunswick Industrial Standards Act came into effect only on August 10, 1939, and no orders have yet been made under its authority. The Quebec Collective Labour Agreements Act and the Industrial Standards Acts are dealt with in a separate section later in this Appendix.

The tables below set out the rates established under the Minimum Wage Acts or Fair Wage Acts, as they are called in some provinces, and a brief summary is given of the provisions in each province in so far as they affect wages. For full information it is necessary to refer to the orders as issued by the provincial authorities. Fairly complete summaries were published in THE LABOUR GAZETTE when the orders were gazetted.

PRINCE EDWARD ISLAND

The Charlottetown Incorporation Act as amended in 1936 empowered the city council to make a by-law prohibiting any labourer or workman being hired at less than 35 cents an hour for any work done in the city by or

under a contractor if it is of the kind usually done by contractors and if it is directed by any person other than the owner of the property on which the work is done. Such a by-law was passed on May 14, 1936.

NOVA SCOTIA

The Nova Scotia Minimum Wage for Women Act enables the Minimum Wage Board to fix minimum rates for female workers in any trade or occupation in cities and towns. Agriculture and domestic service are expressly excluded from the Act. The first orders were issued in 1930.

Minimum rates have been established for experienced and inexperienced female workers under and over 18 in laundries and dry-cleaning establishments; bakeries and places making food products; hotels and restaurants; textile and needle trades, including boots and shoes; telephone operators; factories not covered by another order; bookbinding, paper-box making and other paper trades; shops; beauty parlours; and offices. Except in offices and in the needle and textile trades, the number of inexperienced adults or young girls or of both is limited to 25 per cent of the total number of females in the establishment. Under all orders, except those applying to shops, beauty parlours and hotels and restaurants, the length of the learning period is limited to one year for persons over 18 years of age and to 18 months for those under 18 and persons reaching the age of 18 are to be considered as experienced if they have been employed for one year. For office work, only a three months' learning period is required if the employee holds a satisfactory diploma from a business school. For beauty parlours and hotels and restaurants, no distinction is made on account of age. For beauty parlours there is a "beginner's rate" applying to the first six months, then rates for "inexperienced" employees for 12 months. The "beginner's rate" does not apply to those who have paid for at least three months' training in a school or beauty parlour. In hotels and restaurants there is a learning period of three months. In shops, including millinery, dressmaking or fur-sewing connected with a shop, there is a probationary period of three months for which

no wages need be paid and a subsequent learning period of 18 months for all workers, the rates varying according as the worker is under or over 18 years of age.

Piece-workers under the general factory and paper trades order must be paid the specified weekly minimum for the first six months, after which it is sufficient if only 80 per cent receive the prescribed minimum. The textile and needle trades order, as revised in 1939, stipulates that if 80 per cent of the workers receive more than the minimum wage, the others may be paid at a lower rate. Piece-workers in beauty parlours must be paid at least the minimum.

As regards hours of labour, the minimum rates apply to a week of from 44 to 50 hours except in beauty shops and offices where they relate to a 48-hour week or the normal work-week if less than 48. Except in shops and in the textile and needle trades, overtime after the specified hours and short time for less than 44 or 48 hours, as the case may be, must be paid pro rata. In the textile and needle trades, part-time rates of 22 cents an hour in cities and large towns and 20 cents in smaller towns are provided and overtime must be paid for at rates of 33 cents and 30 cents an hour according to the size of the town. Special provisions for shops permit a 60-hour week at the regular weekly minimum from December 15 to 31, require time and one-half to be paid for work in excess of 50 hours at all other times, prohibit any reduction for a statutory holiday and require the hourly rates for experienced workers to be paid to all part-time and casual employees. Deductions for absence are not in any case to exceed the value of the time lost.

Where board or lodging or both are provided by the employer, the amounts that may be taken from wages in payment thereof are limited to \$2 a week for lodging and \$4 for board except for workers in laundries. The latter may be charged not more than \$4.50 for board and lodging in Halifax and other towns except Sydney and Glace Bay where a maximum of \$4.50 for board and \$1.50 for lodging may be deducted. In no case may more than 25 cents be deducted for a single meal.

NEW BRUNSWICK

The Minimum Wage Act, 1930, applying to female workers, has not been put in effect. The Labour and Industrial Relations Act, 1938, which reproduces the provisions of the Fair Wage Act, 1936, provides for a Fair Wage Board with power to establish minimum wages, maximum hours and overtime rates. No orders of general application have been issued but several orders applying to individual plants have been made.

Forest Operations

Under the Forest Operations Commission Act, 1934, the Commission has power, subject to the approval of the Minister of Lands and Mines, to make final decisions in disputes relating to wages and living conditions in lumbering camps and to fix minimum and average wages for the industry. The Act does not apply to the Christmas tree or firewood

industries. It permits the employment of men inexperienced or physically unfit for a full day's work at wages below the minimum rates established, if agreements approved by the Commission are signed by the employers and the men concerned.

From April 1, 1939, the Commission established, for stream driving, an average rate of wages of \$2.50 a day and board or its equivalent in the case of piece-work and a minimum wage of \$2.25 per day and board. Wages paid to cooks, foremen, bookkeepers and clerks are not to be included in determining the average. The last three classes of workmen are not within the scope of the Act. For booming and sorting, the minimum rate is 25 cents per hour without board, provided that where board is furnished by the employer, not more than 50 cents per day may be charged the employee.

From October 1, 1939, for cutting, yarding and hauling, the average wage rate paid by any employer must be at least \$40 per month and board and the minimum rate for each employee \$36 per month and board. Piece-workers must not be paid less than an average

of \$40 with board. If board is not furnished by the employer, wages must be increased by 50 cents a day. Wages paid to cooks, tractor operators, truck drivers, foremen, bookkeepers and clerks and the amounts paid to employees for piece-work are not to be included in determining the average wage.

QUEBEC

The Fair Wage Act, 1937, empowers the Fair Wage Board to establish minimum rates and maximum hours for all employed persons except farm labourers, domestic servants, workmen covered by the Forest Operations Act and those governed by a collective agreement made legally binding under the Collective Labour Agreements Act or the Professional Syndicates Act. In the case of an agreement, if the Board, with the approval of the Minister of Labour, declares its provisions less favourable to the employees than the provisions of an order of the Board, the latter are to apply.

Order 4, which is to remain in force until March 31, 1940, unless otherwise ordered by the Lieutenant-Governor in Council, fixes minimum wages for persons employed in commercial and industrial undertakings including those working at home for such establishments, workers in road transport, hotels and boarding houses with more than five rooms to rent and, if a majority of the members approve, for persons employed by municipal and school corporations. The order originally applied only to cities and towns but, as amended from December 30, 1939, it relates to all establishments within its scope throughout the province.

Subsequent orders of the Fair Wage Board deal with special industries or occupations which would otherwise be covered by Order 4. In some cases, they relate only to a limited area. Those in effect on December 31, 1939, apply to: silk textiles; stationary enginemen and firemen in the Montreal district; manufacture of shoe counters; cotton textiles, excluding persons paid by the month, office workers and those engaged exclusively in rayon operations; teachers in Verdun; the milk industry in the Montreal district; building in Arthabaska County; match factories; maintenance men in the Montreal district in office buildings, warehouses, industrial and commercial establishments and apartment houses, but not in hotels or restaurants; packing and grading waste paper; the wholesale and export trade in butter and cheese on the Island of Montreal; laundries, dyeing and dry cleaning establishments in Quebec City, Quebec West and in the Montreal district; full-fashioned hosiery; tanning and dressing of hides and

leather; brick and tile manufacture; manufacture of doors, sashes and wooden building products; taverns in the Montreal district; waste materials, except paper, in the Montreal district; taxicab drivers in and about Montreal and in Quebec and Levis; the manufacture of wooden boxes; wholesale food establishments in Quebec City, Levis, Quebec West and Lauzon; custom tailoring and dressmaking in Quebec City; mattress manufacture and furniture upholstery in the Cities of Quebec, Quebec West and Levis; ice industry and trading in Quebec City and district; retail food dealers in Quebec and Quebec West and foundries in Hull.

The accompanying table shows the minimum rates established for the principal classes of workers by most of these orders. The cotton textile order increased by 10 per cent the rates fixed by agreement between the Dominion Textile Company and the National Catholic Textile Union. For teachers in Verdun the scale of salaries was raised to that adopted by the Catholic School Board of Montreal. In all match factories the minimum rates are to be those provided for in Zone 2 by Order 4. All special orders provide that where not incompatible the provisions of Order 4 apply to establishments covered by them.

Most of the orders fix different rates for the two or more zones into which they divide the province. No distinction by reason of age, sex or experience is made in the rates fixed by Order 4 but under that order and certain special orders there is a minimum rate for not less than a fixed proportion of the workers in an establishment and lower minima are set for other proportions. Moreover, it is stipulated in Order 4 that, unless the Board determines otherwise, an agreement may be made between the employer and an apprentice for the payment of a rate not more than 10 per cent below the lowest minimum fixed for the workers in the establishment but no employer under Order 4 may class more than 10 per cent of his employees as apprentices. Under the special orders the proportion of apprentices is usually restricted and separate rates are fixed.

Hours of labour are limited by the orders only in a few cases. A maximum of 72 hours a week is established for male workers by

Order 4. Under the Industrial and Commercial Establishments Act, there is a maximum 10-hour day and 55-hour week for females and boys under 18 in industrial establishments and a 60-hour week for the same classes in shops in towns with a population of more than 10,000 except with a special permit. The order applying to laundries, dry cleaning establishments and dye works in Montreal limits the hours of work of females, except office workers, to 60 hours a week but the overtime rate has to be paid after 54 hours.

The wage orders, however, usually specify the number of hours to which the minimum rates apply and fix special overtime rates. Overtime, under Order 4 and unless otherwise stipulated in the special orders, must be paid for at one and a half times the minimum rate except when the Board permits otherwise or under certain other conditions, such as the receipt of weekly wages of at least from \$20 to \$30 according to the zone or the payment of wages at least 15 per cent above the legal minimum to workers hired by the week or longer period and given holidays with pay and sick leave or except when holidays with pay are given in lieu of overtime.

For most classes overtime is defined as work in excess of 12 hours in any day, or in excess of 10 hours a day if the specified weekly hours are worked, or in excess of the weekly hours named. In silk textiles, however, the overtime rate is 5 per cent above the minimum and some special workers in other industries are paid pro rata or at a fixed rate. In taverns in Montreal overtime must be paid for at time and one-quarter and workers in hotels and restaurants are only paid the regular rate for work in excess of 60 hours. In wholesale food establishments overtime of office workers, messengers and other special classes beyond 48 hours in the winter or 53 in the summer or for an hour before 7 a.m. or two hours after 6 p.m. must be paid for at time and one-half on the basis of a 50-hour week but for the main class of male employees there is an hourly rate for such overtime of 45 cents in Quebec and Quebec West and 40 cents in Levis and Lauzon and for female employees in these places the overtime rates are 30 cents and 27 cents an hour, respectively. In custom tailoring and dressmaking, overtime must be paid for at time and a half except to employees earning the highest minimum of 50 cents an hour who need only be paid pro rata for overtime. In foundries in Hull, time and one-half must be paid to office workers, messengers, foremen, electricians and pattern makers and for all others the regular rate is to be increased by 16 cents an hour but double time must be paid for Sundays and holidays. No overtime

is payable to workers in these foundries who are hired by the week and are earning at least \$25 a week if they are unskilled, or \$33 a week if skilled, and who are entitled to one week's holiday and four weeks' sick leave with pay each year.

As regards part-time workers, under Order 4, except under special circumstances, regular workers who are employed for less than 30 hours in a week or for not more than three hours in a day must be paid at a rate at least 15 per cent above the ordinary minimum for the class and they must be paid for at least three hours in a day but extra workers employed for not more than two days in a week or in shops from November 1 to December 1 for at least 30 hours in a week have minimum hourly rates varying in the four zones from 25 cents to 15 cents for the first group and from 20 cents to 12 cents for seasonal shop employees.

Special orders issued recently specify rates for part-time workers including those hired during busy seasons. In laundries in Quebec City and Quebec West the part-time rate for males is 20 cents and for females 15 cents and in the manufacture of wooden boxes and other wood products the rates range from 22 cents in Montreal to 14 cents in rural districts. In custom tailoring and dressmaking in Quebec City there is a 30 cents rate for part-time male workers and 20 cents for females and in mattress manufacture and furniture upholstery in Quebec City, Quebec West and Levis there is a 20 cents hourly rate for all part-time workers. The above four special orders apply part-time rates to those working 20 hours a week or less. In retail food stores in Quebec City and Quebec West from November 1 to December 31 part-time employees are to be paid 15 cents an hour and those working two days a week or less must be paid 20 cents. In wholesale food establishments part-time male employees are entitled to at least 30 cents an hour in Quebec and Quebec West and 25 cents an hour in Levis and Lauzon, females 20 cents and 18 cents, office workers 25 cents and 20 cents, and messengers 10 cents an hour. Taxicab drivers in Montreal and Quebec not working every day have a minimum of 25 cents an hour and in the Montreal district must be paid for at least five hours. Bar tenders working part-time in taverns have a 43 cents hourly rate, waiters 32 cents and cleaners 25 cents. When waiters and bartenders work less than 30 hours a week, they must be paid time and a quarter.

When board and lodging are supplied by the employer, Order 4 limits the amount that may be deducted per week from wages to \$5 in the Montreal district, \$4 in Zones II and III and \$3.50 in Zone IV. For board only, the

maximum deductions are \$4, \$3 and \$2.50 and for room only \$1.50, \$1.25 and \$1. Separate meals are 20 cents, 15 cents and 12 cents. In the milk industry and in mining and construction camps, the rates for board and lodging are higher.

The provisions as to legal holidays vary: some orders make no reference to such holidays, others require the payment of double the minimum rate for work on a legal holiday; some stipulate that a day off may be given later, while in wholesale food establishments no deductions from wages may be made on account of a legal holiday.

Wages in Forest Operations

Under the Act to Assure Reasonable Wages for Workmen engaged in Forest Operations, 1937, an order in council, approved September 13, 1939, makes it obligatory on all employers engaged in forest operations except on private lands belonging to farmers or settlers to pay

a minimum of \$45 per month of 26 days except to inexperienced youths from 18 to 20 years of age, handicapped persons and men of 60 years or over for all whom the minimum is \$30 per month of 26 days. It is, however, provided that in no case may the number of the men paid less than \$45 per month exceed 12½ per cent of the total number of workers in a shanty. No person under 18 years may be employed. In addition to the wages in cash, board and suitable lodging must be supplied free of charge. Minimum prices for piece-work are also set and piece-workers may be charged 60 cents a day for board and lodging. No deduction may be made from wages for medical assistance, board, lodging or insurance premiums, and the prices of goods sold to workers are subject to regulation. Regular hours are limited to 60 per week, with time and one-quarter for overtime and time and one-half for indispensable work on Sundays except by cooks, stablemen and teamsters.

Rate for canneries applies to plants operating only from June 15-Sept. 15. Other canneries are governed by order issued in 1940. In the tobacco industry, half the employees must be paid one rate and half the other.

(a) Wherever three rates are indicated, it is provided that not less than 60 per cent of the workers shall be paid the higher rate, not less than 25 per cent the second rate and not more than 15 per cent the lowest rate. Rate for canneries applies to plants operating only from June 15-Sept. 15. Other canneries are governed by order issued in 1940. In the tobacco industry, half the employees must be paid one rate and half the other.

(b) Rates are for 48 hours and 60 hours. Intermediate rate is also fixed for 54 hours.
(c) For 54-hour week except from Feb. 15-June 15, when there is a 60-hour week and weekly, monthly and yearly rates are increased pro rata.

(d) Rates for Zone II apply to hotels and boarding houses with more than 50 rooms in Zones III and IV. Hotels in Theford Mines are to be considered as in Zone III.

ONTARIO

The Minimum Wage Act of 1920 applied only to females but as amended in 1934 stipulated that males replacing female employees must be paid at least the minimum fixed for the latter. The Minimum Wage Act, 1937, which repeals the 1920 Act applies to both sexes in any business, trade or occupation except agriculture and domestic service but the only order made under it authority is one relating to the textile industry.

Orders under the earlier statute remain in effect and apply to factories; seasonal canning; jewellery trades; laundries, dyeing and dry cleaning works; telephone systems; shops; custom millinery; hotels and restaurants; beauty shops; shoeshine parlours; offices; elevator employees; theatres and places of amusement. Custom tailoring in the five largest cities, Toronto, Hamilton, London, Ottawa and Windsor falls within the factory order. The shops order does not apply to office and restaurant workers employed in connection with a shop.

The learning period varies with the industry and, in some cases, with age. There is no learning period for workers in theatres or places of amusement, hotels, restaurants, shoeshine parlours, or seasonal canning. In beauty shops and in custom tailoring in the five cities mentioned, there is no prescribed minimum wage for the first three months nor in the case of elevator operators for the first two weeks. In factories and in offices, except where the worker has a business college diploma, the learning period is one year for a girl over 18 and 18 months for one under 18. Persons

attaining the age of 18 years are entitled to the full rate for experienced workers if they have had one year's experience or more and if they have had less than one year's experience they are entitled to the full minimum wage for experienced workers as soon as they have completed one year's employment. For office workers in towns or villages of less than 4,000 there is no distinction on the ground of age and the learning period is 18 months in places of more than 1,000 population and 12 months in smaller places. In the jewellery trades a worker is entitled to the full minimum after 18 months if she is over 18 years of age and after two years if under that age. In shops, except in small places, girls over 18 have a learning period of one year and those under 18, two years. Employees reaching 18 years of age without selling experience in the five largest cities must be paid at least \$11 a week for the first six months, then the full minimum. In laundries, the learning period is nine months; in beauty shops, two years; in telephone offices, one year; and in custom millinery, three years.

As regards hours of work, the Act stipulates the maximum weekly hours to which shall apply the minimum weekly wages fixed by the Industry and Labour Board which administers the Act. These maximum hours are 48 in a municipality with a population of more than 50,000; 50 in a municipality with a population of between 10,000 and 50,000 and 54 in a smaller municipality or in any locality without municipal organization. The Board has no power to limit hours of work but may

fix special rates for work in excess of the specified hours. All the orders establishing minimum weekly wages, except those relating to telephone exchanges and to laundries, dry cleaning and dyeing establishments, declare the rates to apply to the maximum hours specified in the Act or to the normal working hours of the establishment if they are less than the stipulated number. The weekly rates fixed by the laundries and telephone orders apply in all parts of the province to a 48-hour week or, in the case of laundries, the regular work period if it is less than 48 hours. Night operators in telephone exchanges from 9 p.m. to 8 a.m. who are not required to be in constant attendance at a switchboard are to be paid not less than the minimum for a 48-hour week but others are to be treated as day operators and paid for any overtime beyond 48 hours. Hourly rates are fixed for seasonal canning and for hotels and restaurants.

All orders except those applying to shoeshine parlours in Toronto and to the textile industry require time in excess of the hours to which the weekly rates apply to be paid for at proportionate rates. In shoeshine parlours in Toronto the overtime rate is 26 cents an hour. In the textile industry for the first two hours' work in excess of regular daily hours, 31½ cents an hour must be paid to girls and women over 18, 27½ cents an hour to girls of 17, and 22½ cents to girls under 17 years of age. For males the rates for the first two hours of overtime in any day range from 27½ cents an hour for those under 17 to 40 cents for those over 21, the lower rate increasing by 2½ cents with each year of age. All other overtime must be paid for at the rate of time and one-half. Employees who receive more than the weekly minimum for the regular work-week must be paid time and one-quarter for the first two hours overtime in any day and time and one-half for all other overtime.

The provisions as to payment for part-time and short-time vary. The textile order requires part-time workers employed for at least 40 hours a week to be paid the prescribed minimum wage for a week and those working for less than 40 hours to be paid an hourly rate equal to one-fortieth of the minimum. Workers temporarily on short time in the textile industry must be paid at least their regular hourly rate. In theatres and amusement places, ushers, cashiers and cleaners who are employed for less than 40 hours in a week must be paid minimum hourly rates of 30

cents in Toronto, 27 cents in Hamilton, Ottawa, London and Windsor and 25 cents in any other place. In shops, workers employed for not more than 10 hours in a week must be paid regardless of age or length of employment, at not less than the hourly rates received by experienced full-time workers. Regular full-time employees working short time and part-time workers employed regularly for more than 10 hours a week in shops and part-time workers in beauty shops and laundries may be paid at an hourly rate determined by dividing the minimum weekly wage by the normal weekly work period of the establishment if the latter is less than 48 in the case of laundries or, in the case of shops, less than the maximum work-week to which the minimum wage applies as determined by the proprietor of the place. Except in telephone exchanges, elevator operators and office workers where weekly rates are fixed, deductions for absences must not exceed the value of the time lost.

The proportion of inexperienced workers that may be employed is limited in shops and laundries to 40 per cent of the total number of female employees and in custom millinery, exclusive of temporary help, in the four largest cities to 33½ per cent. In none of the other orders is the proportion of those paid at learners' rates limited.

All beginners, including piece-workers, in factories must be paid the weekly minimum for the first six months and in laundries for the first three months. Afterwards, and at all times in the textile industry, it is sufficient if 80 per cent of the piece-workers receive the prescribed minimum. In the seasonal fruit and vegetable industry only 60 per cent of the piece-workers need be paid the minimum.

For board furnished by the employer in hotels and restaurants in Toronto, not more than \$5 a week may be charged to employees nor more than \$2 for lodging. Elsewhere in the province and in seasonal canning factories the maximum deduction for lodging that may be made from wages is \$1.50 a week and for board \$4.50. Not more than 25 cents may be charged for a single meal.

The Commercial Vehicle Act, 1936, gives the Lieutenant-Governor in Council power to fix minimum rates of pay for drivers of goods vehicles. This provision was made by the Public Commercial Vehicle Act, 1934, now repealed, but no minimum rates have been established.

MANITOBA

Under the Manitoba Minimum Wage Act of 1919 as amended, the Minimum Wage Board may make orders applying to any person employed in a city in any occupation, trade or industry but the Act does not apply to domestic service or to religious, charitable, political or patriotic institutions or hospital training schools or to any municipal or other public body. By order in council, on recommendation of the Board, the Act may be extended to parts of the province outside a city. There is a general stipulation in the Act that in any industry to which it applies no person 18 years of age or over may be employed at less than 25 cents an hour except where regulations provide for different rates.

Orders of the Board which are in effect throughout the province relate to both sexes in factories, retail and wholesale stores and in hotels and restaurants and to employees 18 years of age or over not covered by another order but excluding farm workers. An order applying only in cities fixes rates for males and females working in department stores and mail-order houses. Two orders govern boys under 18 in certain manufacturing industries in Winnipeg and men performing work usually done by boys. All other orders apply to females and boys under 18 in cities or as indicated in the accompanying table. Under

exceptional conditions the Board may issue a permit granting modification of or exemption from any provisions of the orders.

The minimum rates established by the Board vary with the experience and, in some cases, the age of the worker. Learners' rates apply for one year to employees over 18 years of age in factories, department stores and mail-order houses and in dressmaking, and for six months in fur-sewing and offices. In factories, persons over 18 years working on jobs requiring no skill or training must be paid the rate for experienced workers. For office workers, a business college diploma entitles a girl over 18 to the minimum for experienced workers. For those under 18, minimum weekly rates of \$8, \$9 and \$10 are fixed for boys and girls 15, 16 and 17 years of age respectively and \$10.50 for one who is 17 years and six months. An employee who has completed a business course is entitled to the minimum rate for a person one year older. The learning period for workers under 18 in dressmaking and fur-sewing is two years and 18 months respectively, but if a girl becomes 18 before completing the term in fur-sewing she is required to serve only half the remainder before being entitled to the full minimum wage. In dressmaking after serving one year, she must be paid the rate for inexperienced adults when she reaches the age

of 18. In factories, department stores and mail-order houses, employees under 18 who have put in one year or more are entitled to the full minimum rate when they reach the age of 18. Boys under 18 employed in hotels and restaurants, except bell boys, must be paid a minimum of \$10 after one year until they reach 18 years.

Except in beauty parlours and hotels and restaurants, where a separate rate is made for learners and employees under 18 years of age the combined number of such workers may not exceed 25 per cent of the total number of employees within the scope of an order. In offices, however, the number of female employees paid at the rates for inexperienced or minor employees and the number of boys under 18 together may not be more than 25 per cent of the total staff, male and female. The learning period is fixed, without regard to age, at eight months in tailoring, 16 months in shops, three months for females in hotels and restaurants, and four seasons of 10 weeks each in millinery. In beauty parlours, no minimum rate is laid down for the first three months after which learner's rates apply for 18 months. In the two orders applying to males only, the highest minimum fixed must be paid after one year.

As in the other western provinces, the board may limit working hours and this has been done in the case of female workers and boys under 18 and in certain work-places for males over 18. Maximum weekly hours for females or boys under 18 are 50 in dress-making, tailoring and millinery, 48 in factories, department stores, mail-order houses, retail and wholesale stores, fur-sewing, places of amusement, beauty parlours and, except for female cooks, in hotels and restaurants, and 44 in offices. Daily hours may not exceed 10 in beauty parlours, barber shops and hotels and restaurants, nine in department stores and mail-order houses, retail and wholesale stores (except on Saturdays), fur-sewing and tailoring, places of amusement and for boys under 18 in factories in Winnipeg. In dress-making and millinery, the maximum working day is eight and a half hours and for females employed in factories and offices, eight hours.

Overtime for a limited period may be worked in most cases under special permit but no overtime may be worked by persons under 16 in department stores or mail-order houses or under 18 in shops or by persons under 17 in factories.

In retail and wholesale stores, the minimum rates for male and female workers over 18 apply to a nine-hour day (10½ hours on Saturday) and a 48-hour week, and overtime must be paid for at five cents an hour more than the minimum rate except where the actual wage is above the minimum plus the amount

for overtime. In hotels of 100 or more rooms male employees have a maximum 54-hour week but the minimum rates apply to a 48-hour week for all males over 18 and time in excess of 48 hours must be paid *pro rata*. In factories, the overtime rate is 30 cents an hour for work in excess of nine hours a day and 48 hours a week unless the wages are at a rate of 30 cents an hour for the actual hours worked. Males over 18 in factories in Greater Winnipeg must be paid at not less than 30 cents an hour for any work in excess of 48 hours a week regardless of the ordinary wage rate. In department stores and mail-order houses time in excess of nine hours a day and 48 hours a week must be paid for at the regular hourly rate unless the wages paid equal the minimum for the hours worked. In fur-sewing, dressmaking, millinery, beauty parlours, hotels and restaurants, offices and for boys under 18 in factories in Winnipeg, overtime must be paid at the regular rate for all work beyond the maximum hours fixed by the order. The rates for employees to whom no other order applies and for men performing work usually done by boys, for whom no maximum work-week is established, apply to a 48-hour week.

Part-time work in stores for less than 16 hours a week must be paid for at the minimum hourly rate for experienced workers. In places of amusement, ticket sellers and ushers must be paid at least 30 cents an hour when working less than 40 hours a week. In department stores and mail-order houses, experienced employees have a minimum of 25 cents an hour for part-time work and inexperienced workers must be paid the rate for inexperienced adults. Men performing work usually done by boys under 18 must be paid on a *pro rata* basis when working part-time. Except in shops, factories and places of amusement, part-time workers must be paid for not less than four hours on any day they are required to report for duty. In factories only two hours need be paid for.

Maximum deductions permitted from wages for board and lodging are \$2 per week for lodging, \$4.50 for board or \$6 for both in the case of those employed in fur-sewing, dress-making, tailoring, millinery and in beauty parlours; \$2.50 for lodging and \$4 for board in hotels and restaurants and for employees not covered by special orders and 25 cents for single meals in shops. No reduction may be made from the minimum wage for statutory holidays in beauty parlors, shops, department stores, mail-order houses or factories.

Under the Highway Traffic Act, the Municipal and Public Utility Board has established a minimum rate for drivers of public service vehicles certificated for passenger transport of \$20 per week for a six-day week for

(a) In Portage la Prairie from Nov. 1-April 30 and at any time in other parts of the province the minimum rate for all females is \$9.60 a week or 20c. an hour and for males \$10 a week or 21c. an hour but in places of less than 1,000 population from Nov. 1-April 30 the minimum is 10 per cent less.

drivers employed by the week, or \$80 per month for drivers hired by the month. Those employed otherwise than by the month or week are to be paid at least at the same rate. If wages are proposed to be paid on any other basis, the scale must be approved by the Board. Hours are limited to nine per day for driving, 12 per day in any capacity, with a six-day week.

The Taxicab Act applying only to taxicabs in Greater Winnipeg limits hours on duty to 12 a day on not more than six days a week and there is a legal minimum of \$17.50 per week for drivers employed by the week. For a driver employed otherwise than by the week, a minimum of \$1.60 per day must be paid for each day on duty. If he is on duty for more than four hours on any one day, he must be paid \$1.60 and, in addition, not less than 40 cents an hour for each hour in excess of four. An order of the Taxicab Board effective from May 1, 1937, stipulates that a driver employed by the year or month must be paid a wage equal to what he would receive if paid by the week; that where he is hired by the week, he must be paid the prescribed minimum for the week whether he has four, five or six days of work, unless he is absent through illness or by arrangement.

Fair Wage Act

The Fair Wage Act, 1916, as amended, applies to persons employed on public works, on certain private works of construction and, since 1938, to certain designated industries. For workmen employed on construction works, public and private, as defined in the Act, the Minister of Public Works may, on the recommendation of the Fair Wage Board, fix minimum wages and maximum hours each year, the rates and hours, unless otherwise declared by the Board, to be based on those fixed by agreements between employers and employed or to be in accordance with prevailing conditions. The schedule which was made effective on June 15, 1939, contains for most classes similar rates to those in force from June 15, 1938. For truck drivers on public and private works other than public roads and bridge work and for men running gas and electric engines not otherwise included and for asphalt tile setters, new rates are established.

"Public work" includes work, authorized by the Minister of Public Works for which a contract or contracts have been made between the Minister and an employer, consisting of construction, including remodelling, demolition or repairing or painting of buildings in Manitoba and highway, road, bridge or drainage construction outside the Greater Winnipeg Water District. "Private work" means the building, construction, remodelling, demolition

or repairing of a building or construction work for which a contract or contracts have been made exceeding \$100 within the Greater Winnipeg Water District or any city or town of a population over 2,000 or any other part of the Province to which the provisions of the Act are extended by the Lieutenant-Governor in Council. The term does not include work which is done on property by or under the immediate direction and control of the owner, tenant or occupant, if no more than three men are employed in addition to the regular maintenance staff, and if such work is not undertaken with a view to the sale or rental of the property. Neither does it include work which is done by a maintenance man, or men, employed by the month.

Part II of the Act provides for fixing wages and hours in certain industries by a procedure similar to that laid down in the Industrial Standards Acts of other provinces. The industries designated in the Act are barbering, hairdressing, job printing, engraving, dry cleaning and any branch or combination of these and the Lieutenant-Governor in Council has added, on the recommendation of the Minister, shoe repairing and wood cutting with a sawing machine.

The tables below set out the minimum rates fixed under the Act for work on roads and bridges outside the Greater Winnipeg Water District and for workmen on other public construction work and on the private building work within the scope of the statute.

* All men hired in Winnipeg to go into the country to work on buildings must be paid the city schedule rate excepting where other definite agreements are made.

(a) It was agreed between the Winnipeg contractors and tradesmen that 40 hours per week only be worked between July 1 and September 2, 1939.

(b) Men are not to be classed as apprentices unless employed on work or approved instruction for a minimum of 36 weeks and subject to lost time being worked out. Not more than one apprentice to two journeymen permitted.

(c) For wood lathers, work may be paid for on a square yard basis at not less than 6 cents per square yard.

(d) Engineers in charge of hoisting engines of three drums or more operating any type of machine; or operating trenching machines, chumshells or orange peels, regardless of capacity; or operating steam shovels or draglines of one yard capacity or over; or operating drop hammer pile drivers; in all cases irrespective of motive power.

(e) Engineers in charge of hoisting engines having only two drums or of single drum if used on a building of three stories and over, used in handling building material; or steam shovels and draglines not specified in Class "A" hereof; irrespective of motive power.

(f) Engineers in charge of any steam operated machine not specified in class "A" or "B" hereof; or in charge of a steam boiler if the operation of same necessitates a licensed engineer under the provisions of "The Steam Boiler Act"; or air compressor delivering air for the operation of riveting guns on steel erection work, or pumps in caissons, or concrete mixers of over ½ yard capacity; irrespective of motive power.

(g) Men firing boilers of machines classified in class "A", "B" or "C" hereof or assisting engineers in charge of same.

(h) Operators of gas or electric engines for machines not otherwise specified in class "A", "B" or "C" hereof.

(i) If employed on the construction or demolition of the building by owner, contractor or sub-contractor.

(j) Restricted to men using hammers, saws, axes and augers.

SASKATCHEWAN

The Minimum Wage Act of 1919 applying to females employed in shops and factories in cities was amended in 1936 to enable its extension to other parts of the province and to male employees. Existing orders apply to all workers in factories and shops in cities and in the towns of Estevan and Melville and within a five-mile radius. "Shop" includes a mail-order house, hotel, restaurant, barber shop, beauty parlour, tobacconist's and news agent's business and all parts of a building used in connection with the sale of goods by retail. Hotels and restaurants covered include only places catering to five or more persons.

The Minimum Wage Board may limit working hours but since the Act was applied to male workers, the former restrictions on hours have been rescinded. The normal work-week to which the rates apply is declared to be 48 hours or the usual number of hours worked in the establishment if less than 48 except in hotels and restaurants where for bell boys, porters and elevator operators the normal work-week is not to exceed 60 hours and for other workers 48 hours. Overtime is defined as work in excess of 60 hours for the three classes of hotel and restaurant workers mentioned and in excess of 48 hours per week for all other workers.

In cities for shops, mail order houses, factories, fuel, lumber and building supply yards and for offices in connection with such places and for the transfer and storage business, two overtime rates are fixed, the lower being payable for first 12 hours overtime in a week and the higher one for any additional time. For delivery boys these rates are 20 cents and 30 cents an hour, for inexperienced employees in the classes of establishments named, 27½ cents and 40 cents and for experienced workers 35 cents and 50 cents. Other overtime rates applying in cities include a minimum of 35 cents an hour for theatre and dance hall employees and for experienced workers in barber shops and beauty parlours, 27½ cents for inexperienced workers in barber shops and beauty parlours, 25 cents for inexperienced workers and for dishwashers, elevator operators, bell boys and porters in hotels and restaurants and 30 cents for experienced workers except dishwashers, etc., in these places. For overtime work in Estevan and Melville the minimum hourly rates are 15 cents for delivery boys on foot or bicycle, except in connection with hotels and restaurants, 20 cents for inexperienced workers in all places and for dishwashers, elevator operators, bell boys and porters in hotels and restaurants and 25 cents for experienced workers in all establishments to which the orders apply.

Except in the hotels and restaurants order part-time workers are defined as those who work six or more hours less than the normal work-week. In hotels and restaurants employees working less than 43 hours a week are on part-time. All part-time employees must be paid for at least two hours and for such work in cities there is a minimum hourly rate of 20 cents for delivery boys in shops, mail order houses, factories, fuel, lumber and

building supply yards and offices in connection therewith and in the storage and transfer business, 25 cents for inexperienced workers in all places except theatres and dance halls and 30 cents in theatres and dance halls and for experienced workers in all other places covered. In Estevan and Melville part-time workers must be paid not less than those working overtime.

The minimum rates for inexperienced workers, which are set out in the table, apply in shops, factories and beauty parlours for 18 months, increasing each half-year. The learning period in hotels and restaurants, except for dishwashers, bell boys, elevator operators and porters, is one year. In cities, employees in the transfer and storage business except for office help, messengers and drivers have a learning period of six months while boys delivering parcels for shops and factories, etc., and drivers of horse-drawn or motor vehicles in connection with these places and with the storage and transfer business are paid the lower rate for three months. No learning period is required in cities for amusement place employees or for messengers in the transfer and storage business.

Rates for apprentices fixed in apprenticeship contracts which have been approved by the Board or which form part of a trade union agreement approved by the Bureau of Labour and Public Welfare or which have been registered under any provincial statute supersede the rates stipulated in the minimum wage orders.

The number of inexperienced workers is limited in hotels and restaurants in Estevan and Melville and in all work-places in cities, except beauty parlours, barber shops, theatres and amusement places, to 25 per cent of the total number of workers. In other work-places in Estevan and Melville not more than one-third the total number employed may be

paid the rates for inexperienced workers. The proportion of part-time employees is limited to 25 per cent in shops and in the storage and transfer business in cities and to 33½ per cent in all establishments covered in Estevan and Melville and in factories and hotels and restaurants in cities. In beauty parlours and barber shops in cities not more than one indentured apprentice or inexperienced worker may be employed for every experienced worker.

In hotels and restaurants where a uniform other than white is required and not supplied by the employer, the worker is to be paid an additional 50 cents per week. If lodging and 21 meals in a week are furnished by the employer in cities the maximum charge that may be made for a week's board of 21 meals is \$4.50, for seven days' lodging \$2, for single meals, 20 cents and for a single night's lodging, 30 cents. In Estevan and Melville the prices of board and lodging are 50 cents less and a night's lodging 5 cents less while the maximum charge for a single meal is 20 cents as in cities. No deductions from wages may be made for civic or statutory holidays and the employee may not be required to make up the time lost on such days.

The Coal Mining Industry Act, 1935, empowers the Lieutenant-Governor in Council to establish standards as to hours of labour and wages of any class of persons employed in the industry, but no action has been taken under this clause. Hours are limited to eight in a day by the Coal Miners' Safety and Welfare Act as amended in 1932, except when otherwise agreed between employer and employee or in case of change of shift or in emergency.

The Public Service Vehicles Act grants the Highway Traffic Board power to regulate the wages and hours of drivers of passenger and goods vehicles but no regulations under this Act have been issued.

ALBERTA

In Alberta two statutes provide for the fixing by the Board of Industrial Relations of minimum wages for female and male workers respectively.

The Minimum Wage Act, 1925, as amended, applies to women in any trade or occupation in the province except domestic service. The orders issued cover factories; telephone exchanges in cities, towns and villages and those serving 100 rural lines or more; shops, theatres and places of amusement; beauty shops; garages; service stations and elevator operators; restaurants; laundries and dry-cleaning establishments and offices.

The Male Minimum Wage Act, 1936, applies to all male workers except farm labourers and domestic servants. A general order fixes minimum hourly rates throughout the province but it does not apply to indentured apprentices, employees governed by schedules of wages and hours under the Industrial Standards Act or by codes drawn up under the Department of Trade and Industry Act, or to persons employed on a commission basis or for a stated weekly, monthly or yearly salary under a contract approved by the Board of Industrial Relations to workers hired for temporary or seasonal work not for the purpose of the employer's business, persons engaged in fighting prairie or forest fires or those expressly exempted by the Board of Industrial Relations. Further, there are three special orders applying to certain other classes: (1) boys under 18 delivering merchandise from shops, (2) men employed in saw mills, box factories and other woodworking plants and in logging and the railway tie industry in rural districts and (3) persons working on irrigation projects under the Water Resources Act.

For female learners, rates below the ordinary weekly minimum are fixed without regard to age. For male workers, lower rates are established for those 18 years of age or younger. The learning period for girls and women is 18 months in bookbinding, engraving and printing, 12 months in wholesale and retail stores, mail-order houses, laundries and dry-cleaning and dyeing establishments and six months in restaurants. In factories it varies from nine to 12 months. In dressmaking, tailoring, fur-sewing, millinery and hairdressing and for office workers and telephone operators, the apprenticeship period is one year with no fixed rate for the first month of employment. Learners are limited to 25 per cent of the total female staff in all places but telephone exchanges where one-third may be student operators.

All workers within the scope of the Minimum Wage Acts are governed by the Hours of Work Act which limits hours to eight a

day and 48 a week for females and nine a day and 54 a week for males. Certain exceptions are permitted in the lumbering industry in rural districts and the Board may grant exemptions in other industries. Hours of labour in excess of those fixed by the Hours of Work Act must be paid for at overtime rates fixed under the Minimum Wage Acts.

For females, if the weekly hours are 48 or less, the first hour in excess of eight in a day must be paid for at the regular rate but time in excess of nine hours a day and 48 hours a week must be paid for at the rate of time and one-half. Male employees, with certain exceptions, working more than 10 hours a day and 54 hours a week have an overtime rate of time and a half. The overtime rate is not payable to men engaged in outdoor advertising and sign painting in Edmonton and Calgary if employed steadily and earning at least \$25 a week for an average week of 50 hours or to workers in the lumbering, logging and railway tie industry in rural districts.

Except as indicated in the accompanying table, the rates for male workers are hourly rates with a lower minimum for those employed by the week or longer period. Workers covered by the general order must be paid for at least 42 hours a week, if hired by the week or longer period, and 40 cents an hour for at least four hours if hired for less than that period.

Special provision is also made for part-time female workers and for regular female employees on short time. The latter, except in theatres and telephone exchanges, if working less than 40 hours a week, must be paid for at least that number of hours; if working for less than 48 but more than 40 the prescribed minimum wage may be reduced *pro rata*. Part-time workers, hired by the hour or by the day or only for busy periods, who work for less than 40 hours a week, must be paid not less than 30 cents an hour for at least four hours. Girls and women in theatres who work less than six consecutive days a week must be paid not less than 50 cents an hour for at least two hours and in telephone offices not less than 30 cents an hour for four hours.

Where board or lodging is furnished by the employer, women employed in restaurants may not be charged more than \$5 for a week's board or 75 cents per day where board for less than a week is furnished. For male employees the maximum charge for 21 meals per week is \$5, for single meals 25 cents, and for lodging \$2 for a full week or 25 cents per day for any period less than a week but in logging, lumbering, etc., the workmen must be furnished with board and lodging in addition to the minimum wage specified.

BRITISH COLUMBIA

The Female Minimum Wage Act, 1934, and the Male Minimum Wage Act, 1934, revise earlier statutes. They do not apply to farm labourers or domestic servants. The Female Minimum Wage Act provides that where a minimum has been fixed for employees in any industry or occupation, no male person over 18 years of age may be employed in work usually done by female employees at less than the minimum wage fixed for such female employees. Similarly where a rate has been fixed for female employees under 18 years of age no male employees under 18 years may be employed at a lower wage.

Orders made under the Female Minimum Wage Act cover the mercantile industry; manufacturing; personal service in beauty parlours; theatres and places of amusement; offices; janitor service; fruit and vegetable industry; hotels and catering in any establishment; elevator operators; laundries and dry-cleaning works; telephone and telegraph operation; fish drying, curing, etc.

Orders under the Male Minimum Wage Act apply to logging, sawmilling and woodworking, the shingle industry, box and furniture manufacture, bakeries, the fruit and vegetable industry, construction, carpenters in some localities, shipbuilding, road transport, bus and taxi drivers, the mercantile industry, stationary engineers, barbers, first-aid attendants, janitors, the Christmas tree industry and elevator operators. As in the other provinces, special rates lower than the minimum wage for experienced workers are set for female employees during a fixed learning period except in the fruit and vegetable industry and for elevator operators. A further distinction is made between inexperienced females over 18 and girls under 18 years of age. The statute stipulates that the number of learners over 18 must not exceed one-seventh of the total number of female employees in any establishment and the aggregate number of such workers and of girls under 18 may not exceed 35 per cent of the total female working force. In wholesale and retail stores, barber and beauty shops, offices and in the hotel and catering industry, the rates fixed for inexperienced females may only be paid with permission from the Board. In the fruit and vegetable industry the lower rates for inexperienced and handicapped female employees may be paid only to 10 per cent of the total number of females.

The learning period for women over 18 in stores, barber shops and beauty parlours, offices, laundries and in the fish drying or curing industry is one year; in most factories it is either six or 12 months but in book-binding, printing, clothing, millinery and fur-sewing, leather goods, jewellery, and cigar

manufacture it is 18 months. Six months' experience is required in the hotel and catering industry before the full minimum is payable and nine months for telephone and telegraph operation. Girls under 18 must be paid the rate for experienced workers on reaching the age of 18 after 18 months' experience in offices, 21 months in the mercantile industry and two years in beauty shops and laundries. A laundry worker must be paid the rate for experienced workers after one year if she has reached the age of 18.

Under the Male Minimum Wage Act, lower rates are fixed for those under 21. Such employees are limited to 10 per cent of the total number in shipbuilding, 15 per cent in the fruit and vegetable industry, 33½ per cent in woodworking and 40 per cent in household furniture manufacture. In the mercantile industry the minimum rate for those under 21 varies with the age, the highest rate being payable after three years' experience if the employee is over 18 but under 21 years of age. Employees over 21 but under 24, are required to have 18 months' experience before they are entitled to the full minimum rate. No orders apply to apprentices governed by the Apprenticeship Act.

For all female employees but janitresses, the minimum weekly rate applies to a specified number of hours. In the mercantile industry, beauty shops, the hotel and catering industry, and in the fishing industry, the rates for female workers apply to a week of 40 hours or more. In factories, dressmaking, fur-sewing, etc., and in laundries, the specified number of hours is 48, in offices and for elevator operation 37½, and in theatres and places of amusement 40. Hourly rates are fixed for fruit and vegetable packing and canning.

For part-time work, there are special hourly rates for females in the mercantile industry, 35 cents for experienced workers, 25 to 35 cents for inexperienced and from 20 to 30 cents for girls under 18. In factories the part-time rate is 29½ cents, for elevator operation 37½ cents, in beauty shops 37½ cents and from 27 cents to 35 cents for experienced and inexperienced workers respectively, 35 cents in theatres and amusement places, 37½ cents and from 25 cents to 35 cents in hotels and catering, 40 cents and from 30 cents to 37½ cents in offices and 28½ cents in laundries. In most cases, the employee must be paid for at least four hours' work.

In road transport, shops and for elevator operators and barbers, where minimum weekly rates are set for male workers, the rates apply also to a specified number of hours and part-time work is required to be paid at a higher rate. For goods transported by road, for bus

drivers and barbers the part-time rate applies to a week of less than 40 hours, for elevator operators and in the mercantile industry to a week of less than 37½ hours and for taxicab drivers to a day of less than 10 hours. For part-time work, minimum hourly rates of 45, 35 and 50 cents are fixed for barbers and taxicab and bus drivers respectively in Victoria, Esquimalt, Oak Bay and Saanich. In shops, part-time rates range from 15 to 40 cents an hour, according to age and experience and in road transport from 20 to 45 cents according to the vehicle driven.

The Hours of Work Act limits working hours for both male and female employees in practically all the establishments covered by the Minimum Wage Orders to eight a day and 48 a week except when the Board of Industrial Relations makes special regulations permitting longer hours for some classes or at certain seasons. No overtime rates have been established for female workers except in the fruit and vegetable industry, for telephone and telegraph operators and employees in the hotel and catering industry. In the fruit and vegetable industry, the regular minimum hourly rate applies to a 10-hour day. For two additional hours in the industry, excluding canneries between June 1 and December 31, 1939, 45 cents an hour must be paid to at least 90 per cent of the female workers and 37½ cents to the others. After 12 hours' work the minimum rates for 90 per cent and 10 per cent of the employees are 60 and 50 cents an hour respectively. In canneries until December 31, 1939, the first two hours of overtime have a minimum rate of 40 cents for at least 90 per cent of those employed and 37½ cents for the others. For subsequent hours the rates are 54 cents and 50 cents for these two groups. Telephone and telegraph operators and hotel and catering employees must be paid time and one-half after working eight hours a day and 48 hours a week. For telephone and telegraph operators the maximum overtime for emergencies is 56. This does not apply to operators customarily on duty from 10 p.m. to 8 a.m. who may work 10 hours a day instead of eight.

Overtime rates for males are fixed for first-aid attendants and in transport and the fruit and vegetable industry. In the last mentioned industry, excluding the canning of fruits and vegetables from June 1 to December 31, 1939, for the first two hours in excess of 10 hours a day, males over 21 and those under 21 years of age must be paid at least 57 cents and 42 cents an hour respectively. For extra hours, the minimum rates are 76 and 56 cents for these classes. The special rates for overtime in canneries for the specified period during the same hours are 52½ and 37½ cents with 70 cents and 50 cents the minimum hourly rates after the twelfth hour. First-aid attendants for time in excess of their regular hours and taxicab drivers working more than 10 hours a day must be paid for such time at the rate of 50 cents and 45 cents an hour respectively. Bus drivers in the towns named above have an overtime rate of 67½ cents an hour for all work after nine hours in a day or 50 in a week. In certain other branches of the road transport industry time in excess of 50 hours must be paid for at rates varying from 40 to 60 cents an hour but the hours that may be worked are limited to 54 a week.

Deductions for board and lodging for females in the hotel and catering industry and for male and female elevator operators may not exceed \$4 per week for 21 meals, \$2 per week for lodging or 25 cents per meal. During the off-season, females employed in the hotel and catering industry in summer resorts in unorganized territory may be paid a minimum of \$25 per month together with room and board instead of the weekly rate if such arrangement is approved by the Board of Industrial Relations. A maximum of \$1.25 per day for board and lodging is permitted to be deducted from the wages of men in the saw-mill and logging industry in some districts.

In the case of janitors, where free living quarters are not provided, the maximum rent that may be charged is \$20 or \$25 according to the size of the apartment and deductions for gas and electricity may not exceed \$4 per month.

Wages and Hours of Labour Under Quebec Collective Agreements Act and Schedules of Wages and Hours under Industrial Standards Acts in Certain Provinces

In certain provinces, legislation provides that the wage rates and hours of labour agreed upon by representatives of employers and workers in a trade or industry for a locality, district or the whole province may be made obligatory on all employers and

employees concerned by Order in Council on the recommendation of the Minister in charge of the administration of labour legislation. Such rates of wages and hours of labour are noted below and are applicable to both male and female workers unless otherwise stated.

NOVA SCOTIA

Industrial Standards Act

This Act, which was summarized in the LABOUR GAZETTE, July, 1936, page 604 with amendments in LABOUR GAZETTE, August, 1937, page 861 is similar to the Industrial Standards Act of Ontario which is summarized below. It is, however, restricted to the building and construction industry in Halifax and Dartmouth, excluding government and municipal employees and any employee performing temporary work the total amount of which does not exceed \$25. Five schedules were in effect by Orders in Council under this Act at the end of the year 1939:

Construction

The wage rates and hours so in effect are shown below. Provision is made in all schedules for time and one half for overtime and double time for work on Sundays and holidays.

QUEBEC

Collective Labour Agreements Act

The text of this Act, which amends the Workmen's Wages Act, was summarized in the LABOUR GAZETTE, May, 1938, page 503 with amendments in the issue of June, 1939, page 576, and the Workmen's Wages Act was summarized in the issue of July, 1937, page 745. Under this Act any party to a collective agreement made between the representatives of an association of employees and the representatives of an association of employers or one or more employers may apply to the Lieutenant Governor in Council through the provincial Minister of Labour to have those terms of such agreement which govern wages, hours of labour, apprenticeship, classification of operations, determination of classes of employers and employees and all such provisions as the Lieutenant Governor in Council may deem in conformity with the spirit of the Act, made obligatory on all employers and employees in the trade, industry, commerce or occupation within the district determined in the agreement. Notice of such application is published and thirty days is then allowed for filing of objections and the Minister may hold an inquiry. After this period, if the Minister considers that

the terms of the agreement "have acquired a preponderant significance and importance" and that it is advisable, with due regard to economic conditions, an Order in Council may be passed granting the application, and making the provisions of the agreement obligatory from the date of publication of the Order in Council in the *Quebec Official Gazette*. The agreement may be amended through the same procedure. Any Order in Council may be amended or revoked by the Lieutenant Governor in Council at any time. They do not apply to the Government of Quebec or its departments or services, nor to work done by a third party for the Government under a contract providing for a scale of minimum wages. The agreements under this Act are enforced within the industry itself by joint committees composed of representatives of both employers and employees. Proceedings under the Collective Labour Agreements Extension Act were summarized in the LABOUR GAZETTE from June, 1934, to July, 1937; proceedings under the Workmen's Wages Act in the issues from July, 1937, to July, 1938; proceedings under the Collective Labour Agreements Act in the issues beginning July, 1938.

The wages and hours in effect at the end of 1939 under agreements so made obligatory in various industries in the whole or part of the Province are noted below.

Mining: Non-ferrous Smelting and Quarrying

IRON OXIDE MINING.—Mines producing iron oxide (ochres) in Red Mill and within 50 miles of it are covered by an obligatory agreement (LABOUR GAZETTE, December, 1937, and February, 1940). Minimum hourly wage rates are 35 cents for workers working in the mines, 37½ cents for those working in the establishments and 45 cents for millers. Hours are limited to 48 per week, with overtime and all work on Sundays and holidays to be paid at time and one-half.

BUILDING MATERIALS INDUSTRY, PROVINCE OF QUEBEC.—See below under "Manufacturing: Non-Metallic Minerals, Chemicals, etc."

Manufacturing: Vegetable Foods, etc.

BAKING INDUSTRY.—Agreements approved by Orders in Council as to wages and other working conditions in this industry provide for the following minimum weekly wage rates and maximum hours: Quebec City and District—for Quebec city, Levis and within 15 miles of them, foremen to be paid \$24, journeymen \$21, provided a certain minimum quantity of flour is baked per week, delivery salesmen \$16, with a 62-hour week for both bakery workers and delivery salesmen and overtime payable at time and one-half; for the rest of the district, corresponding rates are \$19.55 for foremen and \$17 for journeymen, \$14.40 for salesmen, with a 72-hour week and overtime payable at time and one-half (LABOUR GAZETTE, December, 1937, April, 1938, January, April, June and August, 1939, January 1940). Three Rivers—bakers \$16 to \$23, apprentice bakers \$6 to \$12; delivery salesmen \$15, these rates being payable for a certain quantity of flour baked per man per week and extra pay for extra quantities baked (LABOUR GAZETTE, March, 1938). Magog—bakers 18 to 29 cents per hour, delivery men 25 cents (LABOUR GAZETTE, October, 1938, and January and October, 1939). Granby—bakers \$12 to \$22, with a 60-hour week and overtime payable at time and one-half (LABOUR GAZETTE, October, 1938). Montreal Island—bakers \$21 to \$25, helpers \$18, apprentices \$12, with a 60-hour week and overtime payable at regular hourly rates (LABOUR GAZETTE, October, 1939). Hull district—bakers \$12 to \$28, apprentice bakers \$6 to \$12; pastry cooks \$20, apprentice pastry cooks \$6 to \$15; hours 60 per week, with overtime payable at regular hourly rates (LABOUR GAZETTE, June and October, 1935 and October, 1938).

Manufacturing: Boots and Shoes

SHOE MANUFACTURING.—The agreement covers both male and female employees in the boot and shoe manufacturing industry throughout the province (LABOUR GAZETTE, October, 1937, March, June and December, 1938, July and October, 1939). Employees are divided into six trade classes according to the skill required for the operation. Minimum hourly wage rates for each class and for the apprentices to the first four classes are as follows:

MINIMUM WAGE RATES PER HOUR

| Class | Zone I | Zone II | Zone III |

| 65% of female employees. | 11.00 | 10.00 | 9.50 | 9.00 |

Manufacturing: Fur and Leather Products, etc.

FUR MANUFACTURING INDUSTRY.—Orders in Council for this industry were summarized in the LABOUR GAZETTE, September and October, 1938 and October, 1939.

For the city of Quebec the following minimum wage rates are payable for a week of 48 hours with overtime at time and one-half; in the city of Quebec—first class cutters \$27, second class cutters \$24, third class cutters \$18, journeymen blockers \$20, female operators and finishers \$14 for first class, \$12 for second class.

For the Island of Montreal and within 50 miles of it (LABOUR GAZETTE, September and October, 1938), minimum weekly wage rates in industrial and wholesale establishments (excluding the fur dressing and dyeing industry)

are: first class cutters \$36.50, second class \$29.50; first class male operators \$29.50, second class \$21.50; first class female operators \$21.50, second class \$16.50; first class finishers (female) \$19.50, second class (female) \$15.50; first class apprentice cutters, blockers and trimmers \$22, second class \$14; first class examiners \$25.50, second class \$14.00, second class employed by trimmers \$14. The hours are 40 per week in the Island of Montreal and within 10 miles of it and 48 in the rest of the Montreal district, overtime at time and one-half.

For the Island of Montreal and within 50 miles of it (LABOUR GAZETTE, September, 1938), minimum hourly wage rates in retail establishments are: qualified cutters 95 cents for Class A, and 80 cents for class B, operators 75 and 60 cents, finishers 70 and 55 cents, blockers 55 and 35 cents, female operators 55 and 40 cents, female finishers 50 and 40 cents respectively; in the retail establishments of the Montreal district which are outside the Island of Montreal and located in towns of less than 25,000 population, however, these minimum rates may be 25 per cent less. The hours are 40 per week in the Island of Montreal and 48 outside the Island, with overtime at time and one-half.

GLOVE MANUFACTURING (FINE GLOVES), PROVINCE OF QUEBEC.—The agreement for cutters, operators and blockers of fine gloves covers the whole Province (LABOUR GAZETTE, April, 1939). Hours are limited to 49 per week. Wages are piece rates which are specified for each operation, with lower rates set for smaller cities and towns, and in the case of operators and blockers, still lower rates for rural districts. (This agreement was to expire December 31, 1939, but a request for the extension of a new agreement had already been published.)

GLOVES CUTTING (WORK GLOVES), PROVINCE OF QUEBEC.—An agreement covering the cutting of work gloves was summarized in the LABOUR GAZETTE, April, 1939. Hours are 48 per week, and wages are piece rates as set by the agreement with the rates in smaller municipalities 10 per cent less than in larger cities and towns.

Manufacturing: Textiles, Clothing, etc.

MEN'S, BOYS', YOUTHS', CHILDREN'S AND JUVENILES' CLOTHING INDUSTRY, PROVINCE OF QUEBEC.—This industry throughout the Province is covered by an agreement made obligatory by Orders in Council, the last one coming into effect November 20, 1937, with amendment from December 4, 1939, (LABOUR

GAZETTE, December, 1937 and December, 1939). (The manufacture of shirts, overalls, mackinaw coats, etc., is not included in the agreement.) The province is divided into three zones: Zone I is the Island of Montreal and the area within 10 miles of its limits, Zone II is the area within 75 miles of the boundaries of Zone I, Zone III is the rest of the province. The hours are 44 per week in Zone I and 48 hours in Zones II and III; overtime pay is time and one-half in Zone I and time and one-quarter in Zones II and III.

Piece work rates may be fixed instead of hourly rates, provided that such rates do not yield less than the hourly rates established in this agreement.

In the coats, pants and vests departments, class AA consists of skilled cutters in all three departments; class A, of head operators and shape sewers or underbasters by machine in the coat department and pocket makers and tape sewers in the vest department; class BB, of pocket makers and skilled trimmers in the coat department, back and front pocket makers, trimmers and seamers in the pants department and skilled trimmers and second operators in the vest department; class B, of fitters and off-pressers in the coat department, leg pressers in the pants department and off-pressers in the vest department; class C, of edge basters, second basters, shapers and top collar makers in the coat department and lining stitchers in the pants department; class D, of examiners, joiners (second operators), lining makers and pocket tackers in the coat department, lining sewers and top pressers, cloth waistband sewers in the pants department, fitters in the vest department; class EE, of steam machine pressers and underpressers in the coat department and general underpressers in the vest department; class E, of choppers, lining basters, machine edge basters and undercollar basters in the coat department, pocket makers and outside seamers on boys' shorts and bloomers and juvenile pants, lining sewers and stitchers on boys' shorts and bloomers and juvenile pants in the pants department; class FF, of underpressers in the pants department; class F, of armhole basters, buttonhole makers, lapel makers and sleeve makers in the coat department, buttonhole makers, fitters, inside seamers on boys' shorts and bloomers and juvenile pants and trimming makers in the pants department, buttonhole makers, basters, lining makers and vee sewers in the vest department; class G, of bottom of collar and leaf of collar fellers, canvas basters, canvas makers, coat finishers, general hands, inside coat tackers, button sewers in the coat department, button sewers, examiners, finishers, fly makers, loop makers, pocket sergeants and tackers in the pants department, brushers, button sewers, examiners, finishers, general hands, ticket sewers in the vest department; class H, of buttonhole tackers, fellers of bottom of sleeve linings, pocket closers, sleeve lining tackers and basters, ticket pocket makers in the coat department, buttonhole tackers and cleaners in the pants department and buttonhole tackers and cleaners in the vest department; class K, of basting pullers (male).

BLACKSMITHING.—An agreement for horse-shoers and wheelwrights (LABOUR GAZETTE, December, 1937) effective in Victoriaville and the counties of Arthabasca, Nicolet, Richmond, Megantic, Wolfe and Drummond provides for qualified workmen a minimum of \$12 per week, \$2.25 per day; for apprentices \$6 per week in first year, \$9 during second year.

SHOE REPAIRING.—An agreement in Sherbrooke (LABOUR GAZETTE, July, September and November, 1938), provides for minimum weekly wage rates of \$10 to \$15 for experienced workmen with hours set during which shops may be open.

Service: Business and Personal

BARBERS.—Agreements made obligatory by Orders in Council in the barber or the barber and hairdresser trades cover many districts. The hours vary in the several localities, each agreement specifying the time shops are to be open with periods off for each employee. Piece or job rates for each piece of work in the barbering, hairdressing, manicuring trades, etc., are specified in the agreements. For barbers employed by the week, the agreements specify a minimum weekly wage and in addition provide that barbers receive a certain percentage of their individual receipts above a specified amount taken in during the week. The following minimum wage rates for barbers and hairdressers are payable in the following centres and in their surrounding districts:—

TAVERN EMPLOYEES, QUEBEC CITY.—This agreement (LABOUR GAZETTE, June and July, 1938, and January, 1940) provides for a 60-hour week and time and one quarter for overtime, and for minimum wage rates of \$19.50 for barmen, \$17.50 for experienced waiters and \$12 to \$14 for beginners.

FUNERAL UNDERTAKERS, MONTREAL.—This agreement (LABOUR GAZETTE, January and March, 1939) provides for an average working week of 70 hours with overtime at time and one half. Minimum wage rates are: embalmers \$25 per week if employed by the week or \$5 for each embalming; extra employees 40 cents per hour, with a minimum of \$1.50 per call; motor mechanics \$25 per week; motor service men \$15.60 per week during first year and \$18 thereafter.

SHOE SHINERS, MONTREAL.—An agreement* (LABOUR GAZETTE, February, 1939, and February, 1940) provided for a 69 hour week for shoe shiners, with a minimum wage rate of \$8 per week for regular employees and of 15 cents per hour for extra employees.

Construction

BUILDING TRADES.—The agreements in the building trades in various sections of the province, which have been made obligatory by Orders in Council, have been summarized in the LABOUR GAZETTE, during 1934, 1935, 1936, 1937, 1938 and 1939. In some cases the agreements cover several counties as well as the principal cities and towns. The minimum wage rates for the principal trades, which were in effect at the end of the year 1939 under Orders in Council are shown in the accompanying table.

The agreements in many cases also specify minimum weekly rates, lower than the standard hourly rates, for workmen permanently employed on maintenance work for religious, charitable or educational institutions, hotels, office buildings and manufacturing or industrial establishments. These weekly rates are not shown in the table. Minimum wage rates for apprentices which are set in many of the agreements are also omitted from this table.

Regular hours are limited to 8 per day, 48 per week, except for Montreal, St. Johns and Hull where the regular weekly hours are 44. In some cases, however, it is permitted for labourers to work 9 hours per day, 50 or 54 hours per week. In most cases any overtime is to be paid at time and one-half, with any work on Sundays or holidays at double time.

* This agreement expired December 31, 1939.

ONTARIO

Industrial Standards Act

The Industrial Standards Act of Ontario, the text of which was printed in the *LABOUR GAZETTE*, June, 1935, page 534, with amendments summarized in the issues of May, 1936, page 410, May, 1937, page 505, and May 1938, page 501 and June, 1939, page 574, provides that the Minister of Labour for Ontario, may, upon petition of representatives of employees or employers in any industry, convene or authorize an officer to convene a conference or series of conferences of employees and employers in the industry, in any zone or zones to investigate the conditions of labour and practices in such industry and to negotiate standard rates of wages and hours of labour. The employees and employers in attendance may formulate and agree upon a schedule of wages and hours of labour for all or any class of employees in such industry or district. If, in the opinion of the Minister, a schedule of wages and hours for any industry is agreed upon in writing by a proper and sufficient representation of employees and of employers, he may approve of it, and upon his recommendation, the Lieutenant-Governor in Council may declare such schedule to be in force "during pleasure" or for the period, not exceeding twelve months, stipulated in the schedule, and thereupon such schedule is binding upon every employee and employer in such industry in the whole or any part of the Province designated by the Minister and is published in *The Ontario Gazette*. The Industry and Labour Board has authority to enforce the provisions of the Act and of the regulations and schedules. The following is a summary of the wage rates and hours in effect under these Orders in Council at the end of the year 1939:

Logging

LOGGING INDUSTRY.—Two schedules were in effect at the end of the year 1939 in the Thunder Bay district and the Timmins-Cochrane zone, while a third schedule in the Massey zone was revoked December 28, 1939. For the Thunder Bay and Timmins-Cochrane zones, for those working on a time rate basis, the minimum monthly rate for cookees and kitchen staff is \$40 per month; for general bushmen and handymen helpers \$42.50, for loaders, skidders' helpers, feeders of ties to and on to jack ladders, sorters and sluicers of pulpwood and ties, bull cooks and night watchmen \$45; teamsters and skidders \$50; teamsters driving four or more horses and barn bosses \$55; truck drivers, \$75; tractor drivers, \$85; river drivers and boatmen on river driving and employees engaged in watering

wood during the progress of the drive, \$2.60 per day; camp and dam builders \$2.50 per day. Similar rates for most classes were in effect until December 28, 1939, in the Massey zone (vicinity of Sudbury). Free board and lodging must be provided by employers to all workers employed on the time rate basis. For those employed on piece rates, the prices are set in all zones and the maximum amount which the employers may charge each employee working on piecework for his board is 85 cents per day in the Thunder Bay and Timmins-Cochrane zones and 75 cents in the Massey zone.

Manufacturing: Vegetable Foods

BAKING INDUSTRY.—One schedule is in effect (*LABOUR GAZETTE*, January, 1938), which provides for the city of Ottawa and immediately adjacent area a 56 hour week, with the following minimum weekly rates: \$23 for cake makers, doughmakers, machine operators, bench hands and ovenmen; \$20 for salesmen, drivers and checkers, \$14 to \$20 for helpers.

Manufacturing: Tobacco and Liquors

SASKATCHEWAN

Industrial Standards Act

This Act is similar to the Industrial Standards Act of Ontario which is noted above. The Saskatchewan Act was summarized in the *LABOUR GAZETTE*, June, 1937, page 635, May, 1938, page 507 and June, 1939, page 581.

The following schedules have been made binding under this Act:—

Manufacturing: Vegetable Foods

BAKERS, MOOSE JAW.—A schedule for the baking industry in the city of Moose Jaw (*LABOUR GAZETTE*, December, 1938) provides for a 54-hour week and the following minimum weekly wage rates: foreman \$30, doughman \$25, ovenman and bench hand \$23, shippers \$18, bakery salesmen \$18 or a specified commission on sales, whichever is greater.

Manufacturing: Miscellaneous Products

SIGN PAINTING.—At Regina, a schedule for sign painters (*LABOUR GAZETTE*, May, 1939) provides for a 54-hour week except for apprentices for whom hours are 48 per week. Minimum wage rate for first class journeymen is 65 cents per hour, for second class journeymen 45 cents, helper 30 cents. Overtime pay is 80 cents per hour for first class journeymen, 50 cents for second class journeymen, helpers 35 cents.

Another schedule for sign painters at Moose Jaw (*LABOUR GAZETTE*, March, 1939), provides for a minimum wage for experienced sign painters of 65 cents per hour or 42 per cent of the amount taken in at the job prices specified in the schedule, whichever is greater; sign shop helpers to be paid a minimum wage of 35 cents per hour.

Construction

The following hours and wage rates were in effect under schedules for the following trades at the end of the year 1939; overtime to be paid at time and one half, with work on Sundays and holidays in most cases at double time.

DRAYING, TRANSFERRING AND STORAGE INDUSTRY, REGINA.—This industry includes public warehousing and the hauling or transferring of merchandise or household goods except if done by the regular employees of a manufacturer or merchant. It is covered by a schedule which provides for a 48-hour week and a minimum wage rate of \$18 per week, and, for part time and overtime work, 40 cents per hour (*LABOUR GAZETTE*, July, 1939, and May, 1938.)

Service: Business and Personal

SHOEMAKING AND REPAIRING, REGINA.—For the city of Regina a schedule in effect (*LABOUR GAZETTE*, December, 1938), provides for a 52-hour week with a minimum wage of \$18 per week or payment according to a specified minimum scale of piece work, whichever is greater; inexperienced employees from \$7.50 during first six months to \$13.50 during second year. Overtime to be paid at time and one-half.

WATCH REPAIRING, SASKATOON.—A schedule for the jewellery industry at Saskatoon covers the alteration and repair of watches (*LABOUR GAZETTE*, January, 1940), providing for a 47-

hour week from January to September inclusive and 51 hours during October, November and December. The minimum wage rate for employees with at least five years' bench experience is \$18 per week, plus 50 cents per hour for all overtime and all work on Sundays and holidays; for employees with less than five years' bench experience who are not apprentices, the minimum rate is \$15 per week. A scale of minimum prices to be charged customers is also included.

BARBERS AND HAIRDRESSERS.—The minimum wage rates and hours shown in the accompanying table were binding by Orders in Council for these trades at the end of 1939. In all cases the minimum weekly wage is either the stated minimum rate or a percentage of the proceeds taken in by the barber or beauty parlour employee whichever is greater. The hours are those for which the

minimum wage rate is payable. In most cases overtime is payable at 30 or 35 cents per hour.

Industrial Standards Act

This Act is similar to the Industrial Standards Act of Ontario which is noted above. The text of the Act was published in the *LABOUR GAZETTE*, June, 1935, page 534, with amendments noted in the issues of June, 1936, page 501, June, 1937, page 640, June, 1938, page 663 and June, 1939, page 567. The following notes give information as to schedules of wages and hours in effect at the end of 1939.

Agriculture

HONEY PRODUCING INDUSTRY.—In the Coal-dale, Taber, Vauxhall and the Lethbridge Zones hours for the honey producing industry are limited to 9 per day for male employees and 48 per week for female employees with overtime payable at regular rates (*LABOUR GAZETTE*, April, 1939, and June and September, 1938). Minimum wages per day are: for field work—\$2.50 and \$2.70 for men; for extraction work including packing and shipping—\$2.25 and \$2.70 for men, \$2 and \$2.25 for women, and \$1.80 for boys and girls over 16 and under 21 years. For monthly employees, the minimum wage in addition to board and room is \$30 for men with less than one year's experience and \$50 for those with more experience. In addition, bonuses are provided for if the average production exceeds a certain amount and the price of honey is not less than a certain amount.

Logging

LUMBER AND SAWMILL INDUSTRY.—In the Flatbush, Chisholm, Spurfield and Faust Zones, a schedule (*LABOUR GAZETTE*, January and June, 1939) regulates wages and hours for logging, railway tie contractors, sawmills, planing mills and box factories. Hours are 60 per week for all workers except cooks, teamsters, millwrights, river drivers and certain other classes. Minimum monthly wages to be paid in addition to board and lodging include: \$50 or \$75 for cooks; \$50 for blacksmiths and engineers; \$45 for truck drivers; \$40 for edgermen; \$35 for cross-cut filers, tractor drivers and canters; \$32.50 for scalers or tallymen; \$30 for top loaders, tail sawyers, trimmermen, handymen and barn bosses; \$27 for sawyers; \$26 for teamsters, skidders, roadmen, swamper, bull cooks, cookees, labourers, shipping and yardmen; \$50 for planermen.

In the Whitecourt Zone (*LABOUR GAZETTE*, October, 1939), a schedule provides for similar wages and conditions as in the Flatbush, Chisholm, Spurfield and Faust Zone, as noted above.

In the village of Rocky Mountain House, a schedule (*LABOUR GAZETTE*, August, 1939) provides for a 10-hour day and 60-hour week with certain exceptions, and for the following minimum wages: \$150 per month for millwrights; 28 cents per hour for machine

operators, lumber graders and shippers; 25 cents per hour for teamsters, truck drivers, labourers, lumber pilers, lumber loaders and yard men; \$2.50 per shift for night watchmen.

Manufacturing: Vegetable Foods

BAKING INDUSTRY.—Schedules were in effect for bakers in the Edmonton and Calgary districts at the end of the year. For Edmonton (LABOUR GAZETTE, January, 1940 and December, 1938), hours are 52 per week, with overtime at time and one-half, and minimum wages \$26 per week for doughmen, ovenmen and bench hands, \$19 for helpers and truckers, \$20 for shippers, \$13.50 for cake wrappers and \$16 for bread wrappers. For Calgary (LABOUR GAZETTE, January, 1940), hours are 50 per week, with overtime at time and one-half; and minimum wages \$27 per week for doughmen and ovenmen, \$25 for bench hands, \$19 for helpers.

Manufacturing: Miscellaneous Wood Products

SAWMILL, PLANING MILL AND BOX FACTORY EMPLOYEES.—These are included in the schedules noted above under "Logging."

Construction

The following hours and wage rates were in effect under schedules for the following trades at the end of the year 1939. The usual provision is time and one-half for overtime and double time for Sundays and Holidays.

Transportation and Public Utilities: Local Transportation

TAXI DRIVERS.—At Edmonton, a schedule (LABOUR GAZETTE, September, 1939) provides for an 11-hour day, a 6-day week and a 66-hour week. Minimum wage rates during winter months are \$15 per week plus 25 per cent commission on all receipts in excess of \$60; for summer months, \$12.50 per week plus 25 per cent commission on all receipts in excess of \$50 per week. At Calgary (LABOUR GAZETTE, February, 1939) hours are also 66 per week. The minimum wages are \$13.50 per week of 66 hours plus 25 per cent commission on all receipts in excess of \$54 per week. At Banff National Park (LABOUR GAZETTE, July, 1939) hours for taxi and bus drivers are 11 per day. Days of rest to be provided on the basis of one day in seven. Minimum wages are \$2.35 per day plus a bonus of 4 cents per mile to drivers of touring cars and of 5 cents per mile for bus drivers for all mileage in excess of 60 miles per day.

Service: Custom and Repair

GARAGE AND SERVICE STATION EMPLOYEES, CALGARY.—These workers are governed by a schedule (LABOUR GAZETTE, April, 1939) which provides for a 9-hour day, with a half day off every second week, making the weekly hours 54 and 49 on alternate weeks; overtime at time and one-half. Minimum wage rates are: 70 cents per hour for first class mechanics, 60 cents for second class mechanics, \$13.50 per week for non-mechanical service station employees, 50 cents per hour for washmen and greasemen, 33½ cents for night watchman. Mechanics always engaged in the repairing or reconditioning of used cars may be paid 7½ cents per hour less than the above rates.

Service: Recreational

BOWLING ALLEY EMPLOYEES.—At both Edmonton (LABOUR GAZETTE, October, 1939, April and September, 1938) and Calgary (LABOUR GAZETTE, October, 1939, February and September, 1938), hours for pinsetters are restricted to 54 per week with wages based on 2½ cents per line for five pins or duck pins and 3½ cents per line for ten pins.

Department of Trade and Industry Act

Under this Act and its amendments (LABOUR GAZETTE, April, 1934, page 305, May, page 442 and November, page 986; June, 1936, page 502, November, page 997; June, 1938, page 634), this department may call a conference of any trade to draw up certain trade standards including minimum wages and hours. If such code is approved by a majority of persons in the trade or by persons owning over 50 per cent of the aggregate capital invested, they may be made binding by Order in Council on everyone carrying on the trade. Although a number of such codes were made binding only one includes provisions as to wages:

Service: Business and Personal

BARBERS, PROVINCE OF ALBERTA—This code which came into effect February 15, 1937, and was amended from February 27, 1937, August 15, 1938 and August 21, 1939 (LABOUR GAZETTE, October, 1938, page 1093 and October, 1939, page 999) applies to barbers throughout the province. It is provided that a journeyman barber employee receive "60 per cent of his gross weekly receipts for services rendered," but in no case less than \$15 per week or \$3.50 for Saturday or \$3 for any other week day; part time work must be paid at 40 cents per hour.

Maximum Hours of Work as fixed by Legislation and Administrative Action**Dominion Legislation**

For the most part hours of work in Canada are regulated by provincial legislation. Limitations imposed by the Dominion affect only Dominion Government employees, persons employed on Dominion public works or in the execution of contracts for Government works or supplies.

An Order in Council of 1930, provided that unless it was against the public interest the hours of work of any person employed by the Dominion Government who was at that time required to work more than eight hours a day should be reduced to eight with a half holiday on Saturday.

On construction work undertaken by the Government of Canada, either directly or by contract, the Fair Wages and Hours of Labour Act restricts working hours to eight a day and 44 a week provided such works are not declared exempt from the operation of the Act by the Governor in Council. Unless excepted by statutory authority or by agreement, works towards the cost of which a grant is made by the Dominion are governed by similar conditions laid down in an agreement between the Dominion and the provincial or municipal authority or private corporation to which financial assistance is given. In contracts for equipment and supplies for the Dominion Government the working hours of persons employed in the manufacture of such goods are to conform to the custom of the trade in the district or where there is no custom as to hours, the Minister of Labour may determine fair and reasonable hours.

No action has been taken under the section of the Railway Act which allows the Board of Transport Commissioners to limit the hours on duty of railway employees within the legislative jurisdiction of the Dominion.

Provincial Legislation

Provincial legislation includes laws concerning working conditions among which are hours of labour in certain classes of undertakings such as mines, factories and shops and for certain occupations such as drivers of motor vehicles and elevator operators, legislation in Alberta, British Columbia, Nova Scotia and Quebec, dealing only with hours of work and statutes in Alberta, Manitoba, New Brunswick, Nova Scotia, Ontario, Quebec and Saskatchewan, under which Orders in Council may limit hours of labour under certain conditions.

The British Columbia Female Minimum Wage Act, the Minimum Wage Acts of Manitoba and Saskatchewan and the Fair Wage Act of Quebec give the administrative authorities power to limit working hours, in some cases subject to the approval of the Lieutenant-Governor in Council.

Where, under the authority of minimum wage laws, hours in excess of the ordinary maximum are permitted to be worked or where minimum rates of wages are declared to apply to a specified number of hours and longer hours are worked, it is usually stipulated that higher rates must be paid for the additional hours. Such punitive overtime rates tend to restrict working hours. The regulations for the payment of overtime are indicated above in the sections dealing with minimum wage legislation in each province.

Maximum hours of labour fixed by Order in Council under the Quebec Collective Labour Agreements Act and the Industrial Standards Acts of Alberta, Nova Scotia, Ontario and Saskatchewan are shown earlier in this section beginning on p. 160. Restrictions placed on hours under the Manitoba Fair Wage Act are indicated on p. 150.

The table below shows the maximum hours of work fixed by provincial laws for employment in mines, factories and shops but it does not cover the legal restrictions imposed on

working hours in some classes of manufacturing establishments and shops by orders in council under the Quebec Collective Labour Agreements Act or the Industrial Standards Acts.

†Females and boys. Applies to boys under 18 in Quebec and under 16 in Ontario and Saskatchewan.

‡Females and boys in towns of 10,000 or more. An order of the Fair Wage Board fixes a maximum of 72 hours for males over 18, and 55 hours for females and for boys under 18, in industrial and commercial establishments in cities and towns.

**Females, and boys under 18, in factories, 1/ in shops. Adult males in factories in Greater Winnipeg may not work more than 48 hours in a week unless paid a minimum of 30 cents an hour for extra hours.

‡‡In Vancouver, Victoria and their environs, but 3 extra hours may be worked on Saturdays in other parts of the province provided that 48 is maximum for week.

Hours of Work Acts

The British Columbia Hours of work Act of 1923, as revised in 1934, sets a maximum limit of eight hours in a day and 48 in a week for persons employed in mining, manufacturing and construction and in such other industries or occupations as may be added by regulation. Up to the present, the following have been brought within the Act: barbering, baking, catering, drug stores, road transport and the taxicab industry, hotel clerks and elevator operators and the mercantile and soft drinks industries. The Board of Industrial Relations may make exemptions and add other industries.

The Alberta Hours of Work Act, 1936, fixes an eight-hour day and 48-hour week for female employees and a nine-hour day and a 54-hour week for male workers. It applies to any industry, trade or occupation except farming and domestic service, unless exempted by regulation. It does not affect the Mines Act which fixes an eight-hour day for underground workers.

In both Alberta and British Columbia, persons holding confidential, supervisory or managerial positions are exempt from the hours limitation and by regulation longer hours are

provided for some classes of workers in the lumbering industry. In the latter province, the fruit and vegetable industry, the seasonal manufacture of boxes and shooks, lithographing during the summer months if competent help is not available, and fish canneries are declared exempt from the restriction on hours of work. Regulations in British Columbia permit a fixed number of hours in excess of the maximum established by the Act for shops during the Christmas season and in smaller towns and villages as well as for taxicab drivers in the Victoria district, retail florists, men delivering bread and milk, employees in drug stores and for certain classes of workers in industrial undertakings such as men engaged in emergency repairs or in shipping goods under unusual conditions.

In 1939, Alberta allowed seasonal exemption from the daily and weekly limits for workers on irrigation projects under the Water Resources Act from April 1 to October 1 and orders under the section of the Act providing for special regulations for continuous industries limit to eight a day and 48 a week the hours for men engaged in drilling oil wells in the Turner Valley but where drilling operations are at a critical point the Board has permitted

workers on a shift to continue work for three consecutive weeks provided they are given three days off at the end of that time.

In Quebec and Nova Scotia there are statutes enabling the administrative authorities to limit hours of work. The Quebec Act, enacted in 1933 with a view to making possible the employment of more workers, gives the Lieutenant-Governor in Council power to limit the number of hours per day or per week during which a workman may be employed at manual labour. It applies neither to agriculture nor to industries or undertakings subject to competition from other countries or provinces. Orders in council under this statute limit working hours in the building trades throughout the province, one order applying to each of the three divisions into which the province is divided for purposes of factory inspection. Hours were limited at first to 40 a week or 36 where a two-shift system was in effect but at the present time maximum hours are eight a day and 48 a week in the Quebec and Eastern Townships Division, except on small jobs, and, in the Montreal Division, eight a day for skilled workers and nine for unskilled. Two shifts, or in the Eastern Townships Division three shifts, of eight hours each may be worked or of six hours each in the Montreal Division. The shift system is compulsory from May 1 to October 1 on works costing more than \$20,000 which are undertaken for a municipal or school corporation or for parish authorities or the provincial Government or on works, half the cost of which is borne or guaranteed by the provincial Government or a municipal corporation or by both.

Hours of persons working in beauty parlours and shoe repair shops on the Island of Montreal are also limited under this statute. Maximum hours in shoe repairing are fixed at 64 and in beauty parlours at 55 a week. For urgent work in shoe repairing the inspector may allow overtime up to two hours a day and six a week but no overtime may be permitted on Saturday. The hours of work are to fall on the first four days of the week between 8 a.m. and 7 p.m., on Friday between 8 a.m. and 9 p.m. and on Saturday between 8 a.m. and 11 p.m.

The Nova Scotia Limitation of Hours of Work Act of 1937 provides for a board of adjustment with power to determine the maximum working hours in industrial undertakings, including mines and quarries, manufacturing and construction and stipulates that a weekly rest-day must be given all workmen employed in industrial undertakings. No administrative board has been appointed and no orders made under the Act.

Maximum Hours under Minimum Wage Laws

The first Minimum Wage Acts in Alberta, British Columbia, Manitoba and Saskatchewan gave the Board power to limit hours of labour notwithstanding the provisions of any existing statute. In other provinces the Board could only specify the number of hours to which the minimum rates applied but in both cases overtime rates could be established. In Ontario the present Minimum Wage Act specifies the hours to which the rates apply and in New Brunswick and Nova Scotia the Board may declare the minimum rates to apply to a certain work period and, as in Ontario, fix a rate for overtime. The Fair Wage Board of New Brunswick has made orders applying only to particular establishments.

In Alberta, since the enactment of the Hours of Work Act, 1936, applying to all employment except farm work and domestic service, there has been no authority under the Minimum Wage Acts to limit hours. In British Columbia where the Hours of Work Act, 1934, applies only to industrial undertakings, wholesale and retail stores, hotels and restaurants and other designated workplaces or occupations, the Female Minimum Wage Act gives power to the Board of Industrial Relations to limit hours but no such authority is granted by the Male Minimum Wage Act. In Manitoba, Saskatchewan and Quebec, maximum hours of work may be fixed under the minimum wage law. Since the Saskatchewan Act was made applicable to men in 1936, the orders under it have been revised and maximum hours are no longer fixed but there are punitive rates of wages for hours in excess of the number to which the minimum rates apply. The Quebec Fair Wage Board in Order 4 limits to 72 a week the hours of male workers in all the industrial and commercial establishments to which it applies throughout the province. Maximum working hours of women and boys under 18 are fixed by the Quebec Industrial and Commercial Establishments Act as stated below. The restrictions imposed under the minimum wage laws of British Columbia and Manitoba are noted under the class of workplace to which they apply.

The regulations as to payment for overtime beyond the number of hours to which the minimum wage is declared to apply or for hours in excess of the ordinary legal maximum are summarized in the earlier part of this Appendix.

Public Works

In Alberta and British Columbia, hours of labour on public works are limited by the Hours of Work Acts. In Manitoba and Ontario special statutes govern labour conditions on public works.

Under the Manitoba Fair Wage Act of 1916, the Minister of Public Works is authorized to establish maximum hours for persons employed on all works of construction contracted for by the provincial Government. The maximum hours fixed by the regulations vary with the occupation from 44 to 48 per week, except for teamsters who have a maximum working week of 54 hours. The Ontario Government Contracts Hours and Wages Act, 1936, limits hours on public works and works subsidized by the provincial Government to eight a day and 44 a week. Exceptions may be made by the Government.

In Quebec, by an order in council of April 24, 1929, as amended on October 6, 1932, the Minister of Public Works and Labour may determine "fair and reasonable" hours of labour on construction works for the Quebec Government. In other provinces, by order in council or by resolution of the Legislature "a fair wages" policy is applied to public works and wages and hours are usually determined according to the custom of the trade in the locality.

An Ordinance of 1917 establishes an eight-hour day except in emergency for persons employed on public works in the Yukon Territory.

Mines

Mining for metals or non-metallic minerals is carried on in all the provinces but Prince Edward Island as well as in the Yukon Territory and there is coal mining in Alberta, British Columbia, New Brunswick, Nova Scotia and Saskatchewan with a very small production in Manitoba and the Yukon. Wherever coal is mined the working day underground is limited by law to eight hours but under all the laws longer hours may be worked in emergencies or for repair work or at a change of shifts. In Alberta and British Columbia the eight-hour period includes time spent going to and from the working face. In Nova Scotia and New Brunswick the limits apply only to time spent at the place of work. Workers above ground about coal mines have a statutory eight-hour day in British Columbia and Saskatchewan and a nine-hour day and 54-hour week in Alberta. In Saskatchewan longer hours either above or below ground may be worked by agreement between the workman and employer.

In metal mining in Northern Ontario, except where the number employed in a shift is six or less, and in New Brunswick, the law provides

for an eight-hour day for underground workers, the time to be reckoned in each case from the time the man reaches his place of work until he leaves it. In Ontario, a Saturday shift may work longer hours for the purpose of avoiding work on Sunday, of changing shifts or of giving any of the men a part holiday. In New Brunswick any one required to work longer hours in an emergency must be paid for the extra time at the regular rate. In British Columbia the working hours of those employed above ground as well as those below ground are limited to eight a day as are also the hours of men employed in or about a smelter or mineral-separation plant except when shifts change. In Alberta, the eight-hour limit applies to underground workers in any mines and for those above ground the statutory maximum is nine hours a day and 54 a week as about coal mines. In Quebec, there is no restriction on the hours of adult males in mines except in iron oxide mining where, under the Collective Labour Agreements Act, the workmen have a 48-hour week. Boys under 17 may not be employed below ground in any mine in Quebec for more than 48 hours in six days. In the Yukon miners may not be employed more than eight hours in a day and 56 in a week unless payment is made at the overtime rate. In Nova Scotia, there is no statutory regulation of hours of work in mines other than coal mines. Except in Alberta, British Columbia, Saskatchewan and the Yukon there is no legal restriction on hours above ground.

Factories

Early factory legislation in all provinces except Prince Edward Island limited hours of women and young persons, and in Alberta the Factories Act of 1926 provided for a nine-hour day and 54-hour week for both sexes. In Nova Scotia the clause fixing maximum hours was later dropped while in Alberta and Manitoba the power to limit hours given by the Minimum Wage Acts was exercised to reduce the maximum fixed by the factory law in so far as women were concerned. When the Alberta Hours of Work Act was passed in 1936 it maintained the existing conditions of a maximum of nine hours a day and 54 a week for male workers and eight hours a day and 48 a week for women and girls. In British Columbia the Hours of Work Act of 1923 extended to men and boys the eight-hour day and 48-hour week provided for women and girls by the Factories Act of 1908. In New Brunswick and Ontario the 10-hour day and 60-hour week fixed in the first factory laws for women and girls, and in Ontario also for boys under 16, have not been changed but in Quebec the weekly limits for women and

boys under 18 were reduced in 1930 to 55. In these three provinces the daily limit may be exceeded for the purpose of arranging for a shorter work day on one day of the week. Order 4 under the Quebec Fair Wage Act fixes a maximum of 72 hours a week for male workers over 18 in industrial and commercial establishments throughout the province. In Saskatchewan there is a 48-hour week for women and boys under 16 in factories.

In New Brunswick, Ontario, Quebec and Saskatchewan, longer hours may be worked by special permission of the factory inspector in case of any accident preventing the working of the factory, or of any other occurrence beyond the control of the employer which prevents the machinery being regularly worked or where the custom or exigencies of the trade require longer hours, but the Acts stipulate that in such cases the hours of work of the classes of workers to which the limits apply shall not exceed a fixed number: in New Brunswick, 13½ hours a day and 84 a week; in Quebec, 12 a day and 65 a week; and in Ontario and Saskatchewan, 12½ a day and 72½ a week. In no case may permits for hours in excess of the ordinary maximum be given for more than 36 days in a year. Under these statutes, night work is prohibited for the same classes of workers by fixing the period in which the hours of work must fall: in New Brunswick between 6 a.m. and 10.30 p.m.; in Quebec and Ontario between 6 a.m. and 9 p.m. and in Saskatchewan between 7 a.m. and 10 p.m. Normal working hours may not be later than 6 p.m. in Quebec or 6.30 p.m. in Ontario or earlier in Ontario than 7 a.m.

Under all the factory laws except those of Alberta and Quebec, an hour must be allowed for a noon meal and if work is prolonged by special permission of the inspector after 7 p.m., at least 45 minutes, or in New Brunswick one hour, must be given for an evening meal. In Quebec the inspector may direct that an hour be given for the noon meal and, by regulation, half an hour must be allowed for an evening meal if work goes on after 6 p.m.

In Ontario since 1932 and Quebec since 1935, with permission from the chief inspector, women and young persons may be employed in two shifts of eight hours each, both shifts to fall between 6 a.m. and 11 p.m. and each shift to have one hour for a meal.

In Manitoba under the Minimum Wage Act, the maximum hours that may be worked by women and boys under 18 in factories are 8 in a day and 48 in a week except with a permit from the provincial Bureau of Labour.

Orders in Council in Quebec under the Collective Labour Agreements Act and in Alberta and Ontario under the Industrial Standards Acts fix maximum hours for workers in certain

classes of factories. These are indicated in the section of this appendix devoted to these statutes.

Shops

As regards shops, hours of work are limited by statute for all classes of workers only in Alberta and British Columbia. In both these provinces, shops are within the scope of the Hours of Work Acts.

In Ontario there is a maximum 10-hour day and 60-hour week for women and boys under 16. In Quebec the Industrial and Commercial Establishments Act fixes a 60-hour week for women and boys under 18 in cities and towns of 10,000 or more but this restriction appears to be superseded by Order 4 under the Fair Wage Act limiting hours for these classes to 55 a week in all parts of the province. Under the same order, the maximum work-week for men in retail and wholesale stores in Quebec is 72 hours. In Manitoba a minimum wage order limits hours of work of women and boys under 17 in shops to 8 a day and 48 a week.

Except in Alberta and Ontario, provision is made for a limited amount of overtime, particularly during the Christmas season but in Manitoba no person under 17 may work overtime. In British Columbia regulations permit employees in shops outside of Victoria, Vancouver, Burnaby, Esquimalt, Oak Bay and Saanich to work three additional hours on Saturday and on the day before a holiday occurring on Saturday but the weekly hours may not exceed, 48. Exemptions from the maximum hours are permitted for certain occupations such as druggists and florists.

The Ontario Act prohibits women and boys under 16 being employed in shops before 7 a.m. or after 11 p.m. With respect to boys, this provision is modified by the Adolescent School Attendance Act which forbids any employment, except with a permit, of children from 14 to 16 years of age between the hours of 8 a.m. and 5 p.m. In Nova Scotia, the Children's Protection Act prohibits the employment in shops of girls under 16 and boys under 14 for more than eight hours or more than four hours on Saturday.

All the provinces except Prince Edward Island have statutes which may indirectly affect hours of work in shops by permitting certain municipal councils to make by-laws requiring the closing of shops at a certain hour. In Quebec the Early Closing Act applies only to cities and towns while in other provinces the councils of cities, towns and villages or, in some cases, of counties or townships have power to make such a by-law. In Quebec, also, the Act stipulates that the hour fixed for closing shall not be earlier than 6 p.m., but in the other provinces the by-law

may provide for a half-holiday on one day of the week as well as for a fixed closing hour on other days.

In British Columbia and Saskatchewan there is special provision for a weekly half-holiday for shops. In Saskatchewan the Act applies only to cities and fixes Wednesday unless a by-law appointing another day of the week is passed. The Saskatchewan Weekly Half-Holiday Act applies only to shops in cities and requires them to be closed on Wednesday afternoons from April 1 to August 31 unless the city council has passed a by-law for a half holiday on another day or for a longer period. In all cases, provision is made for exempting news agents' and tobacconists', shops, those where fruits and perishable foods, are sold and some others.

Bakeshops

Large bakeries not selling at retail on the premises are probably everywhere within the scope of the Factories Acts. They are under the Hours of Work Act in Alberta, also in British Columbia where an exception is made for delivery-men who may work 54 hours a week. In Manitoba the minimum wage order governing factories apparently covers bakeshops, women and boys under 18 having an eight-hour day and a 48-hour week being fixed for all. The Ontario Factory, Shop and Office Building Act fixes a maximum of 56 hours for adult male employees in bakeshops allowing overtime in certain cases. Orders in Council under the Quebec Collective Labour Agreements Act and the Industrial Standards Acts of Alberta and Saskatchewan govern hours of labour for bakers in some cities.

Barber Shops and Beauty Parlours

There is no general legal limitation of hours of labour in barber shops and beauty parlours in Nova Scotia, New Brunswick or Prince Edward Island but early closing by-laws in the first two provinces may restrict working hours in some places.

In Alberta the Hours of Work Act applies to both. Barber shops in British Columbia are within the Hours of Work Act and an Order under the Female Minimum Wage Act fixes maximum working hours in beauty parlours at nine a day and 44 a week. A Manitoba Minimum Wage Order provides that no female or boy under 18 may be employed in a beauty parlour for more than 10 hours in a day or 48 in a week except with a permit from the Bureau of Labour. Hours in barber and beauty shops in Manitoba may be fixed under the Fair Wage Act as amended in 1938 but no orders have been made.

In Ontario, working hours in beauty shops may, since 1939, be regulated to some extent by municipal early closing by-laws as they have been in barber shops in Ontario and some other provinces. In many Ontario cities and towns schedules of wages and hours under the Industrial Standards Act apply to barber shops but in most cases the only regulation of hours is in accordance with local by-law. In Quebec under the Limitation of Hours Act, employment in beauty parlours on the Island of Montreal is restricted to 55 hours in a week between 9 a.m. and 7 p.m. except on Saturdays when the time may be extended to 9 p.m. In other cities and towns agreements under the Collective Labour Agreements Act fix hours varying from 55 to 59 a week. In Saskatchewan barbers and hairdressers in several towns have their hours of work limited under the Industrial Standards Act.

Hotels and Restaurants

In New Brunswick, Nova Scotia, Prince Edward Island and Saskatchewan, hours of labour in hotels and restaurants are not restricted by statute or regulation.

In Alberta and British Columbia, the Hours of Work Acts apply to these places. In British Columbia hotel clerks and persons employed in public dining rooms and the service connected therewith have an eight-hour day and 48-hour week but an order under the Female Minimum Wage Act allows women in hotels and restaurants to work in emergencies up to 10 a day and 52 a week. In resort hotels the maximum work-week for women and girls is 54 hours. An order under the Manitoba Minimum Wage Act limits the hours of all workers in restaurants and of girls, women and boys under 18 in hotels to 10 a day and 48 a week with specified rest periods but cooks may be required to work up to 54 hours a week.

Working hours in hotels in Ontario are not regulated but restaurants are under the Factory, Shop and Office Building Act and females and boys under 16 have a maximum of 10 hours in a day between 7 a.m. and 11 p.m. and a 60-hour week unless a special permit is obtained from the inspector. By Order 4 of the Quebec Fair Wage Board in hotels and restaurants hours are limited to 55 a week for women and boys under 18 and to 72 a week for men.

In Alberta, British Columbia, Manitoba, Ontario, Quebec and Saskatchewan, there is provision for a weekly rest-day for most classes of workers in hotels and restaurants but in all except Alberta and British Columbia it applies only to cities or in Quebec to cities and towns. In British Columbia, the regulation relates only to female workers.

Offices

In Alberta, the hours of office workers are governed by the Hours of Work Act. A regulation under the British Columbia Female Minimum Wage Act limits hours of women in offices to eight a day and 48 a week unless a permit for longer hours is given by the Board of Industrial Relations.

The Manitoba Minimum Wage Board has fixed maximum hours for female office workers in Winnipeg, St. Boniface, St. James and Brandon at eight a day and 44 a week except in shops where hours are the same as for the selling force. The Shops Regulation Act, which applies to offices in connection with shops, limits hours of young persons and women to 48 a week and eight a day.

The maximum 55-hour week for women and boys under 18 and 72-hour week for men provided by Order 4 of the Quebec Fair Wage Board appears to apply to office workers.

In other provinces persons employed in clerical work in such establishments as factories and shops, would seem to come within the scope of the laws limiting hours in these work-places but there is no limitation on the hours of workers in offices of financial institutions or in professional offices. As in other work-places overtime rates fixed under minimum wage laws tend to restrict the hours of office employees.

Transport

Road Transport

Road transport of goods for remuneration is within the scope of the Hours of Work Act in British Columbia and persons employed in transporting goods, which are not the property of the employer, by any means other than by rail, water or air may be permitted to work up to 10 hours a day and 54 a week. Operators of motor-cycles and boys on delivery or messenger work on foot or bicycle have an eight-hour day and 48-hour week while drivers delivering milk may be employed 10 hours in a day and 63 in a week but not more than 378 hours in seven weeks. Taxicab drivers have a maximum of 54 hours in a week and, except in Victoria and suburbs, a maximum of nine hours in a day. In Victoria they may be employed for 10 hours within the 11 hours immediately following reporting for work.

In Alberta, no regulations under the Hours of Work Act have been made for road transport except for passenger vehicles in Edmonton where maximum hours for drivers are 12 from the time of starting work on six days a week with a rest period of one hour each day. Similar regulations apply to taxi-drivers in Calgary under the Industrial Standards Act,

but in Banff during the summer season there may be a 12-hour day and seven-day week for taxi and bus drivers. Throughout the province a regulation of the Highway Traffic Board limits hours spent in driving a goods or passenger vehicle to nine in 24 except in an emergency, but under special circumstances a maximum of 10 hours in two periods of five hours each separated by a 45-minute rest period may be permitted.

In Manitoba, no person may be employed in driving a goods or passenger vehicle for more than nine hours or employed in any capacity for more than 12 hours in any 24 or on duty more than six days a week except in case of a breakdown of the vehicle. Taxicab drivers in Winnipeg, however, may be on duty as drivers or in another capacity for a maximum of 12 hours a day on six days a week. The Saskatchewan Vehicles Act, 1939, allows the Highway Traffic Board to regulate hours of drivers of public service and commercial vehicles but none has been issued.

In New Brunswick, Nova Scotia, Ontario and Prince Edward Island, drivers of transport vehicles may not be employed more than 10 hours, out of 16 consecutive hours in New Brunswick, and out of 24 in Nova Scotia, Ontario and Prince Edward Island. In New Brunswick, the 10 hours cover only work as a driver but in Nova Scotia it applies to work in any capacity in connection with a vehicle transporting passengers or passengers and freight. In both provinces some vehicles are exempt. In Ontario, the 10-hour limit applies to both passenger and goods transport but the stipulation for passenger transport is limited by the Public Vehicle Act to the hours spent in driving or operating the vehicle. For truck drivers work in any capacity is prohibited by regulations under the Commercial Vehicle Act for more than 10 hours in 24. Taxicab drivers in Toronto have a maximum 11-hour day and 66-hour week under the Industrial Standards Act.

In Quebec, except in an emergency when an overtime rate of \$2 an hour must be paid, no employed person may be permitted to drive a motor vehicle transporting passengers or goods for more than 12 consecutive hours without taking a rest period in addition to the time for meals, and no bus driver may drive more than 250 miles in 24 hours.

Steam Railways

Only in Ontario is there any statutory regulation of the hours of work of steam railway employees. The Ontario Railway Act forbids a company which operates a line of railway of 20 miles in length or over permitting a conductor, engineer, fireman, trainman, dispatcher or signal man who has worked

in any capacity for 16 consecutive hours to go on duty again until he has had at least six hours' rest.

Electric and Street Railways

In British Columbia, the Lieutenant-Governor in Council may, under the Railway Act, limit the number of days in a week on which street railway employees may be allowed to work but no regulations have been made.

The Ontario Municipal Board has power to regulate the working hours of conductors and motormen employed by a street or electric railway company but the Railway Act stipulates that no person may be employed more than six days a week of 10 hours each and whenever practicable or reasonable the ten hours must be within 12 consecutive hours.

In Nova Scotia, the Halifax Street Railway Companies Act contains provisions to limit the hours of conductors and motormen to six on Sunday and 10 on weekdays but they are dependent on an order of the Board of Commissioners of Public Utilities which has not been issued.

Municipal Fire Departments

The legislatures of Alberta, British Columbia, Nova Scotia, Ontario and Saskatchewan, have enacted measures for regulating the working hours of persons employed by municipal fire departments. A two-platoon system is provided for in all these provinces.

In Alberta, in every place having a paid fire department, all employees may have one full day off duty in every week. In cities or towns having a population of 10,000 or more, the two-platoon system is compulsory. The Act provides alternative systems: either employees have 24 hours on duty followed by 24 hours' rest or there are day and night shifts, the shifts alternating every seven days, and covering 10 hours during the day or 14 hours at night. The one full day off duty does not include periods of release at the changing of platoons. A 1939 amendment provides that cities and towns with a population of 8,000 or more and a permanent fire department may, by by-law, adopt the three-platoon system, each platoon working for eight consecutive

hours in a day. Such by-law may be passed and submitted to the electors by the council of its own motion and must be passed and submitted to them on receipt of a petition signed by at least 10 per cent of the electors.

In British Columbia, the Fire Departments Hours of Labour Act and the Fire Departments Two-Platoon Act both apply to any place where there is a paid fire department. Employees must have two full days off duty in addition to time off duty at the change of platoons.

In Ontario, the Fire Departments Act applies to places having a population of not less than 10,000 and a permanent fire department paid by the municipal corporation. The two-platoon system is compulsory, every employee having 24 consecutive hours off duty, not including periods of release at the change of platoons.

In Nova Scotia in cities with a population of 30,000 or more, where there is a permanent fire department paid by the city, the two-platoon system comes into force when it is approved by a majority of the City Council.

The Saskatchewan Act applies to all cities with a population of 10,000 or more but a 1939 amendment allowed cities of under 15,000 to contract out before January 1, 1940. The two alternative systems are as in Alberta and employees have 24 consecutive hours off duty, not including periods of release at the changing of platoons.

Miscellaneous

In certain other occupations, hours of work are limited by regulation in some provinces. In British Columbia, Ontario and Quebec, the maximum working time for workers in compressed air varies from one and one-half hours in 24 when pressure is 45 to 50 pounds per square inch to seven hours in British Columbia and eight in Ontario and Quebec when pressure is 22 pounds or less. In the three provinces, work is to be divided into two shifts with a rest period ranging from five hours to half an hour according to the pressure.

Moving-picture machine operators in Manitoba may not be permitted to be on duty for more than five hours without a rest period of at least two hours.
